Easterbrooks, 2021 Language Learning in Children who are Deaf and Hard of Hearing 2nd Edition Theory to Classroom Practice is the long awaited revision of the only textbook on primary language instruction written with classroom teachers of deaf and hard of hearing children TODs in mind It builds on the work of the previous version while providing the reader with

access to the entire first version on a supplemental website An important feature of this book is that it describes four real TODs and demonstrates application of concepts discussed to the DHH children on their caseloads Up to date chapters on theory of language learning assessment and evidence based practice replace removed chapters Chapters on English and American Sign Language ASL structure and on the three major approaches listening and spoken language bilingual bimodal instruction and ASL instruction are updated The chapters on teaching vocabulary and morphosyntax how to ask and answer questions and writing language objectives for Individualized Education Plans IEPs are expanded DHH Specific examples of real cases are incorporated throughout the book Finally after a theoretical base of information on language instruction many of the chapter provide language teachers with specific examples of how to answer the question What should I do on Monday It avoids promotion of one or another philosophy presenting all and demonstrating the commonalities across classroom language instruction approaches for DHH children

On My Own Xueli Wang, 2021-02-18 2020 ASHE Council for the Advancement of Higher Education Programs CAHEP Barbara Townsend Lecture Award 2021 Transfer Champion Catalyst Award from the National Institute for the Study of Transfer Students NISTS 2021 Outstanding Publication Award AERA Division J Publication and Research On My Own The Challenge and Promise of Building Equitable STEM Transfer Pathways is the first book of its kind to provide a detailed on the ground examination of the difficult paths curricular interpersonal and institutional that students must chart through community college The book follows 1 670 two year college students over four years as they begin STEM programs in the Midwest and documents their educational and life experiences as they moved toward or away from the prospect of transfer to a four year institution Their stories reveal that they were on their own left to navigate the pathways to transfer without meaningful institutional support The students pursued one of four pathways or momentum trajectories linear upward detoured deferred or taking a break The preexisting and lasting disparities in their access to education and financial resources their experiences with teaching and advising and the conundrum between support from and for family among others propelled them onto different trajectories in their quest for transfer As this book makes painfully clear the current state of transfer acts as a mechanism that perpetuates and worsens inequities in educational outcomes As Xueli Wang argues to cultivate an equitable STEM transfer pathway culturally relevant and responsive supports that are accessible welcoming and validating must be put in place at the institutional level and appeal to the talent motivation and unique needs of historically marginalized students In doing so postsecondary institutions will be better positioned to fulfill their promise as an equitable pathway to bachelor s degrees and beyond
