Schweikart,Michael Allen,Dave Dougherty,2011-06-28 An original collection of the most influential documents in American history from the bestselling author of A Patriot s History of the United States Since 2005 A Patriot s History of the United States has become a modern classic for its defense of America as a unique country founded on principles of justice equality and freedom for all The Patriot s History Reader continues this tradition by going back to the original sources the documents speeches and legal decisions that shaped our country into what it is today The authors explore both oft cited documents the Declaration of Independence Emancipation Proclamation and Roe v Wade as well as those that are less famous Among these are George Washington s letter to Alexander Hamilton which essentially outline America s military strategy for the next 150 years and Herbert Hoover s speech on business ethics which examines the government s role in regulating private enterprise By helping readers explore history at its source this book sheds new light on the principles and personalities that have made America great **Patriot Generating Station** ,1980 **National Identity** Martin Gitlin,2019-12-15 How can we maintain

a strong national identity without going too far Having pride in one s country its history and values is important but what happens when that is threatened by new immigrant groups When a country becomes more diverse whether it s race ethnicity or religious faith does the nation s identity expand to accommodate those changes or does it become more rigid setting the stage for an us and them conflict Through diverse perspectives from countries around the world this volume explores facets of national identity Readers will analyze its purpose benefits dangers and its future in a changing world The Ethics of Patriotism John Kleinig,Simon Keller,Igor Primoratz,2015-02-16 The unique approach taken within The Ethics of Patriotism brings together the differing perspectives of three leading figures in the philosophical debate who deliver an up to date accessible and vigorous presentation of the major views and arguments Brings together the differing perspectives of three leading philosophers who together explore the major positions on the ethics of patriotism Connects with several burgeoning fields of interest in philosophy and politics including nationalism civic virtue liberalism and republicanism loyalty and cosmopolitanism Demonstrates that it is possible to make progress on the question of the ethics of patriotism while taking an ecumenical approach to larger theoretical questions A timely and relevant response to the upsurge of interest in nationalism patriotism and secessions *Acrobatic Modernism from the Avant-Garde to Prehistory* Jed Rasula,2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with

modernity's restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound's slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both Merchant Vessels of the United States, 1989

Bureau of Education, 1919 **Library Leaflet**, 1919 A Patriot's History® of the Modern World, Vol. I Larry Schweikart, Dave Dougherty, 2012-10-11 America's story from 1898 to 1945 is nothing less than the triumph of American exceptionalism over liberal progressivism despite a few temporary victories by the latter Conservative historian Larry Schweikart has won wide acclaim for his number one New York Times bestseller A Patriot's History of the United States It proved that contrary to the liberal biases in countless other history books America had not really been founded on racism sexism greed and oppression Schweikart and coauthor Michael Allen restored the truly great achievements of America's patriots founders and heroes to their rightful place of honor Now Schweikart and coauthor Dave Dougherty are back with a new perspective on America's half century rise to the center of the world stage This all new volume corrects many of the biases that cloud the way people view the Treaty of Versailles the Roaring Twenties the Crash of 1929 the deployment of the atomic bomb and other critical events in global history Beginning with the Spanish American War which introduced the United States as a global military power that could no longer be ignored and continuing through the end of World War II this book shows how a free capitalist nation could thrive when put face to face with tyrannical and socialist powers Schweikart and Dougherty narrate the many times America proved its dominance by upholding the principles on which it was founded and struggled on the rare occasions when it strayed from those principles The authors make a convincing case that America has constantly been a force for good in the world improving standards of living introducing innovations guaranteeing liberty and offering opportunities to those who had none elsewhere They also illustrate how the country ascended to superpower status at the same time it was figuring out its own

identity While American ideals were defeating tyrants abroad a constant struggle against progressivism was being waged at home leading to the stumbles of the Great Depression the New Deal and the attack on Pearl Harbor Despite this rocky entrance on the world stage it was during this half century that the world came to embrace all things American from its innovations and businesses to its political system and popular culture The United States began to define what the rest of the world could emulate as the new global ideal A Patriot's History of the Modern World provides a new perspective on our extraordinary past and offers lessons we can apply to preserve American exceptionalism today and tomorrow Patriot Project, East Tennessee Natural Gas Company Docket No. CP01-415-000, 2002 *American Home*, 1929 **Report of the Treasurer of the State of Connecticut** Connecticut.
