Reversibility in Testicular Toxicity Assessment Anthony R. Scialli, Eric D. Clegg, 1992-06-09 A number of endpoints of testicular toxicity have been studied including those involving the germ Sertoli and Leydig cells and the testicular vasculature but there has been little work done regarding the reversability of such effects Theoretical considerations and empiric observations suggest that reversibility may be an important parameter to consider in the evaluation of male reproductive toxicity This book considers these possibilities providing an authoritative summary of knowledge Reversibility in Testicular Toxicity Assessment is organized by testicular element and will provide an important reference source for toxicology researchers and reproductive medicine clinicians involved with reproductive toxicity *Guidelines for reproductive toxicity risk assessment*, 1999 *Reproductive Toxicology, Second Edition* J Witorsch Raphael, 1995-06-30 Presents not only the major principles and current issues in the field but also provides a physiologic basis for the actions and reactions to reproductive toxic agents The volume is divided into three sections The first focuses on the current concepts of normal mammalian reproductive function from the systems to subcellular level The second explains how toxic substances disrupt the normal functioning of elements of the mammalian reproductive system The third section discusses other issues of long standing or recent interest to the field such as clinical aspects epidemiology and the toxic effects of low energy electromagnetic fields and tobacco alcohol and other substances of abuse Annotation copyright by Book News Inc Portland OR Developmental and Reproductive Toxicology Ronald D Hood, 2016-04-19 Completely revised and updated Developmental and Reproductive Toxicology A Practical Approach Second Edition draws together valuable information typically scattered throughout the literature plus some not previously published into one complete resource In addition to the traditional aspects of developmental toxicity testing the book covers e Handbook of Toxicology, Third Edition Michael J. Founded on the paradox that all things are poisons and the difference between poison and remedy is quantity the determination of safe dosage forms the base and focus of modern toxicology In order to make a sound determination there must be a working knowledge of the biologic mechanisms involved and of the methods employed to define these mechanisms While the vastness of the field and the rapid accumulation of data may preclude the possibility of absorbing and retaining more than a fraction of the available information a solid understanding of the underlying principles is essential Extensively revised and updated with four new chapters and an expanded glossary this fifth edition of the classic text Principles and Methods of Toxicology provides

comprehensive coverage in a manageable and accessible format New topics include toxicopanomics plant and animal poisons information resources and non animal testing alternatives Emphasizing the cornerstones of toxicology people differ dose matters and things change the book begins with a review of the history of toxicology and followed by an explanation of basic toxicological principles agents that cause toxicity target organ toxicity and toxicological testing methods including many of the test protocols required to meet regulatory needs worldwide The book examines each method or procedure from the standpoint of technique and interpretation of data and discusses problems and pitfalls that may be associated with each The addition of several new authors allow for a broader and more diverse treatment of the ever changing and expanding field of toxicology Maintaining the high quality information and organizational framework that made the previous editions so successful Principles and Methods of Toxicology Fifth Edition continues to be a valuable resource for the advanced practitioner as well as the new disciple of toxicology *Encyclopedia of Toxicology* Bruce Anderson,Ann de Peyster,Shayne C.
