Revolution And Tradition In Tientsin 1949 1952:

Revolution and Tradition in Tientsin, 1949-1952 Kenneth Lieberthal, 1980 A Stanford University Press classic *Kenneth G. Lieberthal. Revolution and tradition in Tientsin, 1949-1952* Kenneth Lieberthal, 1980 **New Perspectives on State Socialism in China** Timothy Cheek, Tony Saich, 2016-12-05 Placing Chinese Community Party history in the realm of social history and comparative politics this text studies the roots of the policy failures of the late Maoist period and the tenacity of the CCP **Challenging the Mandate of Heaven** Elizabeth J. Perry, 2015-05-20 Social science theories of contentious politics have been based almost exclusively on evidence drawn from the European and American experience and classic texts in the field make no mention of either the Chinese Communist revolution or the Cultural Revolution surely two of the most momentous social movements of the twentieth century Moreover China's record of popular upheaval stretches back well beyond this century indeed all the way back to the third century B C This book by bringing together studies of protest that span the imperial Republican and Communist eras introduces Chinese patterns and provides a forum to consider ways in which contentious politics in China might serve to reinforce refine or reshape theories derived from Western cases **Mao's China and After** Maurice Meisner, 1999-04 Presents a revised account of the revolution of 1966 1969 Examines the social and political consequences of the upheaval Deng Xiaoping Democracy movement Tiananmen Incident Mao Zedong The hundred flowers Great Leap Forward *Chinese Capitalisms* Kwok-bun Chan, Tak-sing Cheung, Agnes Ku, 2008-07-31 The annual is a venue of publication for sociological studies of Chinese societies and the Chinese all over the world The main focus is on social transformations in Hong Kong Taiwan the mainland Singapore and Chinese overseas *Workers at War* Joshua H. Howard, 2004-09-29 This book focuses on the lives struggles and contrasting perspectives of the 60 000 workers military administrators and technical staff employed in the largest most strategic industry of the Nationalist government the armaments industry based in the wartime capital Chongqing The author argues that China's arsenal workers participated in three interlocked conflicts between 1937 and 1953 a war of national liberation a civil war and a class war The work adds to the scholarship on the Chinese revolution which has previously focused primarily on rural China showing how workers alienation from the military officers directing the arsenals eroded the legitimacy of the Nationalist regime and how the Communists mobilized working class support in Chongqing Moreover in emphasizing the urban working class and nationalist components of the 1949 revolution the author demonstrates the multiple sources of workers identities and thus challenges previous studies that have exclusively stressed workers particularistic or regional identities *Afterlives of Chinese Communism* Christian Sorace, Ivan Franceschini, Nicholas Loubere, 2019-06-25 Afterlives of Chinese Communism comprises essays from over fifty world renowned scholars in the China field from various disciplines and continents It provides an indispensable guide for understanding how the Mao era continues to shape Chinese politics today Each chapter discusses a concept or practice from the Mao period what it attempted to do and what has become of it since The authors respond to the

legacy of Maoism from numerous perspectives to consider what lessons Chinese communism can offer today and whether there is a future for the egalitarian politics that it once promised **Perspectives on Modern China** Kenneth Lieberthal, Joyce Kallgren, Roderick MacFarquhar, Frederic Wakeman, 2016-09-16 The conveners the editors of this book of the September 1989 Four Anniversaries China Conference in Annapolis asked the contributors to look back from that point in time to consider four major events in modern Chinese history in the perspective of the rapid changes that were shaping the Chinese society economy polity and sense of place in the world in the 1980s a time when China was making rapid strides toward becoming more integrated with the outside world With contributions by distinguished scholars in the field the four anniversaries considered are the High Qing the May Fourth Movement forty years of communism in China and ten years of the Deng era **Land Bargains and Chinese Capitalism** Meg E. Rithmire, 2015-10-06 Land reforms have been critical to the development of Chinese capitalism over the last several decades yet land in China remains publicly owned This book explores the political logic of reforms to land ownership and control accounting for how land development and real estate have become synonymous with economic growth and prosperity in China Drawing on extensive fieldwork and archival research the book tracks land reforms and urban development at the national level and in three cities in a single Chinese region The study reveals that the initial liberalization of land was reversed after China's first contemporary real estate bubble in the early 1990s and that property rights arrangements at the local level varied widely according to different local strategies for economic prosperity and political stability In particular the author links fiscal relations and economic bases to property rights regimes finding that more open cities are subject to greater state control over land **The Modern Chinese State** David Shambaugh, 2000-05-08 Publisher Description **China: A Historical Geography of the Urban** Yunnan Ding, Maurizio Marinelli, Xiaohong Zhang, 2017-11-20 This book offers a unique contribution to the burgeoning field of Chinese historical geography Urban transformation in China constitutes both a domestic revolution and a world historical event Through the exploration of nine urban sites of momentous change over an extended period of time this book connects the past with the present and provides much needed literature on city growth and how they became complex laboratories of prosperity The first part of this book puts Chinese urban changes into historical perspective and probes the relationship between nation and city focusing on Shanghai Beijing and Changchun Part two deals with the relationship between history and modernity concentrating on Tunxi a traditional trade center of tea New Villages in Shanghai and street names in Taipei and Shanghai Part three showcases the complexities of urban regeneration vis vis heritage preservation in cities such as Datong Tianjin and Qingdao This book offers an innovative interdisciplinary and international perspective which will be of interest to students and scholars of Chinese urban studies as well Chinese politics and society **Individual Choice and State-Led Nationalist Mobilization in China** Wen Zha, 2015-05-11 This book presents a comparative historical analysis of state led nationalist movements in Chinese history which counters current claims that popular nationalism in present day

China is strong enough to sustain costly expansionist wars Popular nationalism in China has been on the rise since the early 1990s to the concern of many observers Some have even asked whether China will become another Germany A comparative historical analysis of pre war and wartime nationalist mobilization helps us better understand how individuals formulate their opinions under extreme conditions It concludes that the public s weak perception of foreign threats taken together with pro minority domestic institutions may significantly undermine the state s efforts at nationalist mobilization and thus limit its capability to pursue external expansion or other strategic goals

Precarious Ties Meg Rithmire, 2023 Developing Asia has been the site of some of the last century s fastest growing economies as well as some of the world s most durable authoritarian regimes Many accounts of rapid growth alongside monopolies on political power have focused on crony relationships between the state and business But these relationships have not always been smooth as anti corruption campaigns financial and banking crises and dramatic bouts of liberalization and crackdown demonstrate Why do partnerships between political and business elites fall apart over time And why do some partnerships produce stable growth and others produce crisis or stagnation In *Precarious Ties* Meg Rithmire offers a novel account of the relationships between business and political elites in three authoritarian regimes in developing Asia Indonesia under Suharto s New Order Malaysia under the Barisan Nasional and China under the Chinese Communist Party All three regimes enjoyed periods of high growth and supposed alliances between autocrats and capitalists Over time however the relationships between capitalists and political elites changed and economic outcomes diverged While state business ties in Indonesia and China created dangerous dynamics like capital flight fraud and financial crisis Malaysia s state business ties contributed to economic stagnation To understand these developments Rithmire presents two conceptual models of state business relations that explain their genesis and why variation occurs over time She shows that mutual alignment occurs when an authoritarian regime organizes its institutions or even its informal practices to induce capitalists to invest in growth and development Mutual endangerment on the other hand obtains when economic and political elites are entangled in corrupt dealings and invested in perpetuating each other s dominance The loss of power on one side would bring about the demise of the other Rithmire contends that the main factors explaining why one pattern dominates over the other are trust between business and political elites determined during regime formation and the dynamics of financial liberalization Empirically rich and sweeping in scope *Precarious Ties* offers lessons for all nations in which the state and the private sector are deeply entwined
