Nuke Worse Case Scenario Series:

Nuke Dave Eberhart, 2004-03 Special prosecutor John Stryker uncovers a fiendish terrorist plot when he investigates mutilated radiation burned human bodies US Narratives of Nuclear Terrorism Since 9/11 David Seed, 2019-04-06 This study examines the US fiction and related films which makes a series of interventions in the cultural debate over the threat of nuclear terrorism It traces the beginnings of this anxiety from the 1970s which increased during the 1990s after the collapse of the Soviet Union The traumatic events of 9 11 became a major reference point for this fiction which expressed the fear that of a second and worse 9 11 The study examines narratives of conspiracies which are detected and forestalled and of others which lead to the worst of all outcomes nuclear detonations sometimes delivered by suitcase nukes In some of these narratives the very fate of the nation hangs in the balance in the face of nuclear apocalypse The discussion considers cases of attacks by electromagnetic pulse EMP cyberterrorism and even bioterrorism Some of the authors examined are present or former politicians members of the CIA and former president Bill Clinton **The Progressive Parent** Kevin

Senapathy, 2024-08-06 An evidence based social justice minded exploration of modern parenting from an award winning science journalist and cofounder of SciMoms How can we raise happy well adjusted kids today amid so much injustice and uncertainty This is the question at the heart of the progressive parent s dilemma Fortunately award winning science journalist Kevin Senapathy has the answers In this lively accessible exploration of modern parenting Senapathy guides readers through the complex cultural environmental economic and political issues facing all families today Equipped with practical tips and research driven advice for parents of kids from infancy to early teens she helps readers build a more fulfilling relationship with their children and themselves by addressing pressing questions such as Is formula feeding okay What is natural parenting How much screen time is too much screen time How do I help my children navigate questions around race and gender identity Informed by her experiences as a nonbinary parent of color and filled with a science journalist s hard won wisdom *The Progressive Parent* is an essential read for any parent or parent to be who believes that the values of science truth equity and justice should be applied not only individually but collectively **North Korea's Second**

Nuclear Crisis and Northeast Asian Security Tae-Hwan Kwak, 2016-05-23 North Korea s testing of a nuclear bomb sent out a shock wave throughout the world and totally changed the strategic equation in the Korean peninsula and Northeast Asia This testing has far reaching implications for Korean peace and unification Northeast Asian security and America s global war on terrorism This key volume provides an in depth analysis of the inter Korean and international dynamics of North Korea s nuclear crisis It offers new insights into the six party talks designed to resolve the crisis suggests creative formulas to resolve the ongoing crisis through peaceful diplomatic means and delves into the interests and policies of the major powers the US China Japan and Russia at the six party negotiating table The contributing authors are distinguished specialists and experts in the field and as such offer valuable expertise into the dynamics of this nuclear crisis for students

and academics *Eve of Destruction* John Hughes-Wilson, 2021-04-22 It is certainly a good thing for the world that Hitler's crowd or Stalin's did not discover this atomic bomb. It seems to be the most terrible thing ever discovered. US President Harry S. Truman evidently understood the terrifying power of atomic weaponry but no one could have realised its full potential when he ordered the bombings of Hiroshima and Nagasaki in August 1945. Those military attacks along with the disasters at the Fukushima and Chernobyl nuclear reactors might immediately spring to mind at the mention of nuclear destruction but the vast majority of the events recorded in this book are entirely unknown to most people. This book records the facts many of them still shrouded in secrecy which show a worrying truth we have teetered precariously on the brink of Armageddon far more frequently than the general public realises. Since that first and last atomic war in 1945 there have been a terrifying number of nuclear accidents and mishaps from the careless or accidental to the genuinely intentional and only narrowly averted. Despite the catastrophic nature of any nuclear conflict we have come to the very borders of such a situation ten times since the 1960s. Most people know about the Cuba Missile Crisis and a few about Operation Able Archer in 1984 which if anything was even more frightening than Cuba but there have been eight other occasions that might easily have toppled over into outright war. These were potential conflicts but there have been other accidents such as the reactor meltdown at the nuclear generating plant at Three Mile Island Pennsylvania in 1979 or the Palomares Incident in 1966 when a USAF B 52 bomber crashed after a mid air collision dropping four hydrogen bombs on Spanish soil. *Eve of Destruction* is a warning from history recent history. It is a call to sit up and listen and to take note of the very real danger of nuclear catastrophe. It is a timely and important book because after all the future of our planet has to concern us all. **From Stones to Nukes** Adolf Kellenberger, 2024-01-15 This volume offers a sophisticated exploration of the history of weapons and warfare in Europe and the Atlantic world aimed at stimulating and inspiring those with an interest in this domain. It invites readers to revisit the foundational principles that underpinned the development of contemporary armaments and military practices until shortly before the turn of the millennium. In an era where global challenges have become inescapable this book emphasizes the importance of reconnecting with our shared origins and understanding our unique paths. As our world undergoes rapid changes in politics society economics and technology this exploration of history sheds light on the dynamics of change both in times of peace and war. *Nuclear Romance* Abby Luby, 2011-10-14 *Nuclear Romance* a debut novel by New York journalist Abby Luby was written after the devastating accident at Japan's Fukushima nuclear power plants in March 2011. In the novel the tragic and mysterious death of a 7 year old girl after swimming at a beach across from a nuclear power plant sets off a chain of events involving a sports journalist an anti nuclear activist a grieving mother and her son. A young woman reporter falls prey to a callous plant executive who is driven to keep the multi billion dollar nuclear company viable. A clandestine love affair develops against the backdrop of growing anti nuclear sentiment which escalates after highly radioactive steam escapes from the plant forcing a mass evacuation. *America's War Machine* James

McCartney, Molly Sinclair McCartney, 2015-10-27 A veteran Washington reporter reveals how years of military slanted domestic and foreign policy have turned the U S into a perpetual war machine When President Dwight D Eisenhower prepared to leave the White House in 1961 he did so with an ominous message for the American people about the disastrous rise of the military industrial complex Fifty years later the complex has morphed into a virtually unstoppable war machine one that dictates U S economic and foreign policy in a direct and substantial way Based on his experiences as an award winning Washington based reporter covering national security James McCartney presents a compelling history from the Cold War to present day that shows that the problem is far worse and far more wide reaching than anything Eisenhower could have imagined Big Military has become too big to fail and has grown to envelope the nation s political cultural and intellectual institutions These centers of power and influence including the now complicit White House and Congress have a vested interest in preparing and waging unnecessary wars The authors persuasively argue that not one foreign intervention in the past 50 years has made us or the world safer With additions by Molly Sinclair McCartney a fellow journalist with 30 years of experience America s War Machine provides the context for today s national security state and explains what can be done about it Controlled Burn S.E Lewinski, 2022-03-16 This Sci Fi journey will challenge your thinking on evolution the fate of the planet and who s pulling the strings This is a fast paced non stop adventure from the USA to South America The roller coaster journey leads to an ancient location in Peru where Liam Abram must make a monumental decision Follow Liam the errant professor as he faces life and death choices and meets an array of challenges including jungles guns criminals and travelling with a woman who is not of this world The final question is will you be part of the Controlled Burn and succumb with the rest of humanity **Empty Quiver** M John, 2017-05-03 The most immediate and extreme threat to global security is a nuclear weapon falling into the hands of terrorists who have the will to use it The plot was hatched in a tiny village in the tribal area of Pakistan It starts with the kidnapping of a young woman Next is a wave of deadly bomb blasts in the Indian capital city Delhi The resulting situation permits terrorists to grab a few nuclear weapons The targets India Israel and USA are blissfully unaware of the threat A covert Indian Intelligence agency gets an inkling of the deadly plan and its small team of operatives start the initial countermoves with active involvement of the Intelligence agencies of Israel and the USA each agency is working to protect its own interests The race against time has started
