The product of 35 senior scholars research these volumes examine the psychology driving the religious political and economic forces that cause turbulence and violence in human society Religious political and economic revolts have defined the human experience throughout history These kinds of universal turbulence continue to be the dominate source of human suffering and perplexity during the first decade of the 21st century What can intensive study of the psychodynamics of cultural and social eruptions tell us that may serve to move cultures around the world beyond ongoing strife This work seeks to find out examining the spectrum of cultural and social eruptions from ancient Jewish Christian and Muslim revolutions to the modern day economic and political turbulence in Eastern Europe the Near East and Latin America The breadth of this three volume set ranges from the 12th century BCE to the current struggles in Iraq Afghanistan and Syria and from the irrational violence of the French Revolution to the genuine quest for liberty of the American Revolution and the Singing Revolutions in the Baltic States in recent decades Each volume is introduced with a description of its philosophical perspective and concludes with a brief summarization of the takeaways of the research presented

Revolution, a Sociological Interpretation Michael S. Kimmel, 1990 Examines why the study of revolution has attained such importance and provides a systematic historical analysis of key ideas and theories The book surveys the classical perspectives on revolution offered by nineteenth century and early twentieth century theorists such as Marx Weber Durkheim Tocqueville and Freud Kimmel argues that their perspectives on revolution were affected by the reality of living through the revolutions of 1848 1917 a relaity that raised curcial issues of class state bureaucracy and motivation back cover

Revolutions as Organizational Change Baohui Zhan, 2015-09-01 By comparing peasant revolutions in Hunan and Jiangxi between 1926 and 1934 *Revolutions as Organizational Change* offers a new organizational perspective on peasant revolutions Utilizing newly available historical materials in the People s Republic of China in the reform era it challenges the established view that the great Chinese revolution of the twentieth century was a revolution made by the Chinese Communist Party the CCP The book begins with a puzzle presented by the two peasant revolutions While outside mobilization by the CCP was largely absent in Hunan peasant revolutionary behaviors were spontaneous and radical In Jiangxi however despite intense mobilization by the CCP peasants remained passive and conservative This study seeks to resolve the puzzle by examining the roles of communal cooperative institutions in the making of peasant revolutions Historically peasant communities in many parts of the world were regulated

by powerful cooperative institutions to confront environmental challenges This book argues that different communal organizational principles affect peasants perceptions of the legitimacy of their communal orders Agrarian rebellions can be caused by peasants attempts to restructure unjust and illegitimate communal organizational orders while legitimate communal organizational orders can powerfully constrain the mobilization by outside revolutionary agents such as the CCP In this thorough comparative account of the peasant risings in Hunan and Jiangxi and the role of the Communist Party Professor Zhang casts new light on both the risings themselves and what they can tell us about peasant risings in general This work is strong in both theory and detailed historical research Richard Rigby professor China Institute Australian National University Professor Zhang has beautifully crafted a comparative study of divergent peasant revolutions in two Chinese regions during Mao s long revolutionary war He brings to this task a broad and deep knowledge about revolutionary theory and also a razor like analytical sensibility which enables him to examine the pros and cons of existing perspectives Timothy P Wickham Crowley associate professor of sociology Georgetown University Scientific and Technical Aerospace Reports ,1995 **The Industrial Policy Revolution II** J. Messianism and Sociopolitical Revolution in Medieval Islam Said Amir Arjomand,2025-10-28 This study of messianism and revolution examines an extremely rich though unexplored historical record on the rise of Islam and its sociopolitical revolutions from Muhammad s constitutive revolution in Arabia to the Abbasid revolution in the East and the Fatimid and Almohad revolutions in North Africa and the Maghreb Bringing the revolutions together in a comprehensive framework Sa d Amir Arjomand uses sociological theory as well as the critical tools of modern historiography to argue that a volatile but recurring combination of apocalyptic motivation and revolutionary action was a driving force of historical change time and again In addition to tracing these threads throughout 500 years of history Arjomand also establishes how messianic beliefs were rooted in the earlier Judaic and Manichaeian notions of apocalyptic transformation of the world By bringing to light these linkages and factors not found in the dominant sources this text offers a sweeping account of the long arc of Islamic history NASA Scientific and Technical Reports United States. Portugal far exceeded those of other developed countries and their examination provides insights poses important questions and suggests unexpected answers relevant far beyond Portugal The Portuguese revolution provides a unique window through which to examine not only the role of community organizations in a time of revolutionary change but also the dynamics potential and limitations of majority participation Over a period of nineteen months beginning with a military coup which ended the longest lasting European dictatorship the period brought to a close 500 years of colonialism in Africa and ending with another military coup the Portuguese society and political debate were significantly transformed largely by the unanticipated development of mass movements advocating direct democracy and social economic and political change

Revolution in Iran Mehran Kamrava, 2016-11-10 Observers of Iran have often ascribed the main cause of the revolution to economic problems under the Shah's regime This book first published in 1990 on the other hand focuses on the political and social factors which contributed of the Pahlavi dynasty Mehran Kamrava looks at the revolution in detail as a political phenomenon making use of extensive interviews with former revolutionary leaders cabinet ministers and diplomats to show the central role of the political collapse of the regime in bringing about the revolution He concentrates on the internal and the international developments leading to this collapse and the social environment in which the revolution's leaders emerged

Greene, Flurin Condrau, Elizabeth Siegel Watkins, 2016-11-23 When asked to compare the practice of medicine today to that of a hundred years ago most people will respond with a story of therapeutic revolution back then we had few effective remedies now we have more and more powerful tools to fight disease In this version of history medicine was made modern and effectual by medicines The aim of *Therapeutic Revolutions* is to challenge the linearity of this historical narrative provide a thicker explanation of the process of therapeutic transformation and explore the complex relationships between medicines and social change Working on three continents and touching upon the lived experiences of patients and physicians consumers and providers marketers and regulators the contributors to this volume together reveal the tensions between universal claims of therapeutic knowledge and the specificity of local sites in which they are put into practice asking collectively what is revolutionary about therapeutics
