**Economic Books** ,1976    The Reprint Bulletin ,1976    **American Book Publishing Record Cumulative, 1950-1977** R.R. Bowker Company. Department of Bibliography,1978    *British Economists and the Empire* John Cunningham Wood,2017-01-20 This study first published in 1983 is primarily concerned with what the British economists over the period 1860 to 1914 wrote on a range of economic and non economic aspects of the British Empire and the reasons for their conclusions The attempt is also made to correct the view that mainstream British economists after 1860 were antithetical to the concept of empire This title will be of interest to students of economic thought    **Guide to Reprints** ,2009    *Pauperism: Its Causes and Remedies* Henry Fawcett,2023-04-12 Reprint of the original first published in 1871 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost

**Classical Economics: May 1817 to December 1818** Donald Rutherford,1999 This set focuses on the key economic issues raised in the aftermath of the Napoleonic War when the United Kingdom was rocked by a succession of economic crises Contemporary critical articles are supplemented by new notes and introductions    National Union Catalog ,1978 Includes entries for maps and atlases    **The Literature of Political Economy** Samuel Hollander,1997-11-13 Samuel Hollander is widely recognized as one of the most important and controversial historians of economic thought This second volume collects together essays extending beyond classical economics the subject with which he is most associated This collection includes studies in Scholastic Smithian and Marshallian literature papers on the Corn Law pamphlet literature of 1815 the post Ricardian dissension and the marginal revolution essays on T R Malthus including four bibliographical studies The volume also includes an autobiographical section and reviews of a broad range of important books published in the last thirty years    **A Genealogical History of Society** Miguel A. Cabrera,2017-10-27 This book provides a detailed reconstruction of the process of formation of the modern concept of society as an objective entity from the 1820s onwards thus helping to better understand the shaping of the modern world and the nature of the current crisis of modernity The concept has exerted considerable influence over the last two centuries during which time many people have conceived themselves and behave as members of a society and social scientists have explained human subjectivities and conducts as social effects For both groups society exists as a very real phenomenon Historical inquiry shows however that the modern concept of society is no more than a historically contingent way of imagining and making sense of the human world    **The Social Lives of Land** Michael Goldman,Nancy Lee Peluso,Wendy Wolford,2024-06-15 From the shaping of new homelands in the Cherokee Nation to the export of sand from Cambodia to shore up urban expansion in Singapore The Social Lives of Land reveals the dynamics of contemporary social and political change The editors of this volume bring together contributions from across multiple disciplines and geographic locations The contributions showcase novel theoretical and empirical

insights analyzing how people are living on with and from their land From Mozambique to India Indonesia Ecuador and the colonial United States the scholars in this collection uncover histories and retell stories with a focus on the lived experiences of rural and urban land dispossession and repossession Contributors Kati lvarez Clint Carroll Flora Lu Richard Mbunda Gregg Mitman Paul Nadasdy Robert Nichols Andrew Ofstehage Laura Schoenberger Kirsteen Shields Emmanuel Sulle Erik Swyngedouw Gabriela Valdivia Katherine Verdery Callum Ward Ciara Wirth Emmanuel King Urey Yarkpawolo *Subject Guide to Books in Print*, 1991 **Routledge Library Editions: The History of Economic Thought** Various Authors, 2022-07-30 The volumes in this set originally published between 1925 and 1990 draw together research by leading academics in the area of the history of economic thought The volumes encompass many different schools of economic thought with a focus on individual economic thinkers such as Friedrich Hayek Adam Smith and Piero Sraffa This set will be of interest to students of economics particularly students of the history of economic thought **Monographic Series** Library of Congress, *Sotheran's Price Current of Literature* Henry Sotheran Ltd, 1905 Colonial Trade and International Exchange Richard Anthony Johns, 2013-11-07 International trade theory implicitly assumes that countries participating in external trade each have sovereign status Its failure to recognise the pervasive importance of colonial trade as an intermediate stage of external trade development interposed between autarky and international trade narrowly defined creates a serious gap In its explanatory structure and direct applicability Anthony John s book is an attempt to examine the properties of colonial resource management on the process of territorial specialisation He considers the implications of such foreign involvement for the trade patterns which may ensue after political independence when formal international trade entry is effected **The Economics of UN Peacekeeping** Nadège Sheehan, 2011-07-25 Peacekeeping is a security concept that is very representative of the current interventionism multilateralism human rights and humanitarian ideas UN peacekeeping plays an important role in international security and includes various activities that go beyond the original roles assigned to UN armed forces e g humanitarian aid election supervision disarmament mine clearance civilian protection and peacebuilding The problem is to define the economic efficiency of these operations and to develop some recommendations in the context of an economic globalization process Although UN peacekeeping has shortcomings it must be considered essential for organizing and defending the world politico economic order UN peacekeeping is a political activity but its production strongly depends on nations economic considerations Governments make political decisions that also take into account the economic gains they expect to obtain from their contribution to any specific mission With low means and inadequate strategies to meet the challenges UN peacekeeping must pay particular attention to resolving the problems of free riding and of prisoner s dilemma in contributions that delay deployments and create significant financial problems Understanding how peacekeeping can be most cost effectively carried out while considering the importance of legitimacy in interventions is essential This book believes that regional organizations can ease the UN s financial

responsibility by managing conflicts in their regions But to be most effective they must involve the UN in their interventions This book also emphasizes UN peacekeeping trust funds as the key to better financial effectiveness It strongly recommends that NATO be empowered by the UN with the role of global peace police and proposes the establishment of a UN high ranking team of international specialists in peacekeeping issues This research should be of interest to students and researchers looking at international and political economics as well as international relations defence security and peace studies
