Singh, 2005 This outstanding new text provides a clear understanding of how the ideal long term care facility should operate and how prospective as well as currently employed nursing home administrators can hone their skills to deliver quality services cost effectively Effective Management of Long Term Care Facilities Douglas Singh, 2010-02-18 *Effective Management of Long Term Care Facilities* explores the complex operations of the long term care facility and offers critical skills to current and future nursing home administrators for delivering quality cost effective services The Second Edition has been thoroughly revised and reorganized to offer a more cohesive presentation of the material New chapters that have been added cover the long term care industry long term care policy and supportive case studies that incorporate management and patient care issues **Ethical Patient Care** Mathy D. Fulmer, 2003-04-29 The delivery of good medical care often involves professionals from various disciplines working together Interdisciplinary health care teams can be especially valuable in managing patients with complex medical and social needs such as older persons in hospital community or home settings Such teams however can also complicate or even create problems because of their diverse views and responsibilities *Ethical Patient Care A Casebook for Geriatric Health Care Teams* is designed to teach effective and responsible group decision making to clinicians working in teams to treat older patients The editors use the case study method to present ethical dilemmas that team members encounter in the management of geriatric patients Patients with multiple chronic conditions so often require the care of more than one medical specialist and in the introductory chapters the editors suggest ways to resolve conflicts among patients health care professionals and the institutions that support them including hospitals HMOs insurance companies and the government The book is then divided into four sections each dealing with one angle of the team care picture The first section treats the diverse ethical imperatives of various professionals conflicts among disciplinary approaches and and varying attitudes toward end of life decision making Section two focuses on the patient and covers patient confidentiality family decisionmaking and interaction with the healthcare team issues of patient and team nonadherence to the care plan and elder abuse and neglect Section three examines the emerging difficulties of decentralized health care in settings such as hospitals nursing homes and the home including clinician accountability and how ethical dilemmas differ across settings Section four discusses the problems arising from the increasing responsibility of clinicians to manage costs and serve the interests of hospitals and

Health Care Financing Review ,1997 *Autonomy & Paternalism* Thomas Nys,Yvonne Denier,Toon Vandeveld,2007 In recent years the triumph of autonomy has made paternalist interventions increasingly problematic The value of a patient's right to self determination and the practice of informed consent are considered supremely important in present day health care ethics In general the idea of doctor knows best has become more and more suspicious This has left us with a situation in which paternalist medicine seems difficult to reconcile with respect for patient autonomy This book offers a thorough reflection on the relationship between autonomy and paternalism and argues that from both theoretical and practical angles the tension between these concepts is not as acute as it might seem In long term care psychiatry and care for the severely handicapped the principle of respect for autonomy is particularly ill suited This however does not mean that such respect is totally irrelevant but that it should take a different shape Good care in those cases requires us to transcend the sharp dichotomy between autonomy and paternalism In *Autonomy and Paternalism Reflections on the Theory and Practice of Health Care* various acclaimed authors present their views on this interesting and extremely relevant debate **The Cambridge Handbook of Age and Ageing** Malcolm L.
