Paths To Russia From War To Peace:

Refugee Pathways to Peace Janet Mancini Billson, 2024-12-15 In *Refugee Pathways to Peace Escaping the Chaos of War* Janet Mancini Billson provides perspectives of Vietnamese Syrian Congolese Liberian and Ukrainian refugees and the resettlement agencies that smooth their transition into a new life context Despite welcoming refugee policies challenges arise in Canada s uniquely positive context Participants discuss how they overcome displacement and cope with the trauma of leaving home and family behind As they craft viable new lives refugees remain vulnerable to marginality and delays in economic independence Following *Refugee Pathways to Freedom* Billson details how refugees are double victims of conflict and a glacially slow resettlement process and places the refugee experience into a human rights framework She offers recommendations for improving a global refugee system that is creaking as displacement escalates She calls for limiting the sojourn in refugee camps to two years to help reduce negative impacts and maximize newcomer well being She concludes that the true epidemic is conflict displacing 100 000 000 persons annually Shifting the focus toward diplomacy and peacebuilding before minor conflicts become hot spots is crucial as is streamlining refugee selection processes to reduce despair and lost years Participants make specific policy suggestions that would enhance rather than degrade refugee well being during resettlement

A. Vasquez, Marie T. Henahan, 2023-04-14 This book presents a collection of new and updated essays on what has come to be known as the territorial explanation of war The book argues that a key both to peace and to war lies in understanding the role territory plays as a source of conflict and inter group violence Of all the issues that spark conflict territorial disputes have the highest probability of escalating to war War however is hardly inevitable much depends on how territorial issues are handled More importantly settling territorial disputes and establishing mutually recognized boundaries can produce long periods of peace between neighbors even if other salient issues arise While territory is not the only cause of war and wars arise from other issues territory is one of the main causes of war and learning how to manage it can in principle eliminate an entire class of wars This book will be of great interest to all students of war and conflict studies causes of war and peace international security and strategic studies John A Vasquez is Thomas B Mackie Scholar in International Relations at the University of Illinois Urbana Champaign He is author of The Steps to War 2008 with Paul Senese and The War Puzzle Revisited 2009 He has been president of the Peace Science Society International and the International Studies Association Marie T Henahan is Director of Internships and Lecturer Department of Political Science at the University of Illinois Urbana Champaign She is author of Foreign Policy and Congress An International Relations Perspective and co editor of The Scientific Study of Peace and War Russia's Path toward Enlightenment Gary M.
