McGlasson, 2013-08-02 The present volume is the first in a five volume study of church doctrine The multivolume set will cover the major parts of church doctrine Canon God Creation Reconciliation and Redemption This first volume begins with an introduction on why doctrine matters which stresses the ecumenical global and above all biblical horizons of church doctrine as a primary expression of Christian witness The purpose of this volume is to begin a search for an alternative to the many theologies available on the religious left and the religious right Where doctrine is absent the church is held captive to ideology the same is as true among conservatives as it is among liberals The present work is an attempt to struggle toward the meaning of orthodoxy in church doctrine an orthodoxy that is never merely a given but which always has to be sought and found again and again in each new generation of the church Church doctrine is not a luxury but a necessity for the living community of faith by which its witness in word and deed is tested against the one true measure of Christ the risen Lord *Oppositions of Religious Doctrines* William Armistead Christian, 1972-06-18 *Doctrines of Faith and Morals for Jewish Schools and Families* Salomon Herxheimer, 1874 *Theology in Reconstruction* Thomas F. **Patterns in Times of Globalization** Aleksi Kuokkanen,2012-01-20 Inspired by the Catholic theologian Hans K ng this book searches for a model for global ethics by analysing the contemporary philosophical discussion It demonstrates that the Western model is unable to reckon with exclusivism and difference and presents an alternative model      American Journal

of Theology ,1912 Vols 2 6 include Theological and Semitic literature for 1898 1901 a bibliographical supplement to the American journal of theology and the American journal of Semitic languages and literatures By W Muss Arnolt Separately paged      The Hexaemeral Literature Frank Egleston Robbins,1912      **The American Journal of Theology** University of

Fisher,2010-02-03 The

medieval worldview that regarded human beings as at the center of God s plans for His universe has long been regarded as obsolete its synthesis of Christian theology and Greek philosophy having collapsed under the weight of Copernicus Galileo and Darwin The popular stereotype is that Science both in the Copernican revolution that dethroned the earth centered view of the cosmos and in subsequent developments in evolutionary theory and general relativity has marginalized and trivialized human existence revealing humanity s place in the cosmos to be accidental peripheral and ultimately meaningless However an investigation into both modern Christian theology and contemporary twenty first century Science reveals just the opposite providing solid evidence in the interdisciplinary dialogue concerning the significance of humanity within the universe In this important study Christopher Fisher analyzes several modern theologians including Wolfhart Pannenberg Karl Rahner and John Zizioulas to reveal how contemporary ecumenical theology is deeply and intrinsically committed to a high view of human cosmic significance as a consequence of Christianity s indelible Trinitarian and incarnational faith Fisher then demonstrates how research in contemporary natural Science confirms this finding in its own way as recent primate intelligence studies artificial intelligence research and even the quest for extra terrestrial intelligence reveal the wonder of human uniqueness A contemporary version of the teleological argument also resurfaces in consideration of cosmic evolutionary perspectives on human existence Even ecological concerns take on a new poignancy with the realization that among material creatures only

human beings are capable of addressing the world's situation. This interdisciplinary study uncovers the surprising coherence and convergence of Christian Theology and Natural Science on the subject of human existence and significance here at the beginning of the twenty-first century and it highlights the very unique role of humanity in global and cosmic history.

*Understanding Military Doctrine* Harald Hoiback, 2013-07-18. This book puts military doctrine into a wider perspective drawing on military history, philosophy and political science. Military doctrines are institutional beliefs about what works in war given the trauma of 9/11 and the ensuing War on Terror, serious divergences over what the message of the new military doctrine ought to be were expected around the world. However, such questions are often drowned in ferocious meta-doctrinal disagreements. What is a doctrine after all? This book provides a theoretical understanding of such questions. Divided into three parts, the author investigates the historical roots of military doctrine and explores its growth and expansion until the present day and goes on to analyse the main characteristics of a military doctrine. Using a multidisciplinary approach, the book concludes that doctrine can be utilized in three key ways: as a tool of command, as a tool of change and as a tool of education. This book will be of much interest to students of military studies, civil-military relations, strategic studies and war studies as well as to students in professional military education.
