New Asia Journal Vol 19 June 30 1999:

Chinese Grand Strategy and Maritime Power Thomas M. Kane, 2016-05-06 This challenging new book argues that the People's Republic of China is pursuing a long term strategy to extend its national power by sea **Explaining ASEAN**

Shaun Narine, 2002 Is ASEAN the foundation of a strong regional community in Southeast Asia Or is it no more than an instrument used by its members to advance their individual interests Addressing these questions Shaun Narine offers a comprehensive political analysis of ASEAN from its creation in 1967 through the events of 2001 Reflecting both the accomplishments and the limitations of the organization Explaining ASEAN explores issues of regional security economic stability and the growing expectations of the international community Narine's trenchant analysis makes it clear that unless ASEAN can resolve the problems of inadequate resources and disagreements among the member states its future as an effective active international regime is doubtful **Turkey** Amikam Nachmani, 2003 Turkey's involvement in the Gulf War in 1991 helped pave the way for the country's bid to join the European Union This text traces that process The first part looks at Turkey's foreign policy in the 1990s while the second focuses on Turkey's role in internal politics during this period

Korea in the New Asia Francoise Nicolas, 2007-06-07 This book analyzes to what extent and how South Korea may contribute to and take advantage of the new regional configuration in East Asia which is dominated by the rise of China

Turkish Foreign Policy Since 1774 William M. Hale, 2013 This revised and updated version of William Hale's Turkish Foreign Policy 1774 2000 offers a comprehensive and analytical survey of Turkish foreign policy since the last quarter of the eighteenth century when the Turks relations with the rest of the world entered their most critical phase In recent years Turkey's international role has changed and expanded dramatically and the new edition revisits the chapters and topics covered in light of these changes Drawing on newly available information and ideas the author carefully alters the earlier historical narrative while preserving the clarity and accessibility of the original Combining the long historical perspective with a detailed survey and analysis of the most recent developments this book fills a clear gap in the literature on Turkey's modern history For readers with a broader interest in international history it also offers a crucial example of how a medium sized power has acted in the international environment *Problems of Democratization in China* Thomas G. Lum, 2015-01-28

While evaluating competing theories of why countries become democratic this study argues why China has not democratized Also discusses are the Communist Party's methods of social control and examines four groups Party and government cadres intellectuals workers and peasants The Strategic Implications of China's Energy Needs Philip Andrews-Speed, Xuanli Liao, Roland Dannreuther, 2014-08-27 China is frequently described as a threat to regional and global stability and its rapidly rising demand for imported energy is seen as one cause of this threat This book shows that domestic politics and foreign policy have both played a part in China's recent major energy policy decisions However China's increasing involvement in the global energy markets can be seen as an opportunity to enhance cooperation and interdependence rather than as a threat

Regionalism in the New Asia-Pacific Order Joseph A. Camilleri, 2003-01-01 Regionalism in the Asia Pacific is a complex and rapidly evolving phenomenon This volume explores the relationship between globalization and regionalization between states markets and civil society and between US hegemony and Asian aspirations Demystifying Syria Fred H. Lawson, 2012-02-27 Syria stands at the centre of contemporary Middle Eastern affairs but remains poorly understood Recent writing has focused on the intentions and objectives of the political leadership in Damascus yet there are many severe constraints on what senior policy makers can actually do This collection presents new research conducted by the contributors on aspects of Syrian politics economics and diplomacy that are too often ignored Essays on the shifting relations between the Ba th party and the armed forces burgeoning private enterprise and the dramatic Turkish Syrian detente will prove essential reading for anyone with an interest in this pivotal and assertive Middle Eastern state Contributors include Bassem Haddad Souhail Belhadj Baudoin Dupret Zouhair Ghazzal Thomas Pierret Salwa Ismail Joshua Landis and Joe Pace **The Criminal-Terror Nexus in Chechnya** Jeff Meyers, 2017-04-12 The line between criminal and terrorist groups is often blurred and Chechen groups are an excellent example of this new phenomenon As the Soviet Union collapsed groups began to fill the cracks offering services that the state could not The Chechens were one group that outrivaled many groups and they soon became synonymous throughout the Russian Federation with criminal This work looks into the historical social and religious reasons behind the rise of militant Islam in the region From there it will discuss the historical difference between organized crime and terror how the two have coalesced into the crime terror nexus and how the Chechens compare to two other groups that have gone through the same evolution The Sicilian mafia and the militant Islamic Movement of Uzbekistan or IMU Though neither group are exactly the same there are links that can help the reader understand the domestic and foreign problems that twenty first century nation states deal with throughout the world
