Peret,2022-07-07 The digitalization of companies is a recurrent topic of conversation for managers Companies are forced to
evolve at least as fast as their competitors They have to review their organization their processes and their way of working
This also concerns auditors in terms of their audit strategy and working methods Digitalization is the tip of the iceberg that
represents the increasing reliance on information technology of the company s information system Companies have seen new
competitors succeed with a digital approach competitors that have opened new markets or new ways of interacting with their
customers and all business processes can be digitalized In this new paradigm auditors have to renew themselves too Long
gone are the days of auditors specializing in one technique like financial auditors or IT auditors This makes it a phenomenal
opportunity for auditing to renew itself embracing the vision of the company s information system long live the information
system auditors This book proposes you to go step by step from a common understanding of our history of auditing to
gradually defining and justifying the impacts of digitalization on the audit strategy and the preparation of audits **The
