Race, Culture, and Identity Shireen K. The Need for Revision David P. Owen, Jr., 2012-01-01 Can we have more teacher intellectuals in our classrooms This book demonstrates that we can But many things have to change before intellectual

standards appear again in public schools David Owen attempts to show but not in outline form how we can revise our schools Can we escape the rut in which public education finds itself dominated by the inane tests the stifling reduction of school to job training and the insane transformation of a life affirming odyssey of the mind to cliché information gathering and slogans We can reclaim the beauty of an education if we join David and revise our classrooms Education is uncertain risky wonderously adventurous yet schooling has become stale No tediously dreadful There is a need to revise Reject standardized tests Repeal pay for performance Eject No Child Left Behind before no child has a thoughtful mind left It is time to revise and David's book explains why Are we still interested in the mind soul and substance of the individual Does it matter who we are and become or just what we do If these questions still matter dwell carefully with David's ideas and transform yourself your students school community state nation and world It is time to revise them all John A Weaver Georgia Southern University

Climate Change Action and the Responsibility to Protect Ben L. Parr,2023-11-29 This book brings together two
important fields in the study of international politics and policy climate change adaptation and mitigation climate action and
the Responsibility to Protect R2P Both have attracted strong scholarly attention in each of their respective research silos but
there is yet to be a strong research push that explores the relationship between the two Filling this gap Ben L Parr argues
that the climate action and the R2P agendas share a common goal to protect vulnerable human populations from large scale
harm To substantiate this argument Parr reveals where the historical conceptual and operational parallels exist between the
two agendas and where and when researchers and practitioners from both camps might work together in practice to achieve
their common goal in the challenging years ahead Notably the book builds on recent efforts by Western governments in the
UK US and EU to integrate climate action policies into conflict prevention and response policies To achieve this the volume
situates a variety of climate action policies alongside the 46 policy options found in the R2P operational framework commonly
known as the R2P toolbox across its prevention reaction and rebuilding phases Climate Change Action and the Responsibility
to Protect will be of significant interest to policy orientated students and scholars those working at the academic policy
interface in the NGO community as well as those working in government and international organisations
