Nueva Cuestión Social La:

La nueva cuestión social Pierre Rosanvallon, 1995-03-01 El Estado providencia está siempre en crisis Pero está cambiando de naturaleza Más allá de los acuciantes problemas de financiamiento y gestión más allá de los interrogantes planteados sobre la eficacia del sistema de redistribución lo que se pone en tela de juicio son los principios organizadores de la solidaridad y la concepción misma de los derechos sociales La crisis es ahora de orden filosófico Está ligada al advenimiento de una nueva cuestión social Ya no se trata únicamente como hace diez años de relegitimar el Estado providencia Frente a las fracturas sociales de la década del ochenta la intervención pública en efecto recupera toda su justificación Hoy en día hay que proceder a una refundación intelectual y moral Pierre Rosanvallon explora en este libro las formas que podrá asumir un Estado providencia activo vinculado al desarrollo de la ciudadanía social Invita en especial a enriquecer la noción de derecho social a reformular la definición de lo justo y lo equitativo a reinventar las formas de la solidaridad Esta búsqueda es indisociable de una práctica más activa de la democracia y de una idea renovada de la nación Este libro propone una rediscusión de conjunto de la cuestión social Prolonga y renueva profundamente los análisis ahora ya clásicos que el autor había realizado en *La crisis del Estado providencia*

La cuestión social en el siglo XXI en América Latina La cuestión social en el siglo XXI en América Latina Carlos Barba, Gerardo Ordóñez, Yasodhara Silva, 2021-09-22 El análisis de las tendencias a escala global enmarcadas por las secuelas de la crisis económica mundial de 2007-2008 la emergencia de nuevos riesgos sociales asociados a la economía postindustrial la pérdida de centralidad del trabajo como eje de la integración social el cambio tecnológico la heterogeneidad histórica de los sistemas de protección social y la evolución de los niveles de gasto social se conjugan con el examen a escala regional en América Latina en torno a las implicaciones sobre las agendas sociales de los dos giros políticos ocurridos en varios países durante el transcurso del presente siglo primero a la izquierda y luego a la derecha lo que lleva a plantear diferentes escenarios y proponer posibles rutas más progresistas Esta obra discurre alrededor de una crisis de poca busca contribuir a pensar desde América Latina el presente y el futuro de las sociedades contemporáneas y a analizar sus grandes problemas tanto aquellos que la historia arrastra sin resolver como los que se desprenden de la nueva constelación de riesgos sociales que caracterizan nuestra época La experiencia tras cuatro decenios de predominio del neoliberalismo permite observar los resultados de una apuesta fundamentalista por el mercado y los individuos recapitular sus efectos sobre la distribución social de recursos económicos políticos y simbólicos y el crecimiento exponencial y global de las desigualdades que conlleva una erosión peligrosa de la cohesión social en múltiples escalas Quiénes colaboran en este libro dialogan y hacen una reflexión crítica alrededor de la agenda propuesta desde las Naciones Unidas a través de los Objetivos del Desarrollo Sostenible en temas cruciales como la eliminación de la pobreza la reducción de desigualdades el trabajo decente la igualdad de género paz justicia e instituciones sólidas y la protección del medio ambiente pero además revelan problemáticas centrales de la Cuestión Social en la actualidad provenientes de ciclos de reformas sociales contradictorias entre sí

Prisons, State

and Violence Maria João Guia, Sílvia Gomes, 2019-10-16 This book provides a unique analysis of prisons and the violence at work inside them. It not only addresses aspects such as racial discrimination especially in US prisons but also gender differences, specific criminal groups operating within prisons, the reintegration processes and its failures. Combining works by various authors, it presents diverse perspectives on prison violence in countries ranging from the USA to Australia, crossing European countries such as Portugal and Spain among others but also specific aspects such as prohibitions on phone calls, the economic crisis and the current challenges of mass incarceration. As such, it offers a broad overview of several problems relevant to all scholars interested in deepening their understanding of violence in prisons. La cuestión social en el siglo

XXI en América Latina Carlos Barba, Gerardo Ordoñez, Yasodhara Silva Medina, 2021-07-24 El análisis de las tendencias a escala global enmarcadas por las secuelas de la crisis económica mundial de 2007-2008, la emergencia de nuevos riesgos sociales asociados a la economía postindustrial, la pérdida de centralidad del trabajo como eje de la integración social, el cambio tecnológico, la heterogeneidad histórica de los sistemas de protección social y la evolución de los niveles de gasto social se conjuga con el examen a escala regional en América Latina en torno a las implicaciones sobre las agendas sociales de los dos giros políticos ocurridos en varios países durante el transcurso del presente siglo: primero a la izquierda y luego a la derecha. Lo que lleva a plantear diferentes escenarios y proponer posibles rutas más progresistas. Esta obra discurre alrededor de una crisis de poca busca contribuir a pensar desde América Latina el presente y el futuro de las sociedades contemporáneas y a analizar sus grandes problemas tanto aquellos que la historia arrastra sin resolver como los que se desprenden de la nueva constelación de riesgos sociales que caracterizan nuestra época. La experiencia tras cuatro decenios de predominio del neoliberalismo permite observar los resultados de una apuesta fundamentalista por el mercado y los individuos recapitular sus efectos sobre la distribución social de recursos económicos políticos y simbólicos y el crecimiento exponencial y global de las desigualdades que conlleva una erosión peligrosa de la cohesión social en múltiples escalas. Quienes colaboran en este libro dialogan y hacen una reflexión crítica alrededor de la agenda propuesta desde las Naciones Unidas a través de los Objetivos del Desarrollo Sostenible en temas cruciales como la eliminación de la pobreza, la reducción de desigualdades, el trabajo decente, la igualdad de género, paz, justicia e instituciones sólidas y la protección del medio ambiente, pero además revelan problemáticas centrales de la Cuestión Social en la actualidad provenientes de ciclos de reformas sociales contradictorias entre sí.

La mediación Pedro José Cabrera Cabrera, 2008 La mediación como herramienta para la resolución de conflictos va cobrando mayor relevancia en el panorama actual. Este monográfico aborda este tema desde diversas perspectivas. Por un lado, analizando qué se entiende por mediación y cuál debe ser su utilidad; y por otro, se tratan de diversos y situaciones conflictivas en donde se ha utilizado o se puede hacer uso de la mediación.

La nueva política en América Latina Carlos Moreira, Diego Raus, Juan Carlos Gómez Leyton, 2008 Manual de la Sociología del Trabajo y de las Relaciones Laborales. 2

Ed., 2007 **La temprana cuestión social** Ricardo González Leandri, Pilar González Bernaldo de Quirós, Juan Suriano, 2010

En la segunda mitad del siglo XIX tuvo lugar en Argentina un proceso histórico que permitió la consolidación de un concepto de sociedad, el mantenimiento de la cohesión social y la aparición de una acción colectiva y de una implicación pública. Los autores de este libro sostienen esta teoría de la existencia de una cuestión social temprana en la ciudad de Buenos Aires por lo que proponen un análisis de esta realidad social argentina y se preguntan por la invención de lo social y su conversión en problema. Para ello analizan distintos ámbitos como la beneficencia, paradigma de acción social comunal, la higiene y la salud, espacio de control de la pobreza que impulsó redes de interdependencia social, claves la educación, ámbito donde primero confluyeron el afán de control, un discurso de los derechos sociales y la presunción de la obligación pública, o cómo la crisis de 1890 afectó a los trabajadores y a las representaciones de las lites sobre ellos reorientando la cuestión social hasta convertirla en cuestión obrera.
