Legends of the Stars Sir Patrick Moore, 2009-03-06 Have you ever wondered how the constellations got their names Or wanted to know the stories of the gods and heroes immortalised in the night sky In *Legends of the Stars* Patrick Moore Britain's best loved astronomer and presenter of *The Sky at Night* for over fifty years re-tells some of the stories behind these star groups and explains how to look for them in the heavens From the great hunter Orion to his nemesis the Scorpion and from Pegasus the flying horse to Jason's ship the Argo he guides the reader through the celestial picture book bringing alive some of the greatest tales ever told In an age when the ancient myths are seldom taught in schools this is an ideal book for anyone who has ever gazed at the stars and asked themselves how the names of the constellations came about

The Great Astronomical Revolution Patrick Moore, 1994

Camille Flammarion's The Planet Mars Camille Flammarion, 2014-11-02 Camille Flammarion 1842-1925 began his career at 16 as a human computer under the great mathematician U J J Le Verrier at the Paris Observatory He soon tired of the drudgery he was drawn to more romantic vistas and at 19 wrote a book on an idea that he was to make his

own the habitability of other worlds There followed a career as France's greatest popularizer of astronomy with over 60 titles to his credit An admirer granted him a chateau at Juvisy sur l'Orge and he set up a first rate observatory dedicated to the study of the planet Mars Finally in 1892 he published his masterpiece *La Planete Mars et ses conditions d'habitabilite* a comprehensive summary of three centuries worth of literature on Mars much of it based on his own personal research into rare memoirs and archives As a history of that era it has never been surpassed and remains one of a handful of indispensable books on the red planet Sir Patrick Moore 1923-2012 needs no introduction his record of popularizing astronomy in Britain in the 20th century equaled Flammarion's in France in the 19th century Moore pounded out hundreds of books as well as served as presenter of the BBC's TV program *Sky at Night* program for 55 years a world record Though Moore always insisted that the Moon was his *chef d'oeuvre* Mars came a close second and in 1980 he produced a typescript of Flammarion's classic Unfortunately even he found the project too daunting for his publishers and passed the torch of keeping the project alive to a friend the amateur astronomer and author William Sheehan in 1993 Widely regarded as a leading historian of the planet Mars Sheehan has not only meticulously compared and corrected Moore's manuscript against Flammarion's original so as to produce an authoritative text he has added an important introduction showing the book's significance in the history of Mars studies Here results a book that remains an invaluable resource and is also a literary tour de force in which the inimitable style of Flammarion has been rendered in the equally unique style of Moore

Man the Astronomer Patrick Moore, 1973

The Amateur Astronomer Patrick Moore, 2006-07-31

any popular books upon astronomy have been written during the past few years but most of them cater either for the casual dabbler who is content to learn from the depths of his armchair or else for the serious amateur who already knows the main facts What I have done or tried to do is to strike a happy mean This book has been aimed at the needs of the beginner who knows nothing whatsoever but who is nevertheless anxious to make a start with what equipment he can collect at limited cost All astronomers professional or amateur were beginners once and all have had to draw upon the experience of those who have learned before them I feel some diffidence about offering myself as a guide but at least I have one qualification in my early days as an observer I made almost every mistake that it is possible to make This explains the frequent occurrence of such phrases as I once saw and I remember that when I I hope therefore that what I have written may prevent others from falling into the same ridiculous traps
