Returning Home After 28 Years:

Last Years of Long Lives Tor Inge Romoren, 2004-03-01 The Last Years of Long Lives is a unique account of that period of old age which precedes death Based on 400 complete individual histories and covering a twenty year period it looks at the experiences of people over eighty years old in three important areas disability family life and health care Using the life course approach to research it reveals rich data about the contributions of formal and informal care and how life expectancy and experiences of disability interact with experiences of care The reader is invited to conceptualise these phenomena as processes in continuous time processes that are sometimes long and complex sometimes short and simple and learns about the four types of disability career before death At the same time the author presents a three stage model of informal care and examines the main patterns of formal service use The Last Years of Long Lives presents a new way of looking at old age for students researchers practitioners and policy makers and gives a comprehensive picture of what has been called the fourth age
