Harvey-Lloyd, Jill Bleiker, Jane Gooch, Amy Hancock, Emma Hyde, Ann Newton-Hughes, 2023-09-05 PERSON CENTRED CARE IN RADIOGRAPHY A helpful guide to patient and person centered care in radiography with a particular focus on interpersonal and communication skills Person centred Care in Radiography Skills for Providing Effective Patient Care explores the complex interpersonal skills that are required of practitioners and medical imaging professionals which ensure high quality service is given to person centred care in radiography The textbook is also written by a team of expert authors and grounded in the team's own research as well as their involvement with the Heads of Radiography Group the Association of Radiography Educators the Collaborating Centre for Values based Practice in Health and Social Care and the College of Radiographers The textbook contains a broad range of additional learning features including case studies student exercises annotated further readings and chapter summaries Diagrams and illustrations are used throughout the book to provide visual representation of the concepts presented Learning activities are also included throughout the book to encourage readers to self discover and reflect and then apply their learning to their own role Person centred Care in Radiography includes detailed information on and discussion of Values developing resilience defining compassion pain and suffering and professional behaviors and culture Scenarios developed by service users based on real life practice to demonstrate the impact of the professional's behavior on the care received Diversity of service users the role of carers conceptual frameworks interpersonal communication skills and communicating with patients beyond introductions Values based practice compassionate practice theoretical models for patient centered care in radiography and reflections to help readers move forward Targeted at all staff working within diagnostic and therapeutic radiography clinical departments and educational institutions Person centred Care in Radiography can be used in both radiography education by students and educators and by qualified staff who wish to reflect on their own patient care and develop their skills      **The influence of clients on the social identities within the audit profession** Johanna Sylvander, 2020-03-02 The overall purpose of the thesis is to explore the meaning of professionalism and independence for the individuals within the audit arena Professionalism is defined as the occupational values that guide auditors professional behaviour and how independence is understood is assumed to be influenced by the social groups the auditors identify with The audit arena consists of several social actors i.e. the audit profession audit firms and auditors as well as external constituencies of the profession i.e. accountants and accountees The audit profession both serves the public interest by quality ensuring the information provided

by the accountants to the accountees as well as conducts business in a state sanctioned monopoly like market. Appearing independent and professional is therefore critical for the profession as independence and professionalism is the basis of society's trust in the profession and may particularly influence the profession's ability to recruit and retain staff. The audit profession, audit firms, offices and audit teams are social groups which influence the values, attitudes and behaviours of the auditors through the process of socialization into the profession and the audit firm. However, accountants i.e. clients and accountees i.e. stakeholders such as investors are also social actors who may influence the values, attitudes and behaviour of auditors if auditors identify with these social actors. Exploring the social identities at play within the audit arena enables us to more fully understand the values that guide professional work. The thesis empirically investigates the social identity audit arena through potential current and former audit employees' perceptions of the audit arena where the data is both qualitative interviews and quantitative surveys in nature. The empirical material provides both pre-socialized and post-socialized perspectives on the audit arena where the bulk of the material stems from the pre-socialized perspective. The thesis suggests that there are two types of auditors namely small client auditors and large client auditors where the small client auditor group dominates the audit arena. The role of the small client auditor is described differently from the large public client auditor's role. The small client auditor is perceived as a teacher who helps the clients run their businesses better and avoid problems with tax authorities et cetera making it necessary for the auditor to have a good and close relationship with the client in order to fulfil her/his role. The large client auditor is described more as having the traditional guardians of the market role. Hence it seems as the small client auditor is guided by other values and has a different understanding of independence compared to the large client auditor. However, the large client auditor is also perceived as having a counselling teacher role indicating that some professional values are shared by small client and large client auditors. These different roles auditors are perceived to have where independence and working for the public interest seem to mean different things can influence how new audit employees perceive the profession. If employees expect to work as large client auditors but instead experience work being guided by small client auditor values or vice versa it may influence the willingness to stay in the profession. These two roles are also a potential factor influencing the expectation gap i.e. the gap between what society thinks the auditor does and what s/he does in practice. These two roles may therefore influence society's image of the auditor and where the profession may have issues in appearing independent in the relationship with small clients.

Avhandlingens  
vergripande syfte är att utforska innebörden av professionalism och oberoende för individerna inom revisionsarenan. Professionalism definieras som de yrkesrelaterade värderingarna som styr hur man som professionell revisor bör agera och hur oberoende först sätts på verkas av vilka sociala grupper revisorn identifierar sig med. Revisionsarenan består av flera sociala aktörer nämligen revisionsprofessionen, revisionsbyråer och revisorer och även externa intressenter till professionen nämligen redovisningsskyldiga och redovisningsberättigade. Revisionsprofessionen har ett viktigt samhällsuppdrag att kvalitets

kra informationen som de redovisningsskyldiga tillhåller de redovisningsberättigade Dock bedriver professionen samtidigt affärer på den monopolmarknad professionen har genom den lagstadgade revisionen För professionen är det därmed av yttersta vikt att framstå som oberoende och professionell d oberoende och professionalism är grunden för samhällets tillit till professionen Innebörden av professionalism och oberoende inom revisionsarenan kan speciellt påverka professionens möjligheter att rekrytera och behålla personal Revisionsprofessionen revisionsbyråerna arbetskontoren och revisionsteamerna är sociala grupper som påverkar revisorers värderingar attityder och beteende genom socialiseringen inom professionen och revisionsbyråerna De redovisningsskyldiga klienter och de redovisningsberättigade intressenter såsom investerare och andra sociala aktörer som kan påverka revisorers värderingar attityder och beteende om revisorerna identifierar sig med dessa sociala grupper Genom att utforska vilka sociala identiteter som verkar inom revisionsarenan kan vi få ett rikare kunskapskrång vilka värderingar som styr det professionella arbetet Avhandlingen undersöker potentiella nuvarande och för detta revisionsmedarbetares uppfattningar om revisionsarenan där empirin består av kvalitativ intervjuer och kvantitativ enkäter natur Det empiriska materialet ger både ett för-socialiserat och eftersocialiserat perspektiv på revisionsarenan där tyngden ligger på det för-socialiserade perspektivet Avhandlingen tyder på att det finns två typer av revisorer nämligen små bolagsrevisorer och storbolagsrevisorer där små bolagsrevisorer är den största gruppen Små bolagsrevisorns roll beskrivs annorlunda jämfört med hur storbolagsrevisorns roll beskrivs Små bolagsrevisorn uppfattas som en låg rar som hjälper klienterna att driva sina företag bättre och undvika problem med Skatteverket med mera vilket innebär att revisorn måste ha en god och nära relation med klienten för att kunna uppfylla sin roll Storbolagsrevisorn beskrivs mer som revisorsrollen traditionell beskrivs därvid som en marknadsvaktare och en oberoende granskare Det verkar alltså som att små bolagsrevisorn utgör en annan professionella värderingar och har en annan förståelse av oberoende jämfört med storbolagsrevisorn Dock uppfattas storbolagsrevisorn även ha en rödgivande låg rarroll vilket indikerar att små bolagsrevisorer och storbolagsrevisorer delar vissa professionella värderingar Dessa olika roller som revisorer upplevs ha är oberoende och arbete för det allmännas intresse verkar betyda olika saker kan påverka hur nya anställda upplever revision som yrke Om anställda förväntar sig att arbeta som en storbolagsrevisor men istället för att uppleva yrket som en små bolagsrevisor eller tvärtom så kan det påverka viljan att vara kvar i yrket Dessa två roller är även en potentiell aspekt som påverkar förväntansgapet dvs skillnaden mellan vad samhället tror att revisorn gör och vad hen faktiskt gör Dessa två roller kan alltså påverka samhällets bild av revisorn där revisionsprofessionen kan ha svårt att hålla sig vara oberoende gentemot dessa mindre klienter
