Retrato De Elsa:

El Proceso Franz Kafka, 1999-12 El proceso fue publicado en 1925 un año después de la muerte de autor Obra maestra de la literatura plantea a través de la historia de protagonista envuelto en un inexplicable proceso judicial la gran tragedia que rodea al ser humano No fue difícil al autor este planteamiento que perfila la muerte como meta última del hombre No en vano reflejo en esta obra los entresijos de su vida víctima de la intransigencia de su padre y de deambular tuberculoso por sanatorios de Centro Europa Tampoco el amor le acompañaría hasta el final de su vida cuando encontró apoyo en For a Diamant que le acompañó hasta el final Franz Kafka 1882 1924 Falleció a su lado apenas cumplidos los cuarenta y un años de edad con uno de los legados literarios más angustiosos de la literatura En el plasma con maestría el desasosiego íntimo de hombre contemporáneo

Praying to Portraits Adam Jasienski, 2023-09-14 In *Praying to Portraits* art historian Adam Jasienski examines the history meaning and cultural significance of a crucial image type in the early modern Hispanic world the sacred portrait Across early modern Spain and Latin America people prayed to portraits They prayed to true effigies of saints to simple portraits that were repainted as devotional objects and even to images of living sitters depicted as holy figures Jasienski places these difficult to classify image types within their historical context He shows that rather than being harbingers of secular modernity and autonomous selfhood portraits were privileged sites for mediating an individual's relationship to the divine Using Inquisition records hagiographies art theoretical treatises poems and plays Jasienski convincingly demonstrates that portraiture was at the very center of broader debates about the status of images in Spain and its colonies Highly original and persuasive *Praying to Portraits* profoundly revises our understanding of early modern portraiture It will intrigue art historians across geographical boundaries and it will also find an audience among scholars of architecture history and religion in the early modern Hispanic world

The Gothic Fiction of Adelaida García Morales Abigail Lee Six, 2006 By highlighting features common to the Gothic classics and the works of Adelaida García Morales this monograph aims to put the Gothic on the map in Hispanic Studies The Gothic as a literary mode extending well beyond its first proponents in eighteenth century England is well established in English studies but has been strangely under used by Hispanists Now Abigail Lee Six uses it as the paradigm through which to analyse the novels of Adelaida García Morales while not suggesting that every novel by this author is a classic Gothic text she reveals certain constants in the work that can be related to the Gothic even in novels which one might not classify as such Each of the novels studied is paired with an English language Gothic text such as *Dracula* *Frankenstein* and *Dr Jekyll and Mr Hyde* and then read in the light of it The focus of each chapter ranges from psychological aspects such as fear of decay or otherness or the pressures linked to managing secrets to more concrete elements such as mountains and frightening buildings and to key figures such as vampires ghosts or monsters This approach sheds new light on how García Morales achieves probably the most distinguishing feature of her novels their harrowing atmosphere ABIGAIL LEE SIX is Professor of Hispanic Studies at Royal Holloway University of London
