Evans,2013-01-14 Before the invention of the combine the binder was an essential harvesting implement that cut grain and bound the stalks in bundles tied with twine that could then be hand gathered into shocks for threshing Hundreds of thousands of farmers across the United States and Canada relied on binders and the twine required for the machine s operation Implement manufacturers discovered that the best binder twine was made from henequen and sisal spiny fibrous plants native to the Yucat n Peninsula of Mexico The double dependency that subsequently developed between Mexico and the Great Plains of the United States and Canada affected the agriculture ecology and economy of all three nations in ways that have historically been little understood These interlocking dependencies identified by author Sterling Evans as the henequen wheat complex initiated or furthered major ecological social and political changes in each of these agricultural regions Drawing on extensive archival work as well as the existing secondary literature Evans has woven an intricate story that will change our understanding of the complex transnational history of the North American continent *The Mexican Heartland* John Tutino,2017-11-27 A major new history of capitalism from the perspective of the indigenous peoples of Mexico who sustained and resisted it for centuries The Mexican Heartland provides a new history of capitalism from the perspective of the landed communities surrounding Mexico City In a sweeping analytical narrative spanning the sixteenth century to today John Tutino challenges our basic assumptions about the forces that shaped global capitalism setting families and communities at the center of histories that transformed the world Despite invasion disease and depopulation Mexico s heartland communities held strong

on the land adapting to sustain and shape the dynamic silver capitalism so pivotal to Spain's empire and world trade for centuries after 1550. They joined in insurgencies that brought the collapse of silver and other key global trades after 1810 as Mexico became a nation then struggled to keep land and self rule in the face of liberal national projects. They drove Zapata's 1910 revolution, a rising that rattled Mexico and the world of industrial capitalism. Although the revolt faced defeat, adamant communities forced a land reform that put them at the center of Mexico's experiment in national capitalism after 1920. Then from the 1950s population growth and technical innovations drove people from rural communities to a metropolis spreading across the land. The heartland urbanized, leaving people searching for new lives, dependent, often desperate, yet still pressing their needs in a globalizing world. A masterful work of scholarship, *The Mexican Heartland* is the story of how landed communities and families around Mexico City sustained silver capitalism, challenged industrial capitalism, and now struggle under globalizing urban capitalism.

The Wind that Swept Mexico Anita Brenner, 2010-03-01 100 pages of text and 184 historical news photographs. This is the Mexican Revolution in its drama, its complexity, its incompleteness. Bertram D. Wolfe: The Mexican Revolution began in 1910 with the overthrow of dictator Porfirio Díaz. *The Wind That Swept Mexico*, originally published in 1943, was the first book to present a broad account of that revolution in its several different phases. In concise but moving words and in memorable photographs, this classic sweeps the reader along from the false peace and plenty of the Díaz era through the doomed administration of Madero, the chaotic years of Villa and Zapata, Carranza and Obregón to the peaceful social revolution of Crdenas and Mexico's entry into World War II. The photographs were assembled from many sources by George R. Leighton with the assistance of Anita Brenner and others. Many of the prints were cleaned and rephotographed by the distinguished photographer Walker Evans. Here is the history of the revolution in 184 of the best photographs of the time. The whole disintegration and painful reintegration of a society is marvelously set before the eyes. *Times Literary Supplement*: A classic and sympathetic statement of the first of the great twentieth century revolutions, its words and pictures command our attention and our respect. *Military History*: One could not have seen it more closely and fully had one taken part in it. Bertram D. Wolfe.
