The Echoing Woods E. Kegel-Brinkgreve,2023-08-21 For the first time since more than ninety years a survey is offered of bucolic and pastoral extending from the classical mainspring of the genre to the English 18th century The emphasis is on the genre itself the role of imitation in constituting and maintaining its identity and on the Renaissance extension from bucolic to the wider and more diffuse phenomenon of pastoral Therefore the seminal role of Theocritus Virgil Dante Petrarch Sannazaro Tasso and in England Spenser and Sidney is highlighted by means of an analysis of their works in this vein The subject is of interest for classical scholars who want to become acquainted with the Renaissance revival and mutation of an ancient genre and for students of English and comparative literature who want to study the important classical sources and the development of pastoral in English literature from 1578 up to the end of the eighteenth century Poems Poems,1859

Golden childhood; or, The child's own annual of pictures, poetry and music [afterw.] Merry sunbeams [afterw.] Golden childhood ,1879 **Russia and its Other(s) on Film** S. Hutchings,2008-04-25 Russia's interactions with the West have been a perennial theme of Slavic Studies and of Russian culture and politics Likewise representations of Russia have shaped the identities of many western cultures No longer providing the Evil Empire of 20th American popular consciousness images of Russia have more recently bifurcated along two streams that of the impoverished refugee and that of the sinister mafia gang Focusing on film as an engine of intercultural communication this is the first book to explore mutual perceptions of the foreign Other in the cinema of Russia and the West during and after communism The book's structure reflects both sides of this fascinating dialogue Part 1 covers Russian Soviet cinematic representations of otherness and Part 2 treats western representations of Russia and the Soviet Union An extensive Introduction sets the dialogue in a theoretical context The contributors include leading film scholars from the USA Europe and Russia *Sōseki* John Nathan,2018-05-15 Natsume S seki 1867 1916 was the father of the modern novel in Japan chronicling the plight of bourgeois characters caught between familiar modes of living and the onslaught of Western values and conventions Yet even though generations of Japanese high school students have been expected to memorize passages from his novels and he is routinely voted the most important Japanese writer in national polls he remains less familiar to Western readers than authors such as Kawabata Tanizaki and Mishima In this biography John Nathan provides a lucid and vivid account of a great writer laboring to create a remarkably original oeuvre in spite of the physical and mental illness that plagued him all his life He traces S seki's complex and contradictory character offering rigorous close readings of S seki's groundbreaking experiments with narrative strategies irony and multiple points of view as well as recounting excruciating hospital stays and recurrent attacks of paranoid delusion Drawing on previously untranslated letters and diaries published reminiscences and passages from S seki's fiction Nathan

renders intimate scenes of the writer's life and distills a portrait of a tormented yet unflaggingly original author. The first full length study of S. S. S. Nathan's biography elevates S. S. S. to his rightful place as a great synthesizer of literary traditions and a brilliant chronicler of universal experience who no less than his Western contemporaries anticipated the modernism of the twentieth century. **Some More Gleanings**, 1895 British Birds, 1920 Discrete Cuckoo Search for Combinatorial Optimization Aziz Ouassarab, 2020-03-24 This book provides a literature review of techniques used to pass from continuous to combinatorial space before discussing a detailed example with individual steps of how cuckoo search CS can be adapted to solve combinatorial optimization problems. It demonstrates the application of CS to three different problems and describes their source code. The content is divided into five chapters, the first of which provides a technical description together with examples of combinatorial search spaces. The second chapter summarizes a diverse range of methods used to solve combinatorial optimization problems. In turn, the third chapter presents a description of CS, its formulation and characteristics. In the fourth chapter, the application of discrete cuckoo search (DCS) to solve three POCs, the traveling salesman problem, quadratic assignment problem, and job shop scheduling problem, is explained, focusing mainly on a reinterpretation of the terminology used in CS and its source of inspiration. In closing, the fifth chapter discusses random key cuckoo search (RKCS) using random keys to represent positions found by cuckoo search in the TSP and QAP solution space. **The Archer's Register**, 1885 *Drug Discovery and Telemedicine* Saurav Mallik, Zubair Rahaman, Soumita Seth, Anjan Bandyopadhyay, Sujata Swain, Somenath Chakraborty, 2025-09-22 Our proposed book emerges in response to the critical need for an interdisciplinary resource that encapsulates the burgeoning role of artificial intelligence (AI) in reshaping drug discovery and telemedicine.
