**Gender and Memory in the Postmillennial Novels of Almudena Grandes** Lorraine Ryan,2021-04-21 Almudena Grandes is one of Spain's foremost women's writers having sold over 11 million copies of her *Episodios de una guerra interminable* her six volume series that ranges from the Spanish Civil War to the democratic period the myriad prizes awarded to her 18 in total confirm her pre-eminence This book situates Grandes's novels within gendered philosophical and mnemonic theoretical concepts that illuminate hidden dimensions of her much-studied work Lorraine Ryan considers and expands on existing critical work on Grandes's oeuvre proposing new avenues of interpretation and understanding She seeks to debunk the arguments of those who portray Grandes as the proponent of a sectarian, eminently biased Republican memory by analysing the wide variety of gender and perpetrator memories that proliferate in her work The intersection of perpetrator memory with masculinity ecocriticism medical ethics and the child's perspectives confirms Grandes's nuanced engagement with Spanish memory culture Departing from a philosophical basis Ryan reconfigures the Republican victim in the novels as a vulnerable subject who attempts to flourish thus refuting the current critical opinion of the victim as overly empowered The new perspectives produced in this monograph do not aim to suggest that Grandes is an advocate of perpetrator memory rather it suggests that Grandes is committed to a more pluralistic idea of memory culture whereby her novels generate understanding of multiple victim perpetrator and gender memories an analysis that produces new and meaningful engagements with these novels Thus Ryan contends that Grandes's historical novels are infinitely more complex and nuanced than heretofore conceived **Decolonising Indigenous Rights** Adolfo de Oliveira,2008-10-27 Covering a wide range of issues relating to the topic this book examines the experiences and perceptions of indigenous peoples in the context of the national states and political systems that have been externally imposed and implemented upon them Fascinating and incisive

the text discusses a range of areas such as indigenous territories concepts of political autonomy and sovereignty that have been used to describe and constitute indigenous political projects Western notions of education in relation to indigenous societies educational practice the broad Western historical understanding of the relationship with indigenous societies and the adequacy of the legal notion of belief to depict Aboriginal religiosity Contributors to this volume include anthropologists jurists educators indigenous activists scholars and sociologists
