The Long Ships Passing Walter Havighurst,1975 *The Long Ships Passing* Walter Havighurst,1942 The Great Lakes are unique in the geography of the earth and they have a singularly dramatic story For three hundred years the sounds of travel have echoed along their shores from the voyageurs songs and the schooners signal cannon to the deep voiced steamers of today From seas of legend and wilderness waterways they have become one of the great trade routes of the world The Long Ship Passing tells that story Book Jacket The Great Lakes United States. Lauck,Gleaves Whitney,2023-05-04 Travel north from the upper Midwest s metropolises and before long you re Up North a region that s hard to define but unmistakable to any resident or tourist Crops give way to forests mines or their remains mark the landscape and lakes multiply becoming ever clearer until you reach the vastness of the Great Lakes How to characterize this region as distinct from the agrarian Midwest is the question North Country seeks to answer as a congenial group of

scholars journalists and public intellectuals explores the distinctive landscape culture and history that define the northern margins of the American Midwest From the glacial past to the present day these essays range across the histories of the Dakota and Ojibwe people colonial imperial rivalries and immigration and conflicts between the economic imperatives of resource extraction and the stewardship of nature The book also considers literary treatments of the area and arguably makes its own contributions to that literature as some of the authors search for the North Country through personal essays while others highlight individuals who are identified with the area like Sigurd Olson John Barlow Martin and Russell Kirk From the fur trade to tourism fisheries to supper clubs Finnish settlers to Native treaty rights the nature of the North Country emerges here in all its variety and particularity as clearly distinct from the greater Midwest as it is part of the American heartland

Ashes Under Water Michael McCarthy, 2014-10-07 The untold story of the worst disaster on the Great Lakes in U S History On July 24th 1915 Chicago commuters were horrified as they watched the SS Eastland a tourism boat taking passengers across Lake Michigan flip over while tied to the dock and drown 835 passengers including 21 entire families Rockefeller Morgan and Carnegie had bought into the ship business in the Midwest creating a boom market and a demand for ships that were bigger longer faster The pressure filled and greedy climate that resulted would be directly responsible for the Eastland disaster and others As dramatic as the disaster was the subsequent trial was even more so The public demanded justice When the immigrant engineer who was being scapegoated for the accident was left out to dry by the ship s owners penniless and down on his luck Clarence Darrow decided to take his case The defense he mounted which he was too ashamed to even mention in his memoirs would be even more shocking **Wisconsin Library Bulletin** ,1941
