Nursing For Continence:

Wound, Ostomy and Continence Nurses Society Core Curriculum: Continence Management JoAnn

Ermer-Seltun, Sandy Engberg, 2021-03-04 Based on the curriculum blueprint of the Wound Ostomy and Continence Nursing Education Programs WOCNEP and approved by the Wound Ostomy and Continence Nurses Society™ WOCN this practical text for continence care is your perfect source for expert guidance training and wound ostomy and continence WOC certification exam preparation Full of expert advice fundamental principles and vital clinical skills on continence care Core Curriculum Continence Management 2nd Edition is one of the few nursing texts to cover this practice area in detail

Nursing for Continence Christine Norton, 1986 Written for nurses and all other health professionals who come into contact with incontinent people this book focuses on the promotion of continence for the full range of patients The book focuses on individual and patient centred delivery care using research evidence wherever it is available **Management of Fecal Incontinence for the Advanced Practice Nurse** Donna Z. Bliss, 2018-07-30 The book describes the current management of fecal incontinence from an advanced practice nursing perspective It fills a gap in nursing knowledge promoting and showcasing the expertise and significant contribution of advanced practice nurses whose role is so important in the health care system Authors objectives are to disseminate information about evidenced based nursing care for the incontinent patient to improve outcomes and quality of life as well as to instruct nurses involved in continence care to practice at a high quality level The book is structured in chapters starting by explaining fecal incontinence and its impact on quality of life The second chapter discusses advanced practice continence nursing The epidemiology of fecal incontinence is reviewed to provide an appreciation of the scope of the problem Normal defecation and mechanisms to ensure continence are reviewed to improve understanding of the alterations resulting in fecal incontinence The next chapters focus on assessment diagnosis and management of fecal incontinence in various patient groups which parallels the delivery of care Since surgery is a treatment option in some cases a chapter explains surgical approaches and the postoperative nursing care As skin damage is the most common complication of fecal incontinence there is a chapter about management of these associated problems The last chapter addresses managing fecal incontinence in the patient with urinary continence also Practice related chapters include a case study All chapters highlight key information in a box or table The intended readers are international advanced practice nurses who care for patients with incontinence as well as continence nurse specialists practicing at a general level General nurses interested in continence care might also be interested in reading the book Other disciplines who are part of the healthcare team may be interested in learning more about role of the advanced practice nurse Urinary Continence Mary H. Palmer, 1996 An emphasis on the promotion of continence and proactive interventions MDS requirements AHCPR guideline and on how to set up continence programs in a variety of health care settings makes this book invaluable to clinicians in long term care home health rehabilitation acute care personal care services hospice primary

care and ambulatory care The inclusion of the latest research findings and recommendations for future research appeals to graduate students faculty and clinical researchers in nursing as well as in service coordinators and patient educators

The Promotion of Continence in Adult Nursing David Colborn,2013-11-11 The prime motivation for this book has come from my experience with those who suffer from incontinence and from my contact both in the clinical area and as a teacher with those who care for them Over the years I have developed a passionate interest in the subject and there is little doubt that in general terms the level of knowledge and awareness relating to the topic has increased Despite this it is still apparent that continence promotion remains a somewhat fringe subject both in practice and in theory One of the difficulties which has become clear from discussion with nurses of all grades is that they feel that the only people who are capable of mastering the practicalities of continence promotion are full time continence advisers It is unlikely that this view has stemmed from continence advisers themselves those that I know are usually very grateful for all the help that they can get or even from a reluctance on the part of nursing staff to develop their skills The root of the difficulty appears to be a lack of awareness on the part of nurses of the skills that are required for continence promotion and also how they can be put into practice The aim of this book is to provide a reference text to enable all practising nurses to take an active part in continence promotion and the appropriate management of incontinence

Promoting Continence Kathryn Getliffe,Mary Dolman,2007-10-18 This title is directed primarily towards health care professionals outside of the United States The 3rd edition of this popular text covers all aspects of continence focusing on continence promotion and measurement of outcomes The core chapters follow a standard structure for ease of use and case studies are used throughout to link theory to practice contains the latest developments in continence treatment incorporates the most recent NHS guidelines on continence management and current legislation includes international perspectives provides a resource for practitioners caring for all client groups in the community and hospital environments a website providing practical documentation along with downloadable charts and examples of continuing professional development activities a new chapter on vulnerable groups including the frail elderly and mental health and neurological problems points for continuing professional development at end of every chapter research evidence to guide practice
