Paths In The Rainforests Toward A History Of Political Tradition In Equatorial Africa:

Paths in the Rainforests Jan M. Vansina, 1990-10-22 Vansina's scope is breathtaking he reconstructs the history of the forest lands that cover all or part of southern Cameroon Gabon Equatorial Guinea the Congo Zaire the Central African Republic and Cabinda in Angola discussing the original settlement of the forest by the western Bantu the periods of expansion and innovation in agriculture the development of metallurgy the rise and fall of political forms and of power the coming of Atlantic trade and colonialism and the conquest of the rainforests by colonial powers and the destruction of a way of life In 400 elegantly brilliant pages Vansina lays out five millennia of history for nearly 200 distinguishable regions of the forest of equatorial Africa around a new subtly paradoxical interpretation of tradition Joseph Miller University of Virginia Vansina gives extended coverage to the broad features of culture and the major lines of historical development across the region between 3000 B C and A D 1000 It is truly an outstanding effort readable subtle and integrative in its interpretations and comprehensive in scope It is a seminal study but it is also a substantive history that will long retain its usefulness Christopher Ehret American Historical Review

A History of African Societies to 1870 Elizabeth Isichei, 1997-04-13 This comprehensive and detailed exploration of the African past from prehistory to approximately 1870 is intended to provide a fully up to date complement to the Cambridge History of Africa Reflecting several emphases in recent scholarship it focusses on the changing modes of production on gender relations and on ecology laying particular stress on viewing history from below A distinctive theme is to be found in its analyses of cognitive history The work falls into three sections The first comprises a historiographic analysis and covers the period from the dawn of prehistory to the end of the Early Iron Age The second and third sections are for the most part organised on regional lines the second section ends in the sixteenth century the third carries the story on to 1870 A second volume now in preparation will cover the period from 1870 to 1995 This book attempts a more rounded view of African history than most of the other textbooks on the subject addressed to a largely undergraduate level student Earlier histories have tended to ignore some of the current foci in the scholarly literature on Africa generally not reflected in the textbooks these include discussions of topical issues like ecology and gender Isichei's book is also more radical

[Purity and Exile](#) Liisa H. Malkki, 2012-12-14 In this study of Hutu refugees from Burundi driven into exile in Tanzania after their 1972 insurrection against the dominant Tutsi was brutally quashed Liisa Malkki shows how experiences of dispossession and violence are remembered and turned into narratives and how this process helps to

construct identities such as Hutu and Tutsi Through extensive fieldwork in two refugee communities Malkki finds that the refugees current circumstances significantly influence these constructions Those living in organized camps created an elaborate mythico history of the Hutu people which gave significance to exile and envisioned a collective return to the homeland of Burundi Other refugees who had assimilated in a more urban setting crafted identities in response to the practical circumstances of their day to day lives Malkki reveals how such things as national identity historical consciousness and the social imagination of enemies get constructed in the process of everyday life The book closes with an epilogue looking at the recent violence between Hutu and Tutsi in Rwanda and Burundi and showing how the movement of large refugee populations across national borders has shaped patterns of violence in the region Fanon Nigel C.

Young,2011-02-11 In *Rituals of Resistance* Jason R Young explores the religious and ritual practices that linked West Central Africa with the Lowcountry region of Georgia and South Carolina during the era of slavery The choice of these two sites mirrors the historical trajectory of the transatlantic slave trade which for centuries transplanted Kongolesse captives to the Lowcountry through the ports of Charleston and Savannah Analyzing the historical exigencies of slavery and the slave trade that sent not only men and women but also cultural meanings signs symbols and patterns across the Atlantic Young argues that religion operated as a central form of resistance against slavery and the ideological underpinnings that supported it Through a series of comparative chapters on Christianity ritual medicine burial practices and transmigration Young details the manner in which Kongolesse people along with their contemporaries and their progeny who were enslaved in the Americas utilized religious practices to resist the savagery of the slave trade and slavery itself When slaves acted outside accepted parameters in transmigration spirit possession ritual internment and conjure Young explains they attacked not only the condition of being a slave but also the systems of modernity and scientific rationalism that supported slavery In effect he argues slave spirituality played a crucial role in the resocialization of the slave body and behavior away from the oppressions and brutalities of the master class Young s work expands traditional scholarship on slavery to include both the

[A Prophet of the People](#) Lauren V. Jarvis, 2024-03-01. In 1910, Isaiah Shembe was struggling. He had left his family and quit his job as a sanitation worker to become a Baptist evangelist, but he ended his first mission without much to show. Little did he know that he would soon establish the Nazareth Church as he began to attract attention from people left behind by industrial capitalism in South Africa. By his death in 1935, Shembe was an internationally known prophet and healer, described by his peers as better off than all the Black people. In [A Prophet of the People: Isaiah Shembe and the Making of a South African Church](#), historian Lauren V. Jarvis provides a fascinating and intimate portrait of one of South Africa's most famous religious figures and, in turn, the making of modern South Africa. Following Shembe from his birth in the 1860s across many environments and contexts, Jarvis illuminates the tight links between the spread of Christianity, strategies of evasion, and the capacious forms of community that continue to shape South Africa today. [The Gogo](#) Mathias E. Mnyampala, 1995-02-27. This work, available for the first time in English, is by the noted Tanzanian author and poet Mathias Mnyampala's reconstruction of the history and customs of his people. First published in Swahili by the East Africa Literature Bureau in 1954, it was one of a number of histories informally sponsored by the British colonial government that were designed to promote tribal cohesion in the face of growing African nationalism. In the long run, it helped inspire the nationalist movement locally. It became part of a discourse among nationalist modernizers, traditional intellectuals, and colonizers that shaped the end of colonial hegemony and the coming of independence to Tanzania. **Church, State and Colonialism in Southeastern Congo, 1890-1962** Reuben A. Loffman, 2019-05-23. This book examines the relationship between Catholic missionaries and the colonial administration in southeastern Belgian Congo. It challenges the perception that the Church and the state worked seamlessly together. Instead, using the territory of Kongolo as a case study, the book reconfigures their relationship as one of competitive co-dependency. Based on extensive archival research and oral histories, the book argues that both institutions retained distinct agendas that, while coinciding during certain periods, clashed on many occasions. The study begins by outlining the pre-colonial history of southeastern Congo. The second chapter examines how the Church began its encounters with the peoples in Kongolo and the Tanganyika province of the Democratic Republic of the Congo. Subsequent chapters highlight how missionaries exerted significant influence over the colonial construction of chieftainship and the politics of Congolese decolonization. The book ends in 1962 with the massacre of a number of Holy Ghost Fathers in an event that signaled the beginning of a more Africanized Church in Kongolo. The author gratefully acknowledges support from the Economic and Social Research Council in the completion of this project. *Global Economic History: A Very Short Introduction* Robert C. technologies that have made them ever richer *Farmers and the State in Colonial Kano* Steven Pierce,2005-10-26 In *Farmers and the State in Colonial Kano* Steven Pierce examines issues surrounding the colonial state and the distribution of state power in northern Nigeria Here Pierce deconstructs the colonial state and offers a unique reading of land tenure that challenges earlier views of the role of indirect rule According to Pierce land tenure was the means the colonial government used to rule the local population and extract taxes from them but it was also a political logic with a fundamental flaw and a Western bias In Pierce s view colonial representations of land tenure claimed to reflect precolonial systems of rule but instead fundamentally misrepresented farmers experience He maintains that this misrepresentation created a paradox at the core of the colonial state which persists into the present and helps to explain contemporary problems in African states In this sweeping and eloquent account of African history readers will find an extended genealogy of land law and taxation as well as rich material on the power of indigenous knowledge and the persistence of colonial systems of rule Primate Communities J. Library,1993 **Sudan's Wars and Peace Agreements** Stephanie Beswick,Jay Spaulding,2010-07-12 Originating from the 2008 27th annual conference of the Sudan Studies Association SSA of the same title these essays document and analyze Sudan s chronic history of conflict since independence in 1956 as well as its own and international efforts to bring an end to these conflicts As the country moves toward what some see as the inevitable separation of South Sudan in 2011 honoring the principle of self determination long fought for by southerners the lessons of six decades of a history of war and peace agreements is both telling and compelling This analysis is offered by the real experts on Sudan rather than the usual story offered by journalists and pundits In addition to an Introduction by the editors all founders or current or past presidents of the SSA the essays by Sudanese and non Sudanese explore the often bitter history of North South relations and loss of life leading to the consideration of a range of options from a continuation of national unity under revised terms to federation or redivision to full separation of the South and the constitution of a new African state The role of the Khartoum government s pursuit of policies of Islamization and Islamism for a quarter of a century across multiple regimes is also treated The central question of constructing a sustainable peace irrespective of the outcome in 2011 is detailed along with the essential consideration of women and gender perspectives to sustain any peace negotiated This book is must reading in advance of or in response to the crucial events as they unfold in Sudan in 2011 and beyond *South Africa and the Logic of Regional Cooperation* James J.
