Jac Conradie, Ronél Johl, Marthinus Beukes, Olga Fischer, Christina Ljungberg, 2010-05-26 The title of this volume strives to capture the dynamic scope and range

of the essays it contains applying insights into the workings of iconicity to texts as far removed from each other in time as the Medieval tale of a bishop fish and the war poems of 20th century Italian Futurist F T Marinetti and as thematically diverse as the Pilgrim s Progress and the poetry of e e cummings Applications reference both language and linguistics as well as literature and literary theory and related fields such as sign language and translation the former approached from the point of view of Japan Sign Language the latter with reference to translations of the Koran and the Sesotho Bible as well as modern German and English Bible translations On the language side the intricate relationships between sound symbolism and etymology and between analogy and grammaticalization are examined in depth On the literary side the iconic effects of techniques such as enjambment and metrical inversion are considered but also the ways in which an understanding of iconicity can open up meanings in complex poetry like that of the Afrikaans poet T T Cloete in this particular instance three poems inspired by figures as diverse as Dante Paul Klee and the pop icon Marilyn Monroe In view of the fact that form is able to mime meaning and meaning itself can be mimed by meaning the theoretical question is asked on the basis of a wide range of examples from literature language music and other sign systems whether meaning can also mime form An introduction to the work of H C T M ller an early scholar in the field of iconicity highlights a regrettably little known South African
