Revisiting The Human Trafficking Paradigm The Bangladesh Experience Part 1 Trafficking Of Adults:

Revisiting the Law and Governance of Trafficking, Forced Labor and Modern Slavery Prabha Kotiswaran, 2017-05-25 In the decades following the globalization of the world economy trafficking forced labor and modern slavery have emerged as significant global problems States negotiated the Palermo Protocol in 2000 under which they agreed to criminalize trafficking primarily understood as an issue of serious organized crime Sixteen years later leading academics activists and policy makers from international organizations come together in this edited volume and adopt an inter disciplinary multi stakeholder approach to revisit trafficking through the lens of labor migration and extreme exploitation and in the process rethink the law and governance of trafficking This volume considers many key factors including the evolving international law on trafficking the relationship between trafficking slavery indenture and domestic migration law and policy as well as newly emergent techniques of governance including indicators all with a view to furthering prospects for lasting economic justice in a globalized world **United Nations Publications**, 2005 Human Trafficking in Asia Sallie Yea, 2014-01-03 By analysing the complex issues surrounding internal and cross border human trafficking in Asia and asserting critical perspectives and methodologies this book extends the range of sites for discussion and sectors in which human trafficking takes place The book re centres human trafficking as an area of legitimate academic inquiry in a region that is often considered as an epicentre for human trafficking East and Southeast Asia It thus offers an in depth analysis and up to date knowledge on research methodologies and engagements patterns and forms of human trafficking constructively critiquing anti trafficking campaigns and discourses and offering examples of good practice within the region that help us move beyond the impasse that currently hampers human trafficking as a field of inquiry in the social sciences Providing constructive avenues for human trafficking research to proceed methodologically theoretically and ethically this book is of interest to students and scholars of Politics International Relations and Southeast Asian Studies Governance Feminism Janet Halley, Prabha Kotiswaran, Rachel Rebouché, Hila Shamir, 2018-03-13 Describing and assessing feminist inroads into the state Feminists walk the halls of power Governance Feminism An Introduction shows how some feminists and feminist ideas but by no means all have entered into state and state like power in recent years Being a feminist can qualify you for a job in the United Nations the World Bank the International Criminal Court the local prosecutor s office or the child welfare bureaucracy Feminists have built institutions and participate in governance The authors argue that governance feminism is institutionally diverse and globally distributed It emerges from grassroots activism as well as statutes and treaties as crime control and as immanent bureaucracy Conflicts among feminists global North and South left center and right emerge as struggles over governance This volume collects examples from the United States Israel India and from transnational human rights law Governance feminism poses new challenges for feminists How shall we assess our successes and failures What responsibility do we shoulder for the outcomes of our work For the compromises and strange bedfellows we took on along

the way Can feminism foster a critique of its own successes This volume offers a pathway to critical engagement with these pressing and significant questions 'My Name is Not Natasha' John Davies,2009 This book challenges every common presumption that exists about the trafficking of women for the sex trade It is a detailed account of an entire population of trafficked Albanian women whose varied experiences including selling sex on the streets of France clearly demonstrate how much the present discourse about trafficked women is misplaced and inadequate The heterogeneity of the women involved and their relationships with various men is clearly presented as is the way women actively created a panoptical surveillance of themselves as a means of self policing There is no artificial divide between women who were deceived and abused and those who choose sex work in fact the book clearly shows how peripheral involvement in sex work was to the real agenda of the women involved Most of the women described in this book were not making economic decisions to escape desperate poverty nor were they the uneducated nave entrapped into sexual slavery The women s success in transiting trafficking to achieve their own goals without the assistance of any outside agency is a testimony to their resilience and resolve

Reconceptualizing Approaches to Human Trafficking Grace Chang, Kathleen Kim, 2007 Scholars and advocates across several movements have attempted to develop approaches to human trafficking that would best serve the needs and support the rights of all migrant workers and survivors of trafficking Many U S based and international groups organizing for immigrant labor sex worker and sexual and reproductive health rights understand the need for collaborations among them Yet such connections have been largely obstructed by the U S federal government approach to trafficking which emphasizes sex trafficking over other forms of labor There is a growing consensus among advocates that current U S anti trafficking policies and practices that focus on law enforcement and anti prostitution efforts detrimentally impact the rights of trafficked persons Advocates increasingly witness a prosecutorial approach to trafficking narrowly focused on criminalizing prostitution as a purported means to stop trafficking Meanwhile enforcement agencies largely neglect the broader phenomenon of trafficking into agriculture domestic service restaurants hotels manufacturing and construction This article discusses the local and global consequences of the United States government approach toward human trafficking This article also evaluates U S policies and practices across multiple sectors that relate to human trafficking including prostitution labor migration and sexual and reproductive health rights By providing an overview of current issues problems and concerns within the anti trafficking movement and within related rights based movements this article seeks to facilitate the development of a new anti trafficking paradigm This paradigm evaluates trafficking within a broader framework and provides the foundation for a cross sectoral alliance to challenge mainstream approaches to human trafficking and to create new strategies to protect the rights of trafficked persons migrant workers and women against the negative impact of United States policies and practices
