Biological & Agricultural Index ,1929 *The Oxford English Dictionary* ,1989 In addition to current definitions provides an historical treatment to words and idioms included *Entomology Abstracts* ,1995 *The Oxford English Dictionary* James Augustus Henry Murray, Henry Bradley, 1975 *A Supplement to the Oxford English Dictionary* R. W. Burchfield, 1972 These volumes replace the 1933 Supplement to the OED The vocabulary treated is that which came into use during the publication of the successive sections of the main Dictionary that is between 1884 when the first fascicle of the letter A was published and 1928 when the final section of the Dictionary appeared together with accessions to the English language in Britain and abroad from 1928 to the present day Nearly all the material in the 1933 Supplement has been retained here though in revised form Preface *Edgar Allan Poe and the Masses* Terence Whalen, 1999-04-25 Edgar Allan Poe has long been viewed as an artist who was hopelessly out of step with his time But as Terence Whalen shows America s most celebrated romantic outcast was in many ways the nation s most representative commercial writer Whalen explores the antebellum literary environment in which Poe worked an environment marked by economic conflict political strife and widespread foreboding over the rise of a mass audience The book shows that the publishing industry far from being a passive backdrop to writing threatened to dominate all aspects of literary creation Faced with financial hardship Poe desperately sought to escape what he called the magazine prison house and the horrid laws of political economy By placing Poe firmly in economic context Whalen unfolds a new account of the relationship between literature and capitalism in an age of momentous social change The book combines pathbreaking historical research with innovative literary theory It includes the first fully documented account of Poe s response to American slavery and the first expos of his plot to falsify circulation figures Whalen also provides a new explanation of Poe s ambivalence toward nationalism and exploration a detailed inquiry into the conflict between cryptography and common knowledge and a general theory of Poe s experiments with new literary forms such as the detective story Finally Whalen shows how these experiments are directly linked to the dawn of the information age This book redefines Poe s place in American literature and casts new light on the emergence of a national culture before the Civil War *Journal of Economic Entomology* ,1942 *Oxford English dictionary additions series* John A.
