The Wife, and Other Stories Anton Pavlovich Chekhov, 2022-11-21 In *The Wife and Other*

Stories Anton Pavlovich Chekhov masterfully crafts a collection of narratives that explore the complexities of human relationships and the poignant subtleties of everyday life. These stories are marked by Chekhov's hallmark realism, characterized by nuanced character development and a focus on the psychological undercurrents of seemingly mundane circumstances. The collection delves into themes of love, disillusionment, and the existential anguish that permeates the human condition, all conveyed through a concise yet evocative literary style that reflects the social and cultural milieu of late 19th-century Russia. Chekhov, a prominent figure in the world of literature, was trained as a physician, which cultivated his acute observation of human behavior and emotions. His experiences working in the medical field offered him unique insights into the struggles of the human psyche, shaping his approach to storytelling. The confluence of his medical background and his literary ambitions endowed him with a distinctive voice that captured the intricacies of life, thereby reinforcing his significance within the literary canon as a precursor to modern psychological fiction. *The Wife and Other Stories* is a compelling read that invites readers to ponder the depths of their own relationships and the nature of existence. Chekhov's innovations in narrative form and his deep empathy for his characters render this collection not only a profound literary experience but also an essential examination of the human soul. It is a must-read for anyone eager to explore the intricacies of life through the lens of one of literature's greatest masters.

The Gabble - And Other Stories Neal Asher, 2008-11-07 An extraordinary collection from the architect of the Polity universe. Neal Asher's *The Gabble And Other Short Stories* reveals a universe of unbridled imagination, and each one is a delight in itself. And in this collection of thirteen marvellously inventive and action-packed short stories, Asher is on top form. You can expect conflicted humans, fiendishly clever plot twists, extraordinary technologies, and so much more. The discerning reader can also savour tales of alien poisons, the walking dead, the Sea of Death, and the putrefactor symbiont. No one does weird, wonderful, and downright gruesome aliens better than Neal Asher, so prepare to visit his favourites. Sample the lifestyles of creatures such as the gabbleduck and the hooder, as Asher takes you on a wild ride into his vividly imagined futures.

The Female Body in the Looking-Glass Basia Sliwinska, 2016-06-29 In his theory of the mirror stage, the psychoanalyst and psychiatrist Jacques Lacan argued that the female body is defined by its lack of male attributes. Within this framework, he described female sexuality primarily as an absence and assumed female subordination to the male gaze. However, what happens if one follows Jean Baudrillard's advice to swallow the mirror and go through the looking glass to explore the reflections and realities that we encounter in the cultural mirror, which reflects the culture in question, its norms, ideals, and values? What if the beautiful is inverted and becomes ugly, and the ugly is considered beautiful, or shape shifts into something conventionally thought of as beautiful? These are the fundamental questions that Basia Sliwinska poses in this important new enquiry into gender identity and the politics of vision in contemporary women's art. Through an innovative discussion of the mirror as a metaphor, Sliwinska reveals how

the post 1989 practices of woman artists from both sides of the former Iron Curtain such as Joanna Rajkowska Marina Abramovic Boryana Rossa Natalia LL and Anetta Mona Chisa and Lucia Tkacova go beyond gender binaries and instead embrace otherness and difference by playing with visual tropes of femininity Their provocative works offer alternative representations of the female body to those seen in the cultural mirror Their art challenges and deconstructs patriarchal representations of the social and cultural other associated with visual tropes of femininity such as Alice in Wonderland Venus and Medusa The Female Body in the Looking Glass makes a refreshing radical intervention into art theory and cultural studies by offering new theoretical concepts such as the mirror and genderland inspired by Alice s adventures in Wonderland as critical tools with which we can analyse and explain recent developments in women s art Instruments of Darkness, and Other Stories Alice Duer Miller,1925 **Lowering One's Self Before Fate, and Other Stories** J. things from their German friends that she was unaware of when he was alive During her struggle to come to terms with her present life Helen sees that the terrible demands on Peter's life are almost impossible to endure Other stories in the book show the toll of war as fear is passed from one generation to another and we see how the power of secrecy never disappears They also reveal how gratitude can take various forms and how intergenerational friendships really are all they're cracked up to be The Writing on the Wall and Other Stories is a collection of tales spanning the 1980s to the present day that will appeal to fans of Anne Tyler Alan Bennett and Alice Munro whom Penny Edwards takes inspiration from *Looking Into the Lives of Children* Edith W. King, 1999 Eleanor Roosevelt once described Edith King as a world-minded woman In LOOKING INTO THE LIVES OF CHILDREN A WORLDWIDE VIEW Edith King maintains this tradition which has guided her observation research writing and university teaching Taking as her central theme the wide ranging diversity and cultural pluralism which she sees as one of the key features of postmodern nations she looks at the ways in which education should be delivered to young children ages four to ten years in the complex and diverse contemporary society in which they grow up Her ultimate goal is that her writing will help teachers around the world to develop teaching strategies that acknowledge our human diversity within an overall context of equality and peacefulness
