Revolution Resistance And Reform In Village China:

Revolution, Resistance, and Reform in Village China Professor Edward Friedman, Edward Friedman, Friedman Edward, Professor Paul G Pickowicz, Paul Pickowicz, Mark Selden, 2005-01-01 Drawing on nearly 30 years of field and documentary research in rural North China this book explores the contested relationship between village and state since the 1960 s The authors bring the countryside to life through personal and poignant accounts of villagers across three generations of social upheaval

China, Hong Kong, and the Long 1970s: Global Perspectives Priscilla Roberts, Odd Arne Westad, 2017-08-17 This book explores the forces that impelled China the world s largest socialist state to make massive changes in its domestic and international stance during the long 1970s Fourteen distinguished scholars investigate the special perhaps crucial part that the territory of Hong Kong played in encouraging and midwifing China s relationship with the non Communist world The Long 1970s were the years when China moved dramatically and decisively toward much closer relations with the non Communist world In the late 1970s China also embarked on major economic reforms designed to win it great power status by the early twenty first centuries The volume addresses the long term implications of China s choices for the outcome of the Cold War and in steering the global international outlook toward free market capitalism Decisions made in the 1970s are key to understanding the nature and policies of the Chinese state today and the worldview of current Chinese leaders

The Transformation of Rural China Jonathan Unger, 2016-09-16 During the past quarter century Jonathan Unger has interviewed farmers and rural officials from various parts of China in order to track the extraordinary changes that have swept the countryside from the Maoist era through the Deng era to the present day A leading specialist on rural China Professor Unger presents a vivid picture of life in rural areas during the Maoist revolution and then after the post Mao disbandment of the collectives This is a story of unexpected continuities amidst enormous change Unger describes how rural administrations retain Mao era characteristics despite the major shifts that have occurred in the economic and social hierarchies of villages as collectivization and class struggle gave way to the slogan to get rich is glorious A chapter explores the private entrepreneurship that has blossomed in the prosperous parts of the countryside Another focuses on the tensions and exploitation that have arisen as vast numbers of migrant laborers from poor districts have poured into richer ones Another based on five months of travel by jeep into impoverished villages in the interior describes the dilemmas of under development still faced by many tens of millions of farmers and the ways in which government policies have inadvertently hurt their livelihoods

The Emergence of Organizations and Markets John F. Padgett, Walter W. Powell, 2012-10-14 A dynamic framework for studying social emergence The social sciences have sophisticated models of choice and equilibrium but little understanding of the emergence of novelty Where do new alternatives new organizational forms and new types of people come from Combining biochemical insights about the origin of life with innovative and historically oriented social network analyses John Padgett and Walter Powell develop a theory about the emergence of organizational market and

biographical novelty from the coevolution of multiple social networks They demonstrate that novelty arises from spillovers across intertwined networks in different domains In the short run actors make relations but in the long run relations make actors This theory of novelty emerging from intersecting production and biographical flows is developed through formal deductive modeling and through a wide range of original historical case studies Padgett and Powell build on the biochemical concept of autocatalysis the chemical definition of life and then extend this autocatalytic reasoning to social processes of production and communication Padgett and Powell along with other colleagues analyze a very wide range of cases of emergence They look at the emergence of organizational novelty in early capitalism and state formation they examine the transformation of communism and they analyze with detailed network data contemporary science based capitalism the biotechnology industry regional high tech clusters and the open source community

Learning from Shenzhen Mary Ann O'Donnell, Winnie Wong, Jonathan Bach, 2017-02-07 This multidisciplinary volume the first of its kind presents an account of China's contemporary transformation via one of its most important yet overlooked cities Shenzhen located just north of Hong Kong In recent decades Shenzhen has transformed from an experimental site for economic reform into a dominant city at the crossroads of the global economy The first of China's special economic zones Shenzhen is today a UNESCO City of Design and the hub of China's emerging technology industries Bringing China studies into dialogue with urban studies the contributors explore how the post Mao Chinese appropriation of capitalist logic led to a dramatic remodeling of the Chinese city and collective life in China today These essays show how urban villages and informal institutions enabled social transformation through cases of public health labor architecture gender politics education and more Offering scholars and general readers alike an unprecedented look at one of the world's most dynamic metropolises this collective history uses the urban case study to explore critical problems and possibilities relevant for modern day China and beyond

State-Society Relations and Confucian Revivalism in Contemporary China Qin Pang, 2018-05-25 This book is a study of the causes of the Confucian revival and the party state's response in China today It concentrates on the interactions between state and society and the implications for the Chinese state's control over society or in other words its survival over a rapidly modernizing society The book explores the answers to questions such as Why has Confucianism suddenly gathered great momentum in contemporary Chinese society What is the role of the Chinese state in its rise Is the state really the orchestrator of the Confucian revival as has been widely assumed This book will be of interest to think tank and policy researchers sinologists and those with an interest in Chinese society

China's Revolutions and Intergenerational Relations Martin Whyte, 2020-08-06 China's Revolutions and Intergenerational Relations counters the widely accepted notion that traditional family patterns are weakened by forces such as economic development and social revolutions China has experienced wrenching changes on both the economic and the political fronts yet from the evidence presented here the tradition of filial respect and support for aging parents remains alive and well Using collaborative surveys carried out in 1994 in the middle

sized industrial city of Baoding and comparative data from urban Taiwan the authors examine issues shaping the relationships between adult Chinese children and their elderly parents The continued vitality of intergenerational support and filial obligations in these samples is not simply an instance of strong Confucian tradition trumping powerful forces of change Instead and somewhat paradoxically the continued strength of filial obligations can be attributed largely to the institutions of Chinese socialism forged in the era of Mao Zedong With socialist institutions now under assault in the People's Republic of China the future of intergenerational relations in the twenty first century is once again uncertain **Cutting**

the Mass Line Andrea E. Pia, 2024-07-02 This book is aimed at rethinking social scientific approaches to collective action by exploring China's ongoing water crisis from the vantage point of Huize County a water stressed ecologically damaged multi ethnic area of rural Yunnan Province **Mao's Third Front** Covell F. Meyskens, 2020-05-14 An examination of how economic development and everyday life intersected with the temperature of Cold War geopolitics in Mao's China

Disenfranchised Joel Andreas, 2019 In the decades following World War II factories in many countries not only provided secure employment and a range of economic entitlements but also recognized workers as legitimate stakeholders enabling them to claim rights to participate in decision making and hold factory leaders accountable In recent decades as employment has become more precarious these attributes of industrial citizenship have been eroded and workers have increasingly been reduced to hired hands As Joel Andreas shows in Disenfranchised no country has experienced these changes as dramatically as China Drawing on a decade of field research including interviews with both factory workers and managers Andreas traces the changing political status of workers inside Chinese factories from 1949 to the present carefully analyzing how much power they have actually had to shape their working conditions City Versus Countryside in Mao's China Jeremy

Brown, 2012-06-18 The gap between those living in the city and those in the countryside remains one of China's most intractable problems As this powerful work of grassroots history argues the origins of China's rural urban divide can be traced back to the Mao Zedong era While Mao pledged to remove the gap between the city worker and the peasant his revolutionary policies misfired and ended up provoking still greater discrepancies between town and country usually to the disadvantage of villagers Through archival sources personal diaries untapped government dossiers and interviews with people from cities and villages in northern China the book recounts their personal experiences showing how they retaliated against the daily restrictions imposed on them while traversing between the city and the countryside Vivid and harrowing accounts of forced and illicit migration the staggering inequity of the Great Leap Famine and political exile during the Cultural Revolution reveal how Chinese people fought back against policies that pitted city dwellers against villagers

China's Democratic Future Bruce Gilley, 2004-03-12 The end of communist rule in China will be one of the most momentous events of the twenty first century sounding the death knell for the Marxist Leninist experiment and changing the lives of a fifth of humanity This book provides a likely blow by blow account of how the Chinese Communist Party will be

removed from power and how a new democracy will be born In more than half a century of rule the Chinese Communist Party has turned a poor and benighted China into a moderately well off and increasingly influential nation Yet the Party has failed to keep pace with change since stepping aside from daily life in the late 1970s After nearly a hundred years of frustrating attempts to create a workable political system following the overthrow of the last dynasty the prospects for democracy in China are better than ever according to Bruce Gilley Gilley predicts an elite led transformation rather than a popular led overthrow He profiles the key actors and looks at the response of excluded elites such as the military as well as interested parties such as Taiwan and Tibet He explains how democracy in China will be very Chinese even as it will also embody fundamental universal liberal features He deals with competing interests regional sectoral and class of China s economy and society under democracy addressing the pressing concerns of world business Finally he considers the implications for Asia as well as for the United States The end of communist rule in China will be one of the most momentous events of the twenty first century sounding the death knell for the Marxist Leninist experiment and changing the lives of a fifth of humanity This book provides a likely blow by blow account of how the Chinese Communist Party will be removed from power and how a new democracy will be born In more than half a century of rule the Chinese Communist Party has turned a poor and benighted China into a moderately well off and increasingly influential nation Yet the Party has failed to keep pace with change since stepping aside from daily life in the late 1970s After nearly a hundred years of frustrating attempts to create a workable political system following the overthrow of the last dynasty the prospects for democracy in China are better than ever according to Bruce Gilley Gilley predicts an elite led transformation rather than a popular led overthrow He profiles the key actors and looks at the response of excluded elites such as the military as well as interested parties such as Taiwan and Tibet He explains how democracy in China will be very Chinese even as it will also embody fundamental universal liberal features He deals with competing interests regional sectoral and class of China s economy and society under democracy addressing the pressing concerns of world business Finally he considers the implications for Asia as well as for the United States

The Oxford Illustrated History of Modern China Jeffrey N. Wasserstrom, 2016-06-16 This lavishly illustrated volume explores the history of China during a period of dramatic shifts and surprising transformations from the founding of the Qing Dynasty 1644 1912 through to the present day The Oxford Illustrated History of Modern China promises to be essential reading for anyone who wants to understand this rising superpower on the verge of what promises to be the Chinese century introducing readers to important but often overlooked events in China s past such as the bloody Taiping Civil War 1850 1864 which had a death toll far higher than the roughly contemporaneous American Civil War It also helps readers see more familiar landmarks in Chinese history in new ways such as the Opium War 1839 1842 the Boxer Uprising of 1900 the rise to power of the Chinese Communist Party in 1949 and the Tiananmen protests and Beijing Massacre of 1989 This is one of the first major efforts and in many ways the most ambitious to date to come to terms with the broad sweep of

modern Chinese history taking readers from the origins of modern China right up through the dramatic events of the last few years the Beijing Games the financial crisis and China's rise to global economic pre-eminence which have so fundamentally altered Western views of China and China's place in the world Faith, Finance, and Economy Tanweer Akram, Salim Rashid, 2020-03-10 This open access book seeks to foster a multidisciplinary understanding of the ties between faith financial intermediation and economic progress by drawing on research across economics finance history philosophy ethics theology public policy law and other disciplines Chapters in this edited volume examine themes as consequential as economic opportunities real world outcomes and faith values and consumerism faith financial intermediation and economic development in Western and Islamic societies and the impact of faith issues on US workers on the workplace and religion and on the characteristics of good wealth Though engaging with difficult questions this book is written in an accessible style to be enjoyed by laypeople and scholars alike **Love and Romance in China** Pan Wang, 2025-09-04 Love and Romance in China examines love affection and emotions in China from Maoist to contemporary China focusing on the intersections with politics economics gender class race and technology From the founding of the People's Republic of China to the end of the Cultural Revolution political ideology and class struggle dominated everyday life and love was subordinated to the communist revolution and socialism During the Cultural Revolution this turbulent period witnessed the paradoxical existence of self-abstinence and self-indulgence Since China changed its political ideology in 1979 and shifted to a market oriented economy the country embraced the idea of romantic love This emotional turn fostered opportunities for diverse intimate relationships characterized by the growth of cross cultural love LGBTQI love and the emergence of a sexual revolution Zhang 2011 Jeffreys and Yu 2015 The new dynamic was linked to contested discourses of fantasised eroticized and racialized foreign love intertwined with nationalist sentiments and ongoing tensions between sexual minorities and the government The new millennium has witnessed love crises characterised by growing concerns about leftover men and women high divorce rates declining marriage and birth rates and other relationship problems The deepening of the market economy and technological advances have turned love into a fast food commodity for mass consumption manifested in dating shows digital platforms and intimacy between humans and AI dolls Wang draws on a wide range of texts including government statistics on marriages and divorces legal documents Maoist folk songs poems posters love letters media texts popular discourses online dating websites and ethnographic observations and interviews **Revolution in the Making of the Modern World** John Foran, David Lane, Andreja Zivkovic, 2007-11-05 Featuring contributions from leading thinkers on revolution it combines theoretical concerns with case studies of individual revolutions to question whether ideas of revolution are still relevant in the postmodern and globalized world of the twenty first century *Privatizing the Land* Ivan Szelenyi, 2002-09-11 Privatizing the Land provides an overview of reforms in the state socialist agrarian systems especially during the 1970s and 1980s in Eastern Europe and the Soviet Union Using empirical evidence the contributors provide a balanced assessment of how

agrarian economies performed in different communist countries The Soviet and Eastern European experience is contrasted with reforms in China Vietnam and Cuba to provide the first comprehensive account of agricultural restructuring after the collapse of communism in Europe and Asia *The History of the People's Republic of China, 1949-1976* Julia Strauss,2007-06-11 Examines the People s Republic of China between 1949 and 1976 from an explicitly historical perspective

The Oxford History of Modern China Jeffrey N. Wasserstrom,2022-01-27 excellent LSE Review of Books China is the world s most populous country and newest superpower whose place on the international stage can only be understood through the lens of its modern history The Oxford History of Modern China is essential reading for anyone who wants to understand this rising power in what promises to be the Chinese century Covering the period of dramatic shifts and surprising transformations which comprise China s modern history the book spans from the founding of the Qing Dynasty 1644 1912 to the present day It introduces readers to important but often overlooked events in China s past such as the bloody Taiping Civil War 1850 1864 and also sheds new light on more familiar landmarks in Chinese history such as the Opium War 1839 1842 the Boxer Uprising of 1900 the rise to power of the Chinese Communist Party in 1949 the Tiananmen protests and Beijing Massacre of 1989 and China s rise to economic superpower status in the 21st century A new chapter for this edition brings the story into the era of Xi Jinping **The San Francisco System and Its Legacies** Kimie Hara,2014-11-20 In September 1951 Japan signed a peace treaty with forty eight countries in San Francisco in April 1952 the treaty came into effect The San Francisco Peace Treaty is an international agreement that in significant ways shaped the post World War II international order in the Asia Pacific With its associated security arrangements it laid the foundation for the regional structure of Cold War confrontation the San Francisco System fully reflected the strategic interests and policy priorities of the peace conference s host nation the United States The treaty fell far short of settling outstanding issues in the wake of the Pacific War or facilitating a clean start for the post war period Rather critical aspects of the settlement were left equivocal and continue to have significant and worrisome implications for regional international relations This book examines the key developments of the contentious political and security issues in the Asia Pacific that share a common foundation in the post war disposition of Japan particularly the San Francisco Peace Treaty These include both tangible and intangible issues such as disputes over territories and history problems Taking the San Francisco System as its conceptual grounding the authors examine how these issues developed and have remained contentious long after the San Francisco arrangements To provide bases for producing solutions the chapters offer comprehensive accounts that explain and deepen our understanding of these complex regional issues and the San Francisco System as a whole By closely and systematically examining the legacy and various ramifications of the San Francisco System this fascinating book adds to our understanding of current and growing tensions in the region As such it will be of great interest to students and scholars of Asian studies history international relations and politics
