Reflections Nothing More:

Reflections from Behind the Glass Jasper A. Lee, 2020-10-23 We see the world through various glasses rose colored glasses glass ceilings even the looking glass While our greatest insights arise from seeing things through these glasses it is not until we look beyond them that we understand who we are and who we can be When we cannot see the glass we risk being trapped in our own glass cell or worse a house of mirrors of our own making The Principles of the Philosophy of the Expansive and Contractive Forces; Or, An Inquiry Into the Principles of Modern Philosophy Robert Greene, 1727 **Values of Love and Ethical Reflection** Edmund Husserl, 2024-12-20 This first volume of Husserlian Legacies Themes for the 21st Century focuses on hitherto underexamined dimensions of Husserl's philosophical thinking and in particular values and love Texts in this series draw from the variety of Husserl's rich original works they are selected and arranged with the support of the Husserl Archives Leuven The texts are made available in English and are primarily targeted to advanced undergraduates graduate students and scholars This volume helps the reader both to investigate the themes of value and love and to gauge their role in Husserl's reflections on related topics his analysis of philosophy the sciences as vocational tasks the emotions and the community of love as well as his personalistic reformulation of the categorical imperative The texts gathered edited and translated in this volume have far reaching implications ranging from axiology and individual and social ethics to the philosophy of emotions action theory and the philosophy of science **REFLECTION** Michael Blekhman, 2018-12-20 Michael Blekhman's novel Reflection describes three generations of people living in the Soviet Union in the 20s 30s 40s of the XX century as well as in a Jewish village Rechitsa in Belarus in the XIX century The novel is focused on a young couple Klara Stolberg and Samuil Blekhman their relatives and friends The author and his characters seek to answer the central questions of human life Together with them Blekhman is reflecting on whether human beings can be happy retain their individuality be loved and love dream and make their most cherished wishes come true despite all the tragic problems which may seem insurmountable to the present generation Blekhman shows Klara and Samuil growing up the boy becoming a man and the girl turning into a woman enjoying things that may seem not very important to others but are quite significant to them At the beginning of the novel the female protagonist of the novel Klara who is 9 years old at that time comes across an enigmatic line in a collection of poems by Alexander Pushkin No happiness exists just force of will and peace In fact Blekhman's novel is an attempt to answer the question Does happiness exist Together with his characters the author answers Yes it definitely does *Aids to reflection, in the formation of a manly character ... illustrated by select passages ... especially from Archbishop Leighton ... First American, from the first London edition ... Together with a preliminary essay, and additional notes, by James Marsh* Samuel Taylor Coleridge, 1840 The Golden Bough James George Frazer, 2005-12-01 The notion of a man god or of a human being endowed with divine or supernatural powers belongs essentially to that earlier period of religious history in which gods and men are still viewed as beings of much the same order and before they are

divided by the impassable gulf which to later thought opens out between them Strange therefore as may seem to us the idea of a god incarnate in human form it has nothing very startling for early man who sees in a man god or a god man only a higher degree of the same supernatural powers which he arrogates in perfect good faith to himself from Chapter VII Incarnate Human Gods In 1890 James George Frazer began publishing *The Golden Bough* his monumental study of myth ritual and religion which would by 1936 run to 13 volumes and establish him as a pioneer in the study of religion as an aspect of culture This abridged edition assembled in 1922 condenses this fundamental work to one readable volume that is still a source for modern anthropology thanks to its expansive discussions ancient cultish practices and their connections to the rites of modern Christianity In eloquent prose Frazer discusses legends of the woods sympathetic magic magicians as kings the worship of trees the concept of the sacred marriage the links between priestly and royal power ritual royal sacrifices the concept of eating the god the myths of Osiris Adonis Isis and other ancient deities and much more Lovers of mythology will be enraptured by this book which draws all of human belief under one unifying umbrella celebrating myth and ritual as part of the basis of all human culture Scottish anthropologist SIR JAMES GEORGE FRAZER 1854 1941 also wrote *Man God and Immortality* 1927 and *Creation and Evolution in Primitive Cosmogonies* 1935 *The Monthly Magazine* ,1814 [The Golden Bough](#) Sir James George Frazer,1911 [The Battle of the Gods and Giants Redux](#) Patricia Easton,2015-09-07 The Battle of Gods and Giants Redux is a collection of 14 original essays by leading scholars in the field Part One includes figures and topics associated with Descartes the chief idealist in the story including Leibniz Spinoza and Malebranche Part Two includes figures and topics that fall on the Gassendist materialist side of the battle including Hobbes Bayle and Locke In organizing these varied discussions along these themes and lines something more than the sum of the parts emerges The reader will gain a breadth and depth of insight into the battle of ideas in early modern thought historical philosophical and interpretive Contributors are Margaret Atherton Martha Brandt Bolten Patricia Easton Lorne Falkenstein Nicolas Jolley Jos Maia Neto Steven Nadler Alan Nelson Lawrence Nolan Donald Rutherford Tad Schmultz Kurt Smith Julie Walsh and Richard Watson **The Golden Bough** Sir James George Frazer,2012-04-26 Classic 1890 study of cults rites and myths of antiquity helped define terms of social anthropology influencing generations of thinkers Abridgment omits footnotes occasionally condenses text all main principles remain intact [Self-reflection in Literature](#) ,2019-12-16 Self reflection is fundamental for human thinking on many levels Philosophy has described the mind s capacity to observe itself as a core element of human existence Political and social sciences have shown how modern democracies depend on society s ability to critically reflect on their own values and practices And literature of all ages has proven self reflexivity to be a crucial trait of cultural production This volume provides the first diachronic panorama of genres forms and functions of literary self reflection and their connections with social political and philosophical discourses from the 17th century to the present Far beyond the usual focus on postmodernist opacity these contributions present a rich tradition of critical transparency Literary texts that show

importance for knowledge reasoning freedom and normativity Philosophers have frequently extolled the value of reflective self examination and a wide range of philosophers who differ on many other things have argued that reflection can help to solve a number of significant philosophical problems The importance of reflecting on one s beliefs and desires has been viewed as the key to solving problems about justification and knowledge about reasoning about the nature of freedom and about the source of normativity In each case a problem is identified which reflective self examination is thought to address Kornblith argues that reflection cannot solve any of these problems There is a common structure to these issues and the problems which reflection is thought to resolve are ones which could not possibly be solved by reflecting on one s beliefs and desires More than this he suggests that the attempt to solve these problems by appealing to reflection saddles us with a mystical view of the powers of reflective self examination Recognition of this fact motivates a search for a demystified view of the nature of reflection To this end Kornblith offers a detailed examination of views about knowledge reasoning freedom and normativity in order to better understand the motivations for extolling self reflective examination He explores both the logic of these views and the psychological commitments they involve In the final chapter he offers a more realistic view of reflection which draws on dual process approaches to cognition **THE END OF THE EARTH: Stories of Caminos** Dr.
