Davison,1987 Text and illustrations describe daily life inside a medieval castle and how the castle was designed as a fortress to keep out invaders **The Churchman** ,1877 Catalogue of Drawings by British Artists and Artists of Foreign Origin Working in Great Britain ...: S-Z British Museum. Department of Prints and Drawings,Laurence Binyon,1907 *Der Werwolf: The Annals of Veight Volume 5* Hyougetsu,2019-08-27 Having thwarted Rolmund s initial invasion Veight must now unite Meraldia s north and south forging a new alliance between the region s seventeen cities But turning the Meraldian Federation into the Meraldian Commonwealth isn t the only task he has to contend with Now that he s taken an imperial princess captive he intends to put her on Rolmund s throne in order to prevent any further incursions from the ancient empire *Among the Gnomes: An Occult Tale of Adventure in the Untersberg* Franz Hartmann,2011-01-01 WHO has ever occupied himself seriously with the investigation of the night side of Nature or studied the works of Theophrastus Paracelsus and not become acquainted with the celebrated Untersberg the mountain of the lower world and its mysterious inhabitants the fairies and gnomes Like a gigantic outpost of the Austrian Alps this snow capped wing of the mountains stands on the frontier of Germany overlooking the Bavarian plains dotted with hills forests and lakes Its summit dwelling above the clouds dominates the valley through which the Salzach river winds its way to the Inn and the Danube Seen from the north side where the city of Salzburg is nestled among the hills the mountain looks tame enough rising in undulating forest covered lines up to a height of some seven thousand feet but on the south side it exhibits an almost endless variety of perpendicular walls formed of marble rocks thousands of feet high and interrupted by deep ravines and chasms craggy cliffs spurs and precipices over which in the time of spring when the snow begins to melt great avalanches come thundering down and a sharp eye may detect in many an inaccessible spot mysterious caves that seem to penetrate into the bowels of that mysterious mountain If you will take the trouble of climbing up to these dizzy heights you will find yourself in a new world for there the Untersberg appears not as one single mountain but as a mountain chain of which each separate link has its special aspect and character being separated from its neighbour by deep chasms through which the mountain streams rush There is no end of waterfalls caves and labyrinths of boulders where the inexperienced wanderer may lose his way especially if he is misled by the gnomes which may easily occur if his intentions are not pure The Untersberg is known to be inhabited by certain kinds of elemental spirits of Nature some of which are good and benevolent others of a wicked and malicious nature and inimical to mankind and there are innumerable tales circulating among the people in the neighbourhood telling about the doings of the gnomes fairies wild women and giants dwelling within caves and in gorgeous marble halls and grottoes filled with gold and precious stones that will turn into dead leaves and stones when seen in the light of day Some of the friendly tribes come out of the Untersberg on

certain occasions and they are said to have sometimes associated with the inhabitants of our plane of existence partaking in the dances and amusements of the peasants and even taking stray children with them into the Untersberg and incredible as it may appear it is even asserted by those who know that marriages have taken place between citizens of our world and the inhabitants of the kingdom of gnomes and that these spirits of Nature being themselves not immortal seek to obtain immortality by their union with immortal man The majority of the gnomes therefore also love plain truthful and unsophisticated human beings such as possess a soul in which the light of the immortal spirit may be perceived and with these they are ready to associate but with soulless beings such as sophisticated sceptical arrogant short sighted and opinionated scientists whose hearts are dead and whose brains are swollen with the products of their own fancy they will have nothing to do to such they never show themselves but love to play tricks upon them whenever they come with a view of invading their kingdom

In Unfamiliar England Thos. D. Murphy,2021-05-18 In In Unfamiliar England Thos D

Murphy masterfully intertwines vivid narrative prose with insightful observations crafting a travelogue that transcends mere description. Set against the backdrop of post-Victorian England, this work embraces both the beauty and the complexities of the English landscape, exploring its culture, traditions, and the often overlooked narratives of its people. Murphy's lyrical style and keen eye for detail invite readers to engage with an England that often remains shrouded in the mists of time, blending personal reflection with historical context to create a richly textured narrative. Thomas D. Murphy, a keen observer of societal nuances, drew upon his extensive travels and scholarly pursuits to write this engaging account. His deep interest in the cultural and historical tapestry of England reflects a lifelong fascination with the stories that shape places and people. Having experienced the shifts in English society firsthand, Murphy brings an authentic voice to his observations, making them resonate with modern readers while grounded in the past. For those seeking a compelling exploration of England through the eyes of an insightful traveler, *Unfamiliar England* is a must-read. This book not only captivates with its vivid descriptions but also provokes introspection about one's own relationship with place and identity, making it a significant contribution to both literary and cultural discourse.
