What It Means to Be Human (Colour Edition) Taro Maeyashiki,2025-09-21 This book What It Means to Be Human Moral and Existential Questions in British and American Literature is a selective anthology of academic articles exploring the wide and complex field of American and British literature from the 17th to the 21st century their moral psychological philosophical and sociological implications and closer deeper reading of a rich variety of texts All chapters engage the reader in a conversation with particular works that throw light on both their own time and place and the issues that are always woven through the fabric of human life The spiritual despair of Melville s Captain Ahab the moral uncertainty of Twain s Huck Finn the metaphysical skepticism of The Mysterious Stranger the audacity of Charlotte Bront s proclamation of female empowerment Ian McEwan s painful reflection on guilt and the impossibility of redemption these essays speak to the contradictions discomfort and desire both in individuals and in the broader community that literature reveals and engages with Even more it is the study of connections the collection makes between time and genre Thus it is easy to see how Melville s metaphysical preoccupations were countered by Thoreau s gentle yearning for simplicity Salinger s alienation of youth could be read against Hawthorne s tragic dark allegories of faith and disenchantment The psychological disintegration of The Yellow Wallpaper and the absurdity of existence in The Sun Also Rises are cited in the stories of spiritual revolt and social criticism The Fool s ironic insight in Shakespeare s King Lear serves as a connotative precursor for the post modernist fragmentation of the quest for truth as it emerges in the self exploring wanderings of Holden Caulfield The common thread that links this wide ranging exploration of literary questions is the sense that at its best literature does not just mirror reality it ruptures relations displaces certainties and wrestles us from complacency in our understanding of justice love freedom and the precarious scaffolding of the self These fictions never yield clear answers or definitive truths rather they leave us in a state of discomfort and uncertainty amid contradiction and moral ambiguity Moreover most importantly they beckon us always to hear the thoughts of those seated at the intersection of art and ethics I hope this volume will be a space for continued thought and dialogue and a source of inspiration for the readers to return to the literary works to interrogate

Michael Tellinger,2012-09-10 Our origins as a slave species and the Anunnaki legacy in our DNA Reveals compelling new archaeological and genetic evidence for the engineered origins of the human species first proposed by Zecharia Sitchin in The 12th Planet Shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA Identifies a recently discovered complex of sophisticated ruins in South Africa as the city of the Anunnaki leader Enki Scholars have long believed that the first civilization on Earth emerged in Sumer some 6 000 years ago However as Michael Tellinger reveals the Sumerians and Egyptians inherited their knowledge from an earlier civilization that lived at the southern tip of Africa and began with the arrival of the Anunnaki more than 200 000 years ago Sent to Earth in search of life saving gold these ancient Anunnaki astronauts from the planet Nibiru created the first humans as a slave race to mine gold thus beginning our global traditions of gold obsession slavery and god as dominating master Revealing new archaeological and genetic evidence in support of Zecharia Sitchin s revolutionary work with pre biblical clay tablets Tellinger shows how the Anunnaki created us using pieces of their own DNA controlling our physical and mental capabilities by inactivating their more advanced DNA which explains why less than 3 percent of our DNA is active He identifies a recently discovered complex of sophisticated ruins in South Africa complete with thousands of mines as the city of Anunnaki leader Enki and explains their lost technologies that used the power of sound as a source of energy Matching key mythologies of the world s religions to the Sumerian clay tablet stories on which they are based he details the actual events behind these tales of direct physical interactions with god concluding with the epic flood a perennial theme of ancient myth that wiped out the Anunnaki mining operations Tellinger shows that as humanity awakens to the truth about our origins we can overcome our programmed animalistic and slave like nature tap in to our dormant Anunnaki DNA and realize the longevity and intelligence of our creators as well as learn the difference between the gods of myth and the true loving God of our universe
