Los Angeles Downtown America:

Koreatown, Los Angeles Shelley Sang-Hee Lee, 2022-06-14 The story of how one ethnic neighborhood came to signify a shared Korean American identity At the turn of the twenty first century Los Angeles County s Korean population stood at about 186 000 the largest concentration of Koreans outside of Asia Most of this growth took place following the passage of the Hart Celler Act of 1965 which dramatically altered US immigration policy and ushered in a new era of mass immigration particularly from Asia and Latin America By the 1970s Korean immigrants were seeking to turn the area around Olympic Boulevard near downtown Los Angeles into a full fledged Koreatown and over the following decades they continued to build a community in LA As Korean immigrants seized the opportunity to purchase inexpensive commercial and residential property and transformed the area to serve their community s needs other minority communities in nearby South LA notably Black and Latino working class communities faced increasing segregation urban poverty and displacement Beginning with the early development of LA s Koreatown and culminating with the 1992 Los Angeles riots and their aftermath Shelley Sang Hee Lee demonstrates how Korean Americans lives were shaped by patterns of racial segregation and urban poverty and legacies of anti Asian racism and orientalism Koreatown Los Angeles tells the story of an American ethnic community often equated with socioeconomic achievement and assimilation but whose experiences as racial minorities and immigrant outsiders illuminate key economic and cultural developments in the United States since 1965 Lee argues that building Koreatown was an urgent objective for Korean immigrants and US born Koreans eager to carve out a spatial niche within Los Angeles to serve as an economic and social anchor for their growing community More than a dot on a map Koreatown holds profound emotional significance for Korean immigrants across the nation as a symbol of their shared bonds and place in American society *The New American Majority* , *The American Cities and Technology Reader* Gerrylynn K. Demolition Means Progress Andrew R. Highsmith, 2015-07-06 Tracks the fall of Flint Michigan once one of the nation's greatest industrial towns now one of its poorest cities compelling and powerful Kevin Boyle National Book Award winning author of Arc of Justice In 1997 after General Motors shuttered a massive complex of factories in the gritty industrial city of Flint Michigan signs were placed around the empty facility reading Demolition Means Progress suggesting that the struggling metropolis could not move forward to greatness until the old plants met the wrecking ball Much more than a trite corporate slogan the phrase encapsulates the operating ethos of the nation's metropolitan leadership from at least the 1930s

to the present Again and again the leaders of Flint and other municipalities tried to revitalize their communities by demolishing outdated and inefficient structures and institutions and overseeing numerous urban renewal campaigns many of which yielded only more impoverished and more divided metropolises After decades of these efforts the dawn of the twenty first century found Flint one of the most racially segregated and economically polarized metropolitan areas in the nation In one of the most comprehensive works yet written on the history of inequality and metropolitan development in modern America Andrew R Highsmith uses the case of Flint to explain how the perennial quest for urban renewal even more than white flight corporate abandonment and other forces contributed to mass suburbanization racial and economic division deindustrialization and political fragmentation Challenging much of the conventional wisdom about structural inequality and the roots of the nation s urban crisis *Demolition Means Progress* shows in vivid detail how public policies and programs designed to revitalize the Flint area ultimately led to the hardening of social divisions Brilliantly narrates the entire arc of 20th century American industrialization at the scale of a single city Flint Michigan and its suburbs a remarkable book Robert Self author of *American Babylon Race and the Struggle for Postwar Oakland* **California Healthy** Patricia Hamilton, Bruce Biron, Janel Willette, 2007 Appealing to the growing numbers of local residents and travellers concerned with finding delicious food that promotes a healthy body and a healthy environment this unique guidebook provides tempting and wholesome recommendations for every locale Sections on sustainable foods wine tasting agritourism recipes with wine pairings recreational areas off leash dog walks and healthy walking tips from an exercise physiologist round out the wealth of information Maps directions pricing information hours of operation and an extensive list of annual events are clearly laid out in an accessible format that is colour and icon coded **Building Downtown Los Angeles** Leland T. Saito, 2022-07-26 From the 1970s on Los Angeles was transformed into a center for entertainment consumption and commerce for the affluent Mirroring the urban development trend across the nation new construction led to the displacement of low income and working class racial minorities as city officials targeted these neighborhoods for demolition in order to spur economic growth and bring in affluent residents Responding to the displacement there emerged a coalition of unions community organizers and faith based groups advocating for policy change In *Building Downtown Los Angeles* Leland Saito traces these two parallel trends through specific construction projects and the backlash they provoked He uses these events to theorize the past and present processes of racial formation and the racialization of place drawing new insights on the relationships between race place and policy Saito brings to bear the importance of historical events on contemporary processes of gentrification and integrates the fluidity of racial categories into his analysis He explores these forces in action as buyers and entrepreneurs meet in the real estate marketplace carrying with them a fraught history of exclusion and vast disparities in wealth among racial groups *The Rebirth of the American City* United States. Congress. House. Committee on Banking, Currency and Housing, 1976 *American Aviation Daily* ,1954 *Banks & Branches Data Book, June 30, 1981: California,*

The 20th-Century American City Jon C. Teaford, 2016-09-11 An updated edition of the essential text from a respected urban historian *Annals of Iowa* Throughout the twentieth century the city was deemed a problematic space one that Americans urgently needed to improve Although cities from New York to Los Angeles served as grand monuments to wealth and enterprise they also reflected the social and economic fragmentation of the nation Race ethnicity and class splintered the metropolis both literally and figuratively thwarting efforts to create a harmonious whole The urban landscape revealed what was right and wrong with both the country and its citizens way of life In this thoroughly revised edition of his highly acclaimed book Jon C Teaford updates the story of urban America by expanding his discussion to cover the end of the twentieth century and the first years of the next millennium A new chapter on urban revival initiatives at the close of the century focuses on the fight over suburban sprawl as well as the mixed success of reimagining historic urban cores as hip new residential and cultural hubs The book also explores the effects of the late century immigration boom from Latin America and Asia which has complicated the metropolitan ethnic portrait Drawing on wide ranging primary and secondary sources Teaford describes the complex social political economic and physical development of US urban areas over the course of the long twentieth century Touching on aging central cities technoburbs and the ongoing conflict between inner city poverty and urban boosterism *The Twentieth Century American City* offers a broad accessible overview of America s persistent struggle for a better city **American Arcadia** Peter J.

Holliday, 2016-05-03 A vivid and engaging exploration of California s debt to the ancient world Discussing the influence of the classics on America is nothing new indeed classical antiquity could be considered second only to Christianity as a force in modeling America s national identity What has never been explored until now is how from the beginning Californians in particular chose to visually and culturally craft their new world using the rhetoric of classical antiquity Through a lively exploration of material culture literature and architecture *American Arcadia* offers a tour through California s development as a Mediterranean haven from the late nineteenth century to the present In its earliest days California was touted as the last opportunity for alienated Yankees to establish the refined gentleman farmer culture envisioned by Jefferson and build new cities free of the filth and corruption of those they left back East Through architecture and landscape design Californians fashioned an Arcadian setting evocative of ancient Greece and Rome Later as Arcadia gave way to urban sprawl entire city plans were drafted to conjure classical antiquity self styled villas dotted the hills and utopian communities began to shape the state s social atmosphere Art historian Peter J Holliday traces the classical influence primarily through the evidence of material culture yet the book emphasizes the stories and people famous and forgotten behind the works such as Florence Yoch the renowned landscape designer and set designer for *Gone with the Wind* and Sister Aimee Semple McPherson the most publicized Christian evangelist of her day whose sermons filled the Pantheon like Angelus Temple Telling stories from the creation of the famed aqueducts that turned the semi arid landscape to a cornucopia of almonds alfalfa and oranges to

the birth of the body sculpting movement American Arcadia offers readers a new way of seeing our past and ourselves

The Power of Place Dolores Hayden, 1997-02-24 Based on her extensive experience in the urban communities of Los Angeles historian and architect Dolores Hayden proposes new perspectives on gender race and ethnicity to broaden the practice of public history and public art enlarge urban preservation and reorient the writing of urban history to spatial struggles In the first part of *The Power of Place* Hayden outlines the elements of a social history of urban space to connect people's lives and livelihoods to the urban landscape as it changes over time She then explores how communities and professionals can tap the power of historic urban landscapes to nurture public memory The second part documents a decade of research and practice by *The Power of Place* a nonprofit organization Hayden founded in downtown Los Angeles Through public meetings walking tours artists's books and permanent public sculpture as well as architectural preservation teams of historians designers planners and artists worked together to understand preserve and commemorate urban landscape history as African American Latina and Asian American families have experienced it One project celebrates the urban homestead of Biddy Mason an African American ex slave and midwife active between 1856 and 1891 Another reinterprets the Embassy Theater where Rose Pesotta Luisa Moreno and Josefina Fierro de Bright organized Latina dressmakers and cannery workers in the 1930s and 1940s A third chapter tells the story of a historic district where Japanese American family businesses flourished from the 1890s to the 1940s Each project deals with bitter memories slavery repatriation internment but shows how citizens survived and persevered to build an urban life for themselves their families and their communities Drawing on many similar efforts around the United States from New York to Charleston Seattle to Cincinnati Hayden finds a broad new movement across urban preservation public history and public art to accept American diversity at the heart of the vernacular urban landscape She provides dozens of models for creative urban history projects in cities and towns across the country
