Patterns And Precision The Arts And Sciences Of Islam:

Patterns and Precision, the Arts and Sciences of Islam Holly Edwards, 1982 **Patterns and Precision** National Committee Islam Centennial Fourteen, 1982 *Historiography of the History of Science in Islamicate Societies* Sonja Brentjes, 2023-09-05 This book presents eight papers about important historiographical issues as debated in the history of science in Islamicate societies the history of science and philosophy of medieval Latin Europe and the history of mathematics as an academic discipline Six papers deal with themes about the sciences in Islamicate societies from the ninth to the seventeenth centuries among them novelty context and decline Two other papers discuss the historiographical practices of historians of mathematics and other disciplines in the nineteenth and twentieth centuries The central argument of the collected papers is that in addition and beyond the study of scientific texts and instruments historians of science in Islamicate societies need to pay attention to cultural material and social aspects that shaped the scientific activities of the authors and makers of such texts and instruments It is pointed out that the diachronic de contextualized comparison between methods and results of scholars from different centuries regions and cultures often leads to serious distortions of the historical record and is responsible for the long term neglect of scholarly activities after the so called Golden Age The book will appeal in particular to teachers of history of science in Islamicate societies to graduate students interested in issues of methodology and to historians of science grappling with the unresolved problems of how think and write about the sciences in concrete societies of the past instead of subsuming all extant texts instruments maps and other objects related to the sciences under macro level concepts like Islam or Latin Europe CS 1114 *From Alexandria, Through Baghdad* Nathan Sidoli, Glen Van Brummelen, 2013-10-30 This book honors the career of historian of mathematics J L Berggren his scholarship and service to the broader community The first part of value to scholars graduate students and interested readers is a survey of scholarship in the mathematical sciences in ancient Greece and medieval Islam It consists of six articles three by Berggren himself covering research from the middle of the 20th century to the present The remainder of the book contains studies by eminent scholars of the ancient and medieval mathematical sciences They serve both as examples of the breadth of current approaches and topics and as tributes to Berggren s interests by his friends and colleagues *Muslim Cultures in the Indo-Iranian World during the Early-Modern and Modern Periods* Fabrizio Speziale, Denis Hermann, 2020-08-10 No detailed description available for Muslim Cultures in the Indo Iranian World during the Early Modern and Modern Periods

Writing As Intermediary Korn, Lorenz, Metzler, Berenike, 2022-12-20 For the cultural history of the Islamic World writing has long been recognized as a highly important form of art as calligraphy has traditionally held a particular place in the perception of Islamic elites and their artistic practices The culture of calligraphy was intimately connected with the production of prestigious book manuscripts but reached a climax in the creation of single leaf calligraphies that were also highly appreciated by collectors in centres of Islamic culture from the Ottoman Mediterranean to post Timurid Central Asia Safavid Iran and Mughal India At the same time writing by its very nature fulfilled its age old functions of encoding verbal language as text The present volume approaches the variegated aspects of writing fathoming its ambiguous character between text and image It contains ten contributions that originated from a conference held at the University of Bamberg in 2019 These studies range from text image relations in precious manuscripts through the use of Chinese decorated paper for artistic book production the training of calligraphers and the process of design to the iconic character of writing in the layout of books

single leaf works of calligraphy iconic writing in contemporary art to more theoretical considerations on aesthetic perception
