The Oxford Handbook of Family Policy Over the Life Course Mary Daly,Birgit Pfau-Effinger,Neil Gilbert,Douglas J. Besharov,2023 Drawing on a multidisciplinary group of experts from many countries this Handbook is intended to be a reference work that provides students and scholars in policy related disciplines a wide ranging perspective on the diverse ways that family policies respond to modern issues and trends over the life course

The Handbook is divided into two main parts. The first part offers a panoramic introduction to the setting and issues which contemporary family policies have been designed to address. The second part and main body of the volume is organized around four benchmark periods that encompass the main stages of the family life cycle and social policies that are called into play during these stages.

Marriage Equality William N. Eskridge, Jr., Christopher R. Riano, 2020-08-18. The definitive history of the marriage equality debate in the United States, praised by Library Journal as beautifully and accessibly written. An essential work. As a legal scholar who first argued in the early 1990s for a right to gay marriage, William N. Eskridge Jr. has been on the front lines of the debate over same sex marriage for decades. In this book, Eskridge and his coauthor Christopher R. Riano offer a panoramic and definitive history of America's marriage equality debate. The authors explore the deeply religious, rabidly political, frequently administrative, and pervasively constitutional features of the debate and consider all angles of its dramatic history. While giving a full account of the legal and political issues, the authors never lose sight of the personal stories of the people involved or of the central place the right to marry holds in a person's ability to enjoy the dignity of full citizenship. This is not a triumphalist or one-sided book, but a thoughtful history of how the nation wrestled with an important question of moral and legal equality.

Family Transformed Steven M. Tipton, John Witte Jr., 2005-11-18. Statistics on the American family are sobering. From 1975 to 2000, one third of all children were born to single mothers and one half of all marriages ended in divorce. While children from broken homes are two to three times more likely to develop behavioral and learning difficulties, two-parent families are not immune to problems. The cost of raising children has increased dramatically, and married couples with children are now twice as likely as childless couples to file for bankruptcy. Clearly, the American family is in trouble. But how this trouble started and what should be done about it remain hotly contested. In a multifaceted analysis of the current state of a complex institution, *Family Transformed* brings together outstanding scholars from the fields of anthropology, demography, ethics, history, law, philosophy, primatology, psychology, sociology, and theology. Demonstrating that the family is both distinctive in its own right and deeply interwoven with other institutions, the authors examine the roles of education, work, leisure, consumption, legal regulation, public administration, and biology in shaping the ways we court and marry, bear and raise children, and make and break family bonds. International in approach, this wide-ranging volume situates current American debates over sex marriage and family within a global framework. Weighing mounting social science evidence that supports a continued need for the nuclear family while assessing the challenges posed by new advocacy for same sex marriage and delegalized coupling, the authors argue that only by reintegrating the family into a just moral order of the larger community and society can we genuinely strengthen it. This means not simply upholding traditional family values, but truly grasping the family's growing diversity, sustaining its coherence, and protecting its fragility for our own sake and for the common good of society.

Equality and the Family Don S. Browning, 2007. In *Equality and the Family*, Don Browning pulls together essays he has published in the past in order to

shed light on the path we should take in the future He contends that practical theology can be envisioned as a practical research program and he uses the very concrete example of the family to illustrate how this works Though it may sound unlikely that equality in the family can be based on Christian ideas Browning insists that it can and that it should His desire is to be pro family and pro marriage in ways that create justice and equality within the family Based on this goal he argues for the church's ideal model of the mother father partnership to be balanced with an understanding and acceptance of the pluralism of family forms as a part of modern life including church life A brief introduction of each essay is included to help the reader understand the original context of the piece

Pastoral Care 11-16 Noel Purdy, 2013-05-16 A critical guide to effective pastoral care provision exploring a range of issues including bereavement bullying child abuse domestic violence separation divorce self harm and suicide

Covenant Marriage in Comparative Perspective John Witte (Jr.), Eliza Ellison, 2005-10-20 Covenant marriages requiring premarital counseling and tighter strictures on divorce have recently emerged in some American states At the same time the doctrine of covenant has reemerged in religious circles as a common way to map the spiritual dimensions of marriage *Covenant Marriage in Comparative Perspective* brings together eminent scholars from Jewish Orthodox Catholic Protestant and Islamic religious traditions as well as experts on American covenant marriage The introduction carries out an unprecedented comparison of contract and covenant in Jewish Christian and Muslim understandings of marriage The rest of the book elucidates various facets of marriage from the perspectives of both jurisprudence and religion producing an enlightening integrated picture of the legal and spiritual dimensions of marriage

The Future of Christian Marriage Mark Regnerus, 2020-08-01 Marriage has come a long way since biblical times Women are no longer property and practices like polygamy have long been rejected The world is wealthier healthier and more able to find and form relationships than ever So why are Christian congregations doing more burying than marrying today Explanations for the recession in marriage range from the mathematical more women in church than men to the economic and from the availability of sex to progressive politics But perhaps marriage hasn't really changed at all Instead there is simply less interest in marriage in an era marked by technology gender equality and secularization Mark Regnerus explores how today's Christians find a mate within a faith that esteems marriage but in a world that increasingly

yawns at it This book draws on in depth interviews with nearly two hundred young adult Christians from the United States Mexico Spain Poland Russia Lebanon and Nigeria in order to understand the state of matrimony in global Christian circles today Regnerus finds that marriage has become less of a foundation for a couple to build upon and more of a capstone Meeting increasingly high expectations of marriage is difficult though in a free market whose logic reaches deep into the home today The result is endemic uncertainty slowing relationship maturation and stalling marriage But plenty of Christians innovate resist and wed and this book argues that the future of marriage will be a religious one *Family Life Education* Carol A. Darling, Dawn Cassidy, 2014-04-23 Contemporary family life educators operate within a wide range of settings and with increasingly varied populations and families In the third edition of *Family Life Education* Darling and Cassidy expose readers to the diverse landscape of the field while laying a comprehensive research based practical foundation for current and future family life educators The authors both CFLE certified consider the Certified Family Life Educator certification requirements of the National Council on Family Relations throughout the text Their broad overview of the field includes a brief history and discussion of family life education as an established profession The authors incorporate theory research and practice while also providing guidelines for planning implementing and evaluating family life education programs Chapters on sexuality education relationship and marriage education and parenting education highlight some of the more prevalent and visible forms of family life education Comments from international educators and interactive classroom exercises focus on global trends building awareness and appreciation of diversity Discussion questions and activities encourage readers to examine issues and apply what they have learned **Marriage Proposals** Anita Bernstein, 2008-12 The essays in *Marriage Proposals* envision a variety of scenarios in which adults would continue to join themselves together seeking permanent companionship and sustenance linking sexual intimacy to a long commitment usually caring for each other and building new families What would disappear are the legal consequences associated with marriage No joint income tax return no immigration privileges like the fianc e visa or the right to bring in a husband or wife no special statuses for prison visits or hospital decisions no prerogative to remain silent in court by claiming confidential marital communications no pension entitlements no marital benefits and detriments regarding criminal or civil liability The anthology makes a unique contribution amid the two marriage furors of the day same sex marriage and the Bush Administration s marriage movement that marrying is good and more marriages would be better for society Abolishing the legal category of marriage is the only policy suggestion in current American discourse that speaks to both causes Activists on both sides of the same sex marriage fight along with marriage movement partisans all seek improvement through law reform *Marriage Proposals* gives them a viable reform abolition of marriage as a legal status for fighting battles in the courtroom and the streets Contributors include Anita Bernstein Peggy Cooper Davis Martha Albertson Fineman Linda C McClain Marshall Miller Lawrence Rosen Mary Lyndon Shanley and Dorian Solot [Benefits of a Healthy Marriage](#) United States. McLanahan, Elisabeth Donahue, Ron Haskins, 2008-12-31 This second volume of *The Future of Children* examines family formation and child well being with a particular focus on marriage The authors look at the history of marriage in America the changes in family formation and the effect of these changes on economic and social outcomes for children and the effect of marriage policy on specific subgroups such as low income minority and homosexual families The volume also provides a review of programs that have tried to increase and stabilize marriage as well as the impact of tax and transfer policies on marriage Contents Introduction and Overview Sara McLanahan Ron Haskins and Elisabeth Donahue The Emergence of Marriage as a Public Issue Steve Nock University of Virginia American Marriage in the Early Twenty First Century Andrew Cherlin Johns Hopkins University The Impact of Family Formation Change on Family Income Isabel Sawhill Brookings Institution and Adam Thomas John F Kennedy School of Government Harvard University The Impact of Family Formation Change on the Cognitive Social and Emotional Wellbeing of the next Generation Paul Amato Pennsylvania State University Family Formation Choices of Low Income and Minority Families Kathryn Edin University of Pennsylvania and Joanna Reed Northwestern University Marriage Initiatives What Might Work Robin Dion Mathematica Policy Research Gay Marriage Same Sex Parenting and America s Children Jonathan Rauch National Journal and the Brookings Institution and William Meezan University of Michigan Tax and Transfer Policy C Eugene Steuerle Urban Institute *Marriage and Values in Public Policy* Elizabeth van Acker, 2017-01-20 Marriage is a site of political conflict It is a controversial issue in the UK Australia and the US where there is a clash of values between neoliberal governments and diverse groups either strongly opposing or supporting marriage In the meantime fewer couples are marrying while other family forms are more widely accepted This book explores this disconnect by examining policy issues such as class divides ethnicity religion same sex marriage gender relations and romantic expectations A top down approach explores different government policy responses to marriage In all three countries there are differences and similarities in how governments react to the changes in family formations but values or conceptions of the desirable play a significant role Enhancing stability and commitment as well as personal responsibility are important for policymakers who aim to keep the family intact and thereby lower the burden on the public purse It is difficult for political actors to respond to conflicting and changing values surrounding the diversity in relationships or to translate them into policies There is a strong case to be made for increased policy attention to adult relationships and a much weaker case for marriage Rich evidence is drawn from interviews with key stakeholders as well as politicians speeches government departmental reports stakeholders documents and responses to government policies and media articles
