and other experimental forms **Lennon and McCartney** Thomas MacFarlane, 2022-09-30 Lennon and McCartney Painting with Sound explores the work of two of the most influential composers of the twentieth century Five decades after the breakup of the Beatles the music of John Lennon and Paul McCartney continues to fascinate and inspire Evidence suggests that their uniquely eclectic approach can be traced back to the Liverpool College of Art Following on that idea this book explores the creative dialogue between John Lennon and Paul McCartney both with the Beatles and on their own that grew out of that early influence The book is presented in three sections I Stretching the Canvas considers the Liverpool College of Art as the backdrop for John and Paul s early collaborations with painter and musician Stuart Sutcliffe This is followed by discussions of select works created by the Beatles between 1962 69 II Extending the Space focuses on the long distance creative dialogue between Lennon and McCartney as demonstrated in their respective solo recordings of the 1970s III New Colours considers the final works of the Lennon and McCartney creative dialogue as well as various McCartney solo projects released in the years that followed Lennon s death in 1980 Here the focus is on Paul s development as a painter its effect on his creativity and his subsequent efforts to establish the Liverpool Institute for Performing Arts as a world class arts conservatory *Paul McCartney* Peter Ames Carlin, 2009-11-03 From the acclaimed biographer who brought you the rock biography of Bruce Springsteen comes the life of musician Paul McCartney from his groundbreaking years with the Beatles to Wings to his work as a solo artist and activist More than a rock star more than a celebrity Paul McCartney is a cultural touchstone who helped transform popular music as one half of the legendary Lennon McCartney songwriting duo In this definitive biography Peter Ames Carlin examines McCartney s entire life casting new light not just on the Beatles era but also on his years with Wings and his thirty year relationship with his first wife Linda McCartney He takes us on a journey through a tumultuous couple of decades in which Paul struck out on his own as a solo artist reached the top of the charts with a new band and once again drew hundreds of thousands of screaming fans to his concerts Carlin presents McCartney as a musical visionary but also as a layered and conflicted figure as haunted by his own legacy and particularly his relationship with John Lennon as he was inspired by it Built on years of research and fresh revealing interviews with friends bandmates and collaborators spanning McCartney s entire life Carlin s lively biography captures the many faces of the living legend **Paul McCartney** Philip Norman, 2016-05-03 The definitive Paul McCartney biography written with his approval by bestselling biographer Philip Norman Since the age of twenty one Paul McCartney has lived one of the ultimate rock n roll lives played out on the most public of stages Now Paul s story is told by rock music s foremost biographer with McCartney s consent and access to family members and close friends who have never spoken on the record before Paul McCartney reveals the complex character behind the fav ade and sheds new light on his childhood blighted by his mother s death but redeemed by the father who introduced him to music This is the first definitive account of Paul s often troubled partnership with John Lennon his personal trauma after the Beatles breakup and his subsequent struggle to get back to the top with Wings which nearly got

Art from Your Core Kate Kretz,2024-02-08 This book guides artists through the discovery and development of the art that they alone were born to create Through real life examples and exercises we tear down the cultural educational and psychological obstacles to finding authentic visual voice stripping away years of assumptions external and self imposed limiting parameters We learn how to listen to the Universe and get out of the way when work wants to come through us We construct a core foundation unique to each artist one that will grow along with them in their artistic practice Artists will discover their own singular visual vocabulary by mining their personal history psyche and world view to reveal new creative directions and learn how to intensify and develop their core ideas to make them more resonant and complex We explore methodologies to tap into the subconscious cultivate breakthroughs create environments to maximize the gestation of ideas instill bravery and do meaningful research to produce deeply layered works of art While designed for college students professional artists will also find it allows them to get to that illusive next level in their work the one that calls to them haunts them in their dreams yet remains unarticulated in their practice In addition to helping undergraduate and graduate students who are looking to identify articulate and hone their vocabulary it can serve as a tool for more established artists to step up or refresh their practice It is the kind of book that artists will keep on the studio

shelf to pick up time and time again as their responses to the exercises will change throughout the course of their career. There are extensive lists, exercises, and questionnaires, anecdotes of art historically significant artists, and detailed descriptions of the methodologies they employ to tap into the subconscious, various types of research on creative breakthroughs, and how to apply it to your own process, helpful suggestions to create an environment, lifestyle to maximize the gestation of ideas, and how to do meaningful research to produce deeply layered works of art. While the tone of the book is often earnest and spiritual in an art is religion kind of way, Kretz is aiming for a straightforward, accessible kind, but no nonsense tenor with some humor and nurturing, tough love when needed to say some of the things that artists need to hear but few people have the guts to tell them. **Anthem Guide to the Art Galleries and Museums of Europe**, 2009
