Review Of Clergy Terms Of Service 2nd Edition 2005:

If you meet George Herbert on the road, kill him Justin Lewis-Anthony, 2013-01-17 Priestly ministry in the Church of England needs a radical rethink George Herbert died in 1633 His legacy continues His poems are read and sung and his parish ministry remains the model for the Church of England's understanding of how and where and why its priests should minister But there is a problem The memory of Herbert celebrated by the Church is an inaccurate one and in its inaccuracy is unfair on Herbert himself and his successors in the ordained ministry This is a book of the long view It sets out to assess realistically the context of Herbert's life and to explore the difficulties of parish life today By examining the status and role of parish clergy since Herbert's time and today it draws on the work of historians social anthropologists psychologists and theologians and presents their ideas in a readable and passionate style It argues that the future strength of parochial ministry will be found in a recovery of historic renewed understandings of priestly ministry and concludes by outlining more sustainable patterns of practice for the future In a climate of uncertainty for the future of the church it will be an encouragement for priest and people and welcomed by both

Developing Faithful Ministers Tim Ling, 2013-01-25 *Developing Faithful Ministers* aims to support the work of all those involved in supervision and training relationships within the Church The Church recognising its call to serve God and the nation seeks to equip and develop its ministers to face the challenge of ministry in a society at the threshold of Christendom that is in a mission context It is a context where both the general public and the institutional church have significant expectations of those in ministry Indeed there is now an expectation of demonstrable capability prior to being licensed to any form of permanent tenure The demand for more professional demonstrably capable mission able and collaborative licensed ministers places particular weight on the efficacy of the initial training relationship *Developing Faithful Ministers* seeks to support those who find themselves in these relationships by offering both models of good practice and sustained theological reflection on what these drivers mean for developing ministry

Spirituality in Ministerial Formation Andrew Mayes, 2009-10-01 This is a ground breaking study into a crucial area of theological education It traces the origin and evolution of the formation model of training and identifies what difference this paradigm makes to present practice It uncovers significant and surprising functions of prayer in the formational and learning process as discovered in empirical research informed by theological and psychological perspectives on prayer among a sample of newly ordained clergy and tutors The practical implications of the research are identified offering creative ideas for a renewed understanding and praxis of the role of prayer in learning This is essential reading for theological students and teachers alike and calls for a clearer articulation of a spirituality of education as needed by our present culture and context
