Radish Memoirs:

The Radish Memoirs Terence Devere White, 1974 **The Radish Memoirs** Terence De Vere White, 1974 **Memoir of a Thinking Radish** Peter Brian Medawar, 1986 He's tart tough minded terribly British an imposing grand master of aphorism argument and lightning bolt one liners wrote Newsweek of Sir Peter Medawar the Nobel Prize winning immunologist and renowned author In this incisive and witty memoir Sir Peter describes his exceptional life his early days in Rio de Janeiro Oxford in the 1930s the rewards and frustrations of his medical career his musical education his family travels and more A delight to read this highly personal account illuminates the life of one of the most engaging and impressive men of our time Memoir, 1913 Memoir, 1964 **Memoir - Cornell University Agricultural Experiment Station** Cornell University. Agricultural Experiment Station, 1921 *Moose Memoirs and Lobster Tales* John McDonald, 2016-07-15 John McDonald has been making people laugh for decades with his humorous yarns poking fun at people from away people from Maine and life in general Following up the wildly popular *A Moose and a Lobster Walk into a Bar* the Dean of Maine Storytelling offers a new collection of stories that will make you laugh till you cry and cry till you laugh Here's a new round of classic stories brimming with half truths stretched truths and wry observations about life in Maine Bertrand Russell's Life and Legacy Peter Stone, 2018-01-01 Almost five decades after his death there is still ample reason to pay attention to the life and legacy of Bertrand Russell This is true not only because of his role as one of the founders of analytic philosophy but also because of his important place in twentieth century history as an educator public intellectual critic of organized religion humanist and peace activist The papers in this anthology explore Russell's life and legacy from a wide variety of perspectives This is altogether fitting given the many sided nature of Russell his life and his work The first section of the book considers Russell the man and draws lessons from Russell's complicated personal life The second examines Russell the philosopher and the philosophical world within which his work was embedded The third scrutinizes Russell the atheist and critic of organized religion inquiring which parts of his critical stance are worth emulating today The final section revisits Russell the political activist it directs an eye both at Russell's own long career of peace activism but also at his place in a highly political family tradition of which he was justifiably proud This book thus constitutes an invitation if one were needed to the world of Bertrand Russell Those new to Russell but with an interest in biography philosophy religion or politics will hopefully find something to learn here This may spark an interest in learning more about Russell But this book is not just intended for the Russell neophyte The book sheds fresh light on a number of topics central to Russell studies his connections to other philosophers for example Scholars well versed in Russell studies will enjoy grappling with the treatment given to these topics here *St. Simons Memoir* Eugenia Price, 2021-04-27 Her joyous remembrance of her first decade on an enchanted island And of those cherished friends who inspired her best selling trilogy *Lighthouse New Moon Rising* and *Beloved Invader* After only a few golden hours on Georgia's St Simons Island Eugenia Price longed to make it her home Even though she loved her

old town house in Chicago and her busy writing and lecturing schedule the shadow streaked light filled place had cast its spell and would not let her go The reader too will feel the Island s magic as Genie describes her odyssey with her friend Joyce Blackburn from the urban North to Southern small town community life and peace With deep affection and humor she shares her many friendships with the first six the elderly folk who gave her their love their stories and their memories so that she could write her novels of St Simons with her beloved editor Tay Hohoff who encouraged and goaded her and with all the other people who helped with her writing and with the building of her Island home in the midst of the dear dark woods Although she had been uncertain at first of her welcome to St Simons she later experienced the rare privilege of having the Island name a day in her honor These intimate pages are also filled with Genie s quiet faith in God and her eternal gratitude for His grace in sending her to St Simons She calls her book a memoir but it is more than that It is a thanksgiving celebration of life and of its surprising goodness even in the midst of sorrow and loss So that she can exclaim to Joyce How could life be better than it is right now

The Cambridge History of Science: Volume 6, The Modern Biological and Earth Sciences David C. Lindberg, Peter J. Bowler, Ronald L. Numbers, Roy Porter, 2003 This book in the highly respected Cambridge History of Science series is devoted to the history of the life and earth sciences since 1800 It provides comprehensive and authoritative surveys of historical thinking on major developments in these areas of science on the social and cultural milieus in which the knowledge was generated and on the wider impact of the major theoretical and practical innovations The articles are written by acknowledged experts who provide concise accounts of the latest historical thinking coupled with guides to the most important recent literature In addition to histories of traditional sciences the book covers the emergence of newer disciplines such as genetics biochemistry and geophysics The interaction of scientific techniques with their practical applications in areas such as medicine is a major focus of the book as is its coverage of controversial areas such as science and religion and environmentalism

Karl Popper: Biography, background, and early reactions to Popper's work Anthony O'Hear, 2004 Born in Austria Karl Popper 1902 1994 was one of the dominant philosophical thinkers of the 20th century A ground breaking thinker he saw the essence of true science as being the readiness to submit theories to severe testing and to reject them when refuted by test His first major book in 1935 *The Logic of Scientific Discovery* marked him as a major analyst of science and was to have an enormous influence on the way people including major scientists came to think about the field This collection is a timely assessment of the reactions to and abiding influence of Popper s work and the controversy it caused across many academic and political fields The set includes early responses to Popper s work from sources difficult to obtain and also two early reviews by Carnap and Grelling in translations specially prepared for this set It is organised thematically and includes a substantial new introduction by the editor

Memoirs Cornell University. Agricultural Experiment Station, 1924
The Library of Agricultural and Horticultural Knowledge; with a Memoir of Mr. Ellman [by F. P. Walesby] ... Third Edition, Greatly Enlarged LIBRARY., 1834 Shark's Fin and Sichuan Pepper: A Sweet-Sour Memoir of Eating in China

(First edition) Fuchsia Dunlop, 2009-08-24 Not just a smart memoir about cross cultural eating but one of the most engaging books of any kind I've read in years Celia Barbour O The Oprah Magazine After fifteen years spent exploring China and its food Fuchsia Dunlop finds herself in an English kitchen deciding whether to eat a caterpillar she has accidentally cooked in some home grown vegetables How can something she has eaten readily in China seem grotesque in England The question lingers over this autobiographical food and travel classic Publishers Weekly

Dying to Know George Levine, 2010-11-15 Dying to Know is the work of a distinguished scholar at the peak of his powers who is intimately familiar with his materials and whose knowledge of Victorian fiction and scientific thought is remarkable This elegant and evocative look at the move toward objectivity first pioneered by Descartes sheds new light on some old and still perplexing problems in modern science Bernard Lightman York University Canada In Dying to Know eminent critic George Levine makes a landmark contribution to the history and theory of scientific knowledge This long awaited book explores the paradoxes of our modern ideal of objectivity in particular its emphasis on the impersonality and disinterestedness of truth How asks Levine did this idea of selfless knowledge come to be established and moralized in the nineteenth century Levine shows that for nineteenth century scientists novelists poets and philosophers access to the truth depended on conditions of such profound self abnegation that pursuit of it might be taken as tantamount to the pursuit of death The Victorians he argues were dying to know in the sense that they could imagine achieving pure knowledge only in a condition where the body ceases to make its claims to achieve enlightenment virtue and salvation one must die Dying to Know is ultimately a study of this moral ideal of epistemology But it is also something much more a spirited defense of the difficult pursuit of objectivity the ethical significance of sacrifice and the importance of finding a shareable form of knowledge

Memoirs of Toshi Ito Toshi Nagamori Ito, 2009 Memoir of the Late Alfred Smee, F.R.S. Elizabeth Mary Odling, 1878

Memoirs of Nikita Khrushchev Nikita Sergeevich Khrushchev, Serge_ Khrushchev, 2004 Nikita Khrushchev's proclamation from the floor of the United Nations that we will bury you is one of the most chilling and memorable moments in the history of the Cold War but from the Cuban Missile Crisis to his criticism of the Soviet ruling structure late in his career the motivation for Khrushchev's actions wasn't always clear Many Americans regarded him as a monster while in the USSR he was viewed at various times as either hero or traitor But what was he really like and what did he really think Readers of Khrushchev's memoirs will now be able to answer these questions for themselves and will discover that what Khrushchev really said at the UN was we will bury colonialism This is the second volume of three in the only complete and fully reliable version of the memoirs available in English In the first volume published in 2004 Khrushchev takes his story up to the close of World War II In the first section of this second volume he covers the period from 1945 to 1956 from the famine and devastation of the immediate aftermath of the war to Stalin's death the subsequent power struggle and the Twentieth Party Congress The remaining sections are devoted to Khrushchev's recollections and thoughts about various domestic and international problems In the second and third sections he recalls the

virgin lands and other agricultural campaigns and his dealings with nuclear scientists and weapons designers He also considers other sectors of the economy specifically construction and the provision of consumer goods administrative reform and questions of war peace and disarmament In the last section he discusses the relations between the party leadership and the intelligentsia Included among the Appendixes are the notebooks of Nina Petrovna Kukharchuk Khrushchev s wife
