

Presidential Assessment

The job of the higher education president has changed dramatically in the face of today's complex and dynamic academic environment. With new financial and social challenges, it's not an understatement to say that the success of higher education depends on presidential leadership. That's why higher education institutions need a thorough and forward-looking approach to evaluate presidential performance, with a focus on lifting the performance of senior leaders and their teams.

RECOGNIZING TODAY'S REALITIES

Institutions run the risk of losing momentum when facing presidential turnover. AGB Consulting supports boards and presidents in assessing executive performance and developing stronger leaders, working together with boards and presidents to identify the issues for assessment, such as:

- » Is the president carrying out your institution's defined mission and strategy?
- » How aligned is the presidential leadership role with your shared governance implementation?
- » Can you improve internal stakeholder relationships in further support of mission?
- » Is the institution appropriately using the presidential role in service of donor stewardship and fundraising?
- » What role does preservation of academic quality and integrity, student success, and justice, diversity, equity, and inclusion play in presidential decision-making?
- » Can you show results that contribute to and ensure institutional sustainability?
- » What changes could the institution make to optimize presidential performance?
- » Does the board integrate presidential leadership development into its culture?

OUR APPROACH TO ASSESSMENT

AGB Consulting brings an unbiased, expert perspective to your presidential assessment process, centered on supporting shared goals, mutual respect, and the ability to have an open dialogue with the board. Our expert facilitators are deeply experienced, understand the nuances and sensitivities of the assessment process, and will be paired with you based on your situation and their relevant background. Presidential Assessment:

Presidential Transition in Higher Education James Martin, James E. Samels, 2006-01-04 Zimpher University of Wisconsin Milwaukee

Presidential Powers Harold J Krent, 2005-02-01 Framed in Article II of the Constitution presidential powers are dictated today by judicial as well as historical precedent To understand the ways the president wields power as well as how this power is kept in check by other branches of government Harold J Krent presents three overlapping determinants of the president's role under the Constitution the need for presidential initiative in administering the law and providing foreign policy leadership the importance of maintaining congressional control over policymaking and the imperative to ensure that the president be accountable to the public Krent's examination is sweeping ranging from the president's ability to appoint and remove executive branch officials to the president's role in proposing and implementing treaties and the power to conduct war to the extent the president can refuse to turn over information in response to congressional and judicial requests Finally Krent addresses the history and purposes of presidential pardons By drawing on historic and contemporary presidential actions to illustrate his points Krent reminds us that the president is both an exalted leader with the regalia of power and an American who is and should be accountable to fellow citizens important considerations as we elect and assess our presidents

Presidential Campaigns and Presidential Accountability Michele P. Claibourn, 2011-02-01 In investigating the presidential campaigns and early administrations of Barack Obama George W Bush and Bill Clinton Presidential Campaigns and Presidential Accountability shows how campaign promises are realized in government once the victor is established in the Oval Office To measure correlations between presidential campaigns and policy making Michele P Claibourn closely examines detailed campaign advertising information survey data about citizen's responses to campaigns processes that create expectations among constituents and media attention and response to candidates Disputing the notion that presidents ignore campaign issues upon being elected Presidential Campaigns and Presidential Accountability contends that candidates raise issues that matter and develop ideas to address these issues based on voter reactions Conventional disappointment in presidential campaigns stems from a misunderstanding of the role that presidents play in a system of separate institutions sharing power and Claibourn forces us to think about presidential campaigns in the context of the presidency what the president realistically can and cannot do Based on comparisons of the Clinton Bush and Obama campaigns and the first years of the subsequent presidential administrations Claibourn builds a generalized theory of agenda accountability showing how presidential action is constrained by campaign agendas

Wayne, 2024-01-24 This classic text on the American presidency analyzes the institution and the presidents who hold the office through the key lens of leadership Edwards Mayer and Wayne explain the leadership dilemma presidents face and their institutional political and personal capacities to meet it Two models of presidential leadership help us understand the institution one in which a strong president

Using Evidence of Student Learning to Improve Higher Education George D. Kuh,Stanley O. Ikenberry,Natasha A. Jankowski,Timothy Reese Cain,Peter T. Ewell,Pat Hutchings,Jillian Kinzie,2014-12-09 American higher education needs a major reframing of student learning outcomes assessment Dynamic changes are underway in American higher education New providers emerging technologies cost concerns student debt and nagging doubts about quality all call out the need for institutions to show evidence of student learning From scholars at the National Institute for Learning Outcomes Assessment NILOA Using Evidence of Student

Learning to Improve Higher Education presents a reframed conception and approach to student learning outcomes assessment The authors explain why it is counterproductive to view collecting and using evidence of student accomplishment as primarily a compliance activity Today s circumstances demand a fresh and more strategic approach to the processes by which evidence about student learning is obtained and used to inform efforts to improve teaching learning and decision making Whether you re in the classroom an administrative office or on an assessment committee data about what students know and are able to do are critical for guiding changes that are needed in institutional policies and practices to improve student learning and success Use this book to Understand how and why student learning outcomes assessment can enhance student accomplishment and increase institutional effectiveness Shift the view of assessment from being externally driven to internally motivated Learn how assessment results can help inform decision making Use assessment data to manage change and improve student success Gauging student learning is necessary if institutions are to prepare students to meet the 21st century needs of employers and live an economically independent civically responsible life For assessment professionals and educational leaders Using Evidence of Student Learning to Improve Higher Education offers both a compelling rationale and practical advice for making student learning outcomes assessment more effective and efficient

Picking Judges Nancy

Maveety,2017-07-05 What defines a president Is it policymaking A good relationship with the American people Or is it legacy Most would argue that legacy imprints a president in the American consciousness A president s federal judicial appointees may be his or her most lasting political legacy Because federal judges serve for life their legal policymaking endures long after a president s term in office is over Presidents who care about serving their mandate who desire to maximize their policy agenda and who wish to influence the nation s constitutional fabric appoint as many federal judges as possible This new volume in the Presidential Briefings series shows how the president s appointment power has expanded beyond its bare constitutional outlines In exercising their constitutional powers while paying heed to political opportunities presidents and the Senate have together created our modern judicial appointment politics Presidents consider a host of demographic and ideological factors candidate qualities and electoral politics Nancy Maveety examines the dynamics of screening and choosing judicial nominees and analyses the institutional calculus in securing their confirmation in the face of senatorial obstruction Maveety shows how a president can adapt to particular circumstances and provides an outline for synergistically staffing the federal judiciary thus securing a legacy for all time
