Photography as Fiction Erin C. Garcia, 2010 From as early as 1839 artists began exploring photography's enormous potential for storytelling and often went to great lengths to create pictures for the camera Here a short introductory essay summarizes the history of staged photography highlighting key debates on the medium's blunt factuality and its capacity for deception

Women Artists at the Millennium Carol Armstrong, Catherine De Zegher, 2011-02-25 Artists art historians and critics look at the legacies of feminism and critical theory in the work of women artists more than thirty years after the beginning of the modern women's movement and Linda Nochlin's landmark essay Why Have There Been No Great Women Artists More than thirty years after the birth of the modern women's movement and the beginnings of feminist art making and art history the time is ripe to examine the legacies of those revolutions In *Women Artists at the Millennium* artists art historians and critics examine the differences that feminist art practice and critical theory have made in late twentieth century art and the discourses surrounding it In 1971 when Linda Nochlin published her essay Why Have There Been No Great Women Artists in a special issue of *Art News* there were no women's studies no feminist theory no such thing as feminist art criticism there was instead a focus on the mythic figure of the great male artist through history Since then the woman artist has not simply been assimilated into the canon of greatness but has expanded art making into a multiplicity of practices with new parameters and perspectives In *Women Artists at the Millennium* artists including Martha Rosler and Yvonne Rainer reflect upon their own varied practices and art historians discuss the innovative work of such figures as Louise Bourgeois Lygia Clark Mona Hatoum and Carrie Mae Weems And Linda Nochlin considers changes since her

Photography and Germany Andrés Mario Zervigón,2017-05-15 The idea of photography in Germany evokes everything from the pioneering modernist pictures of the Weimar era to the colossal digital prints that define art photography today But it also recalls horrifying documents of wartime atrocities and the relentless surveillance of East German citizens Photography and Germany broadens these perceptions by examining the medium s multifaceted relationship with Germany s turbulent cultural political and social history while rethinking the notion of German photography with fresh insights on its historical context Andr s Mario Zervig n covers this history from the region s pre photographic experiments with light sensitive chemicals to today s tension between analog and digital technologies Rather than simply providing a survey of German photography however he focuses on how the medium as a product of the modern age has intervened in a fraught project of national imagining often to productive ends but sometimes to catastrophic results Richly illustrated with numerous previously unpublished images Photography and Germany is the first single authored history of photography in Germany ever published one that deepens our broader understanding of how photography cultivates notions of a nation and its inhabitants

well as practitioners from any background wishing to understand the place of photography in global societies today *Van Gogh on Demand* Winnie Wong, 2014-03-24 Unsettles contemporary art's unspoken hierarchies and topples modernist and postmodernist assumptions about originality, authenticity and authorship *caa Reviews* In a metropolis in south China lies Dafen, an urban village that houses thousands of workers who paint van Goghs, Da Vincis, Warhols and other Western masterpieces for the world market, producing an astonishing five million paintings a year. Winnie Wong infiltrated this world, first investigating the work of conceptual artists, then working as a dealer, apprenticing as a painter, surveying wholesalers and retailers in Europe, East Asia and North America, establishing relationships with local leaders and organizing a conceptual art exhibition for the Shanghai World Expo. The result is *Van Gogh on Demand*, a fascinating book about a little known aspect of the global art world, one that sheds surprising light on the workings of art, artists and individual genius. Wong describes an art world in which migrant workers, propaganda makers, dealers and international artists make up a global supply chain of art. She examines how Berlin-based conceptual artist Christian Jankowski, who collaborated with Dafen's painters to reimagine the Dafen Art Museum, unwittingly appropriated the work of a Hong Kong-based photographer, Michael Wolf. She recounts how Liu Ding, a Beijing-based conceptual artist, asked Dafen assembly-line painters to perform at the Guangzhou Triennial, styling himself into a Dafen boss. Through such cases, Wong shows how Dafen's painters force us to reexamine our preconceptions about the role of Chinese workers in redefining global art. A fantastically detailed exploration of a topic which touches the heart of many of the issues surrounding China's economic rise. *South China Morning Post*

American Photo - ND, 2008-01 **Theories in Digital Composite Photographs** Yihui Huang, 2018-10-26 *Theories in Digital Composite Photographs* 12 Artists and Their Work presents a theoretical investigation of digital composite photographs through philosophical exploration of artists' concepts of reality. With an international cohort of contemporary digital composite artists, this book presents twelve case studies on artists' motivation, production process and the relation of their worldview to theoretical interpretation. Author Yihui Huang situates each artist's work in the context of photographic theory and western aesthetics, including realism, expressionism, formalism and postmodernism. As creation of digital composites grows in popularity and influence, this is the first to integrate a philosophical and theoretical understanding of this unique art form. Featuring a wide range of international artists, this volume is both insightful and inspirational for student and seasoned professional alike. Photography Trenton Hamilton, 2016-07-15 *Photography* is generally considered to have had its birth in 1839 when Louis Jacques Mandé Daguerre first revealed his photographic process to the public. Increasingly, cameras have become more automated and electronic over the years. In spite of the increasing sophistication of the equipment, however, the photographer's eye continues to be all important. *Photography* remains a unique human act. This compendium focuses on the technology of photography: the camera and its parts, types of lenses, shutters and speeds, films and filters, making photographs, exposing film, lighting, darkroom techniques and processing, printing photographs and some of

the practical applications of the medium *The Orphaned Anything's* Stephen Christian, 2008-02 After a failed suicide attempt Ayden Kosacov discovers that there is more to life than just being alive
