Wood,2014-06-13 Few Mexican musicians in the twentieth century achieved as much notoriety or had such an international impact as the popular singer and songwriter Agustín Lara 1897 1970 Widely known as el flaco de oro the Golden Skinny this remarkably thin fellow was prolific across the genres of bolero ballad and folk His most beloved Granada a song so enduring that it has been covered by the likes of Mario Lanza Frank Sinatra and Placido Domingo is today a standard in the vocal repertory However there exists very little biographical literature on Lara in English In Agustín Lara A Cultural Biography author Andrew Wood's informed and informative placement of Lara's work in a broader cultural context presents a rich and comprehensive reading of the life of this significant musical figure Lara's career as a media celebrity as well as musician provides an excellent window on Mexican society in the mid twentieth century and on popular culture in Latin America Wood also delves into Lara's music itself bringing to light how the composer's work unites a number of important currents in Latin music of his day particularly the bolero With close musicological focus and in depth cultural analysis riding alongside the biographical narrative Agustín Lara A Cultural Biography is a welcome read to aficionados and performers of Latin American musics as well as a valuable addition to the study of modern Mexican music and Latin American popular culture as a whole
