## **Patterns Of Episcopal Leadership:**

**Patterns of Episcopal Leadership** Gerald P. Fogarty, 1989      **Patterns of Women's Leadership in Early Christianity** Joan E. Taylor, Ilaria L. E. Ramelli, 2021-02-18 This authoritative collection brings together the latest thinking on women's leadership in early Christianity. **Patterns of Women's Leadership in Early Christianity** considers the evidence for ways in which women exercised leadership in churches from the 1st to the 9th centuries CE. This rich and diverse volume breaks new ground in the study of women in early Christianity. This is not about working with one method based on one type of feminist theory but overall there is nevertheless a feminist or egalitarian agenda in considering the full equality of women with men in religious spheres a positive goal with the assumption that this full equality has yet to be attained. The chapters revisit both older studies and offers new and unpublished research exploring the many ways in which ancient Christian women's leadership could function.

**Patterns of Parish Leadership** Dean R. Hoge, Jackson W. Carroll, Francis K. Scheets, 1988 **Patterns of Parish Leadership** is a call to leadership on the part of all those who care for the future of ministry and missions.

Power and Rhetoric in the Ecclesiastical Correspondence of Constantine the Great Andrew J. Pottenger, 2022-11-30 This volume closely examines patterns of rhetoric in surviving correspondence by the Roman emperor Constantine on conflicts among Christians that occurred during his reign primarily the Donatist schism and Arian controversy. Commonly remembered as the first Christian emperor of the Roman Empire Constantine's rule sealed a momentous alliance between church and state for more than a millennium. His well known involvement with Christianity led him to engage with two major disputes that divided his Christian subjects the Donatist schism centred from the emperor's perspective on determining the rightful bishop of Carthage and the so called Arian controversy a theological conflict about the proper understanding of the Son's divine nature in relation to that of the Father. This book examines a number of letters associated with Constantine that directly address both of these disagreements exploring his point of view and motivations to better understand how and why this emperor applied his power to internal church divisions. Based on a close analysis of prominent themes and their functions in the rhetoric of his correspondence Pottenger argues that three doctrines of power served to inform and direct Constantine's use of power as he engaged with these problems of schism and heresy. Power and Rhetoric in the Ecclesiastical Correspondence of Constantine the Great is of interest to students and scholars of early Christianity and the history of the later Roman Empire.

Records of the American Catholic Historical Society of Philadelphia, 1988      The Pattern of Christian Truth H. E. W. Turner, 2004-10-29 Walter Bauer's *Orthodoxy and Heresy in Earliest Christianity* created a stir with its argument that the teachings later condemned as heresy in the later second century onward were in fact dominant in the earliest decades of the church. This full scale response by H E W Turner has not enjoyed the attention it deserves. Turner's volume represents a learned and sophisticated restatement of the traditional view what became official orthodoxy was taught early on by the majority of church teachers albeit not in fully developed form.

**An Archbishop for the People** Richard Gribble, 2006 The definitive biography of San Francisco's celebrated archbishop Edward J. Hanna who was Archbishop of the Bay from 1912-1935 replete with photos bibliography index and endnotes

**Religious Human Rights in Global Perspective** John Witte, Johan David Van der Vyver, 1996-02-09 *Red Pope* Vefie Poels, 2023-11-15 Arriving in Rome from the Netherlands in 1895 the Catholic priest and Redemptorist Willem van Rossum 1854-1932 rose quickly through the ranks of the curia. In many ways an outsider he made a resounding success of his career. His zeal in the fight against the virus of modernism earned him a cardinal's hat in 1911 and he was appointed prefect of the Congregation of Propaganda Fide in 1918. As red pope or head of the Vatican's mission department Van Rossum led a hard fought and ultimately successful campaign to separate missionary policy fundraising and staffing from Western nationalism and concentrate control over the worldwide missionary project at supranational level in Rome. He was the driving force behind two programmatic documents on the missions by Popes Benedict XV and Pius XI which promoted the building up of indigenous churches and the educating of native clergy thus helping to create a favourable position for the Catholic church during the subsequent wave of decolonisation. In the meantime Van Rossum continued to decry Italian dominance in the church as well as the curia's inefficiencies for instance in a vituperative pamphlet that he wrote shortly before his death. This scholarly biography of Willem van Rossum rescues this great strategist behind the popes of the missions from oblivion and throws fascinating light on the history of the Catholic church and the Roman curia from the late nineteenth century until far into the twentieth.

Social-Scientific Approaches to New Testament Interpretation David G. Horrell, 1999-01-01 In the past twenty five years New Testament scholars have drawn on the social sciences especially anthropology and sociology to develop a variety of new perspectives on early Christianity. David Horrell here gathers together the classic works in this field including essays by for example John Barclay Philip Esler Wayne Meeks Luise Schottroff and Gerd Theissen. For each selection David Horrell provides a short introduction and suggestions for further reading. He also provides an introduction outlining the development and future prospects of the discipline. An excellent reference and textbook for scholars and students.

Renouncing the World Yet Leading the Church Andrea Sterk, 2009-06-30 Although an ascetic ideal of leadership had both classical and biblical roots it found particularly fertile soil in the monastic fervor of the fourth through sixth centuries. Church officials were increasingly recruited from monastic communities and the monk bishop became the dominant model of ecclesiastical leadership in the Eastern Roman Empire and Byzantium. In an interesting paradox Andrea Sterk explains that from the world rejecting monasteries and desert hermitages of the east came many of the most powerful leaders in the church and civil society as a whole. Sterk explores the social political intellectual and theological grounding for this development. Focusing on four foundational figures Basil of Caesarea Gregory of Nyssa Gregory of Nazianzus and John Chrysostom she traces the emergence of a new ideal of ecclesiastical leadership the merging of ascetic and episcopal authority embodied in the monk bishop. She also studies church histories legislation and popular ascetic and hagiographical

literature to show how the ideal spread and why it eventually triumphed The image of a monastic bishop became the convention in the Christian east Renouncing the World Yet Leading the Church brings new understanding of asceticism leadership and the church in late antiquity Table of Contents Introduction I Basil of Caesarea and the Emergence of an Ideal 1 Monks and Bishops in the Christian East from 325 to 375 2 Asceticism and Leadership in the Thought of Basil of Caesarea 3 Reframing and Reforming the Episcopate Basil s Direct Influence II The Development of an Ideal 4 Gregory of Nyssa On Basil Moses and Episcopal Office 5 Gregory of Nazianzus Ascetic Life and Episcopal Office in Tension 6 John Chrysostom The Model Monk Bishop in Spite of Himself III The Triumph of an Ideal 7 From Nuisances to Episcopal Ideals Civil and Ecclesiastical Legislation 8 Normalizing the Model The Fifth Century Church Histories 9 The Broadening Appeal Monastic and Hagiographical Literature Epilogue The Legacy of the Monk Bishop in the Byzantine World Abbreviations Notes Frequently Cited Works Index

**The Pattern of Our Calling** David Hoyle, 2016-11-25 Ministry has always changed adapting to time and place But the pace of change has increased There is a greater need for success and less tolerance of diversity A few high achievers hold up their heads whilst others struggle or wonder how to make sense of what feels like failure Our theology is impoverished and we are so quick to adopt new models that we have forgotten our own past David Hoyle explores the changing theologies of ministry during the church s history with the aim of challenging the lack of theological reflection in some of today s results driven understanding of ministry that seems more influenced by the business world than by Christian theology and tradition Setting out to explain why theologians said what they said about ministry why it might matter and why it might be exciting Hoyle covers nearly two thousand years of theological reflection from the Didache to Michael Ramsey and current writers and provides a synthesis not found anywhere else The book offers realistic sustenance to practitioners struggling with the new demands on clergy

both men and women who in a variety of historical contexts claimed to be the living voices or intermediaries of God The essays analyse the foundation of their authoritative claims and ask how and how far they succeeded in securing obedience from the Christians to whom they addressed their message Religious authority is not understood as a monolithic entity but as something derived from many sources and claims Whatever the national background whether ordained or supposedly appointed through divine intervention the histories of the people portrayed underline the long term manifestations and multifaceted nature of Christian identity

*The Precarious Church* Martyn Percy, 2023-05-19 What is the biggest threat facing churches today Not enough young people Too little mission and evangelism Unsustainable buildings Unappealing styles of worship Not enough diversity Whatever the reasons the church today seems to exist in a state of anxiety concerned with its self preservation In this bold and hopeful book Martyn Percy argues that a being a broken church is in fact good news as it is only through the cracks that the overwhelming abundance of God can shine through This collection of essays and reflections considers what it means to be a precarious church The term suggests uncertainty and peril yet it is rooted in the Latin *precatio* meaning prayer It argues that the Church's vocation is not to be successful or even to survive but to be precarious liminal unpredictable and mysterious a place of encounter with the holy The questions that should consume us are not how shall we remove the risks and alleviate our anxieties but rather how shall we live in this age of uncertainty Every age has had its uncertainties and this inspiring volume explores what faithfulness to each other and to God looks like in an age of anxiety

Community Leadership in Maryland, 1790-1840 Whitman H. Ridgway, 2018-07-11 American democracy has fascinated generations of historians They have probed its philosophical foundations and the structure of its institutions but their studies reveal little about those who really wielded power in the formative years of the republic Employing a sophisticated research design Whitman Ridgway examines the changing leadership patterns in four diverse communities in Maryland from 1790 to 1840 The results indicate clearly the need to study the American democratic process at the local level Ridgway selected Baltimore City Frederick St Marys and Talbot counties representing the underlying economic and cultural diversity of one political culture Maryland to evaluate who governed how these patterns differed from one community to another and how such patterns changed over time The research design defines the scope of the study Ridgway uses the decisional method of analysis determining who actually made decisions in order to identify the political leaders His extensive research in manuscript and newspaper collections tax and census data and religious and geneological records gathered information on some 1 300 persons This study of community power illuminates facets of a democratic society which perplexed Alexis de Tocqueville over a century ago Ridgway demonstrates that despite the expansion of popular participation in political affairs the influence of the wealthy continued to be significant He shows also how leaders without benefit of wealth or social ties to the oligarchies were able to enter community decision making In a more modern context this important book adds to the literature in several ways Its greatest contribution is methodological no longer can historians talk

about power relationships without studying them directly The work also compares two important periods the first and second party eras normally treated in isolation and through this comparison it reveals much about democracy egalitarianism and power Originally published 1979 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
