Garrard, 2022-01-01 A vigorous and timely defense of the state as a force for good For decades now wealth and power have been shifting from states to markets This experiment has been a failure for all but a privileged few But this trend is beginning to reverse accelerated by the COVID 19 pandemic which has seen the state play the most direct and positive role in citizens everyday lives in living memory Graeme Garrard makes a powerful case for the state as our only realistic hope of countering the rising power of multinational corporations organized crime and international organizations that will always put their own interests first Today the state is essential to the health and welfare of everyone except the rich and powerful Yet it is being rolled back and whittled away leaving the well being of most of us at the mercy of unaccountable private powers that are increasingly free from external control As Garrard shows the state is the only realistic way of promoting the public good in our time

*The Returning Hero* Simon Hornblower, Giulia Biffis, 2018-09-04 A recurring and significant theme in ancient Greek literature is that of returns and returning chiefly but by no means only of mythical Greek heroes from Troy One main and certainly the most marked ancient Greek word for return is nostos plural nostoi from which is derived the English nostalgia Nostos related traditions were important ingredients of colonial foundation myths and the theme runs through both ancient Greek prose and poetry from Homer's Odyssey to Lykophron's Alexandra also leaving traces in the historical record through the archaeological and epigraphical commemoration of nostoi which played a central part in defining Greek ethnicity and crystallizing personal and communal identities This volume offers a truly interdisciplinary exploration of the concept of nostos in ancient Greek culture which draws on its contributors expertise in ancient Greek and Roman history literature archaeology and religion The chapters examine both literary and material evidence in order to achieve a better understanding of the nature of Greek settlement in the Mediterranean zone and of

sometimes equivocal Greek and Roman perceptions of home displacement and returning The special problems and vocabulary of exile are explored in the long Introduction which offers an incisive yet accessible overview of the volume s key themes and sets its range of contributions clearly in context while two chapters are concerned in different ways with emotions and personal identity making use of the theoretical tool of place attachment another demonstrates that failed nostoi can be more interesting than successful examples Evidential absence can be as important and illuminating as presence and mythical women underrepresented in this regard feature extensively in several chapters which open up a range of new perspectives on nostos
