Bates, 2016-01-18 Sandy was the costliest hurricane in U S history after Katrina but the waters had barely receded from the Jersey coast when massive efforts began to Restore the Shore Why do people build in areas open to repeated natural disasters And why do they return to these areas in the wake of major devastation Drawing on a variety of insights from environmental sociology Superstorm Sandy answers these questions as it looks at both the unique character of the Jersey Shore and the more universal ways that humans relate to their environment Diane C Bates offers a wide ranging look at the Jersey Shore both before and after Sandy examining the many factors such as cultural attachment tourism revenues and

governmental regulation that combined to create a highly vulnerable coastal region She explains why the Shore is so important to New Jerseyans acting as a key cultural touchstone in a state that lacks a central city or even a sports team to build a shared identity among the state's residents She analyzes post Sandy narratives about the Jersey Shore that trumpeted the dominance of human ingenuity over nature such as the state's Stronger than the Storm advertising campaign or proclaimed a therapeutic community Jersey Strong narratives rooted in emotion and iconography waylaying any thought of the near certainty of future storms The book also examines local business owners politicians real estate developers and residents who have vested interests in the region explaining why the Shore was developed intensively prior to Sandy and why restoration became an imperative in the post storm period Engagingly written and insightful Superstorm Sandy highlights the elements that compounded the disaster on the Shore providing a framework for understanding such catastrophes and preventing them in the future

draws together two vernaculars anthropological thought and the pop culture of my youth It is a fraught exercise I write as a White guy about angst and alienation in the privileged spaces of anthropology and higher education I appreciate the irony I hope nonetheless that my experiences with and critical perspectives on social conventions the culture of liberalism and ableism in academia might be useful I seek to expand possibilities of anthropological representation while challenging epistemological aesthetic and professional norms in my discipline It bothers me that anthropology can be so sanctimonious I take aim at the ableist conceit that anthropologists are non characters studying a messy world Much of my life has been a mess My work has been undertaken amid struggles with pregnancy loss bipolar disorder and drug addiction I have deep regrets about my participation in an exploitative field I have deep regrets about many things I have hurt people and been hurt by people I hope my stories and reflections add to what others have already written about a more open honest and self deprecating anthropology
