How two teenage girls in Minnesota jump-started a revolution in high school athletics. Peggy Brenden, a senior, played tennis. Toni St. Pierre, a junior, was a cross-country runner and skier. All these two talented teenagers wanted was a chance to compete on their high school sports teams. But in Minnesota in 1972, the only way on the field with the boys was through a federal court, so that was where the girls went. Break Point tells the story for the first time of how two teenagers took on the unequal system of high school athletics, setting a legal precedent for schools nationwide before the passage of Title IX. As Peggy's younger sister, author Sheri Brenden is uniquely positioned to convey the human drama of the case, the stakes, and the consequences for two young women facing the legal machinery of the state in court and in school. In an account that begins with Peggy painstakingly typing her appeal to the Minnesota Civil Liberties Union and concludes with a long view of what *Brenden v. Independent School District 742* set in motion, Sheri Brenden summons the salient details of this landmark case as it makes its way through the courts. Peggy and Toni, coaches, administrators, and experts testify before Judge Miles Lord, whose decision upheld

in a precedent setting appeal would change these girls lives and open up athletic opportunities for innumerable others Grounded in newspaper coverage court records and interviews Brenden s deeply researched scrupulously reported book is at heart the story of two talented teenage girls whose pluck and determination and often heartache led to a victory much greater than any high school championship

Sports Crazy Steven J. Overman,2019-02-11 Sports Crazy How Sports Are Sabotaging American Schools exposes the excesses of middle and high school sports and the detrimental effects our sports obsession has on American education Institutions are increasingly emulating college and professional sports models and losing sight of a host of educational and health goals Steven J Overman describes how this agenda is driven largely by partisan fans and parents of athletes who exert an inordinate influence on school priorities and he explains how and why school administrators shockingly and consistently capitulate to these demands The author underscores the incongruity of public schools involved in an entertainment business and the effects this diversion has on academic integrity learning life experience and overall educational outcomes Overman examines out of control school sports within the context of a school s educational mission and curriculum with telling reference to impacts on physical education He explores as well the outsized place of interscholastic sports beyond the classroom and scrutinizes the distorted relationship between intramural or recreational sports and elitist varsity athletics Overman s chapter on tackle football explains many reasons why this sport should be eliminated from the school extracurriculum and replaced by flag or touch football Overman presents a brief history of interscholastic sports and he compares and contrasts the American experience of school sponsored sport to the European model of community based clubs Which approach better serves students Overman recommends reforms in the context of a radical proposal to phase out interscholastic sports in favor of an intramural or club model This approach would alleviate such problems as elitism and gender bias and reign in hypercompetitiveness while freeing schools to educate students rather than provide public entertainment
