Los Textos Fundamentales Del Psicoanalisis:

Los textos fundamentales del psicoanálisis Sigmund Freud,1993 **Los textos fundamentales del psicoanálisis** Sigmund Freud,1993 Sigmund Freud es autor de una de las obras más fascinantes sobre el funcionamiento de la mente humana. Su libro "El psicoanálisis" ha influido de manera notable en el curso de las ideas en el siglo XX. La selección que realiza su hija Anna Freud ofrece lo esencial del pensamiento freudiano y abarca sus escritos fundamentales desde El significado de los sueños (1900) hasta El concepto de lo inconsciente (1938). **Sigmund Freud Anna Freud,1988 Los textos fundamentales del psicoanálisis** Sigmund Freud,1988 **Epistemología Del Psicoanálisis** Alfonso Herrera,2013-11-01 Freud forjó dos conceptos: psicoanálisis y metapsicología para nombrar una y la misma entidad de conocimiento. El psicoanálisis le da especificidad a la metapsicología en la valoración de su incidencia clínica, verificando sus principios metodológicos, su rango de competencia y los límites de su campo explicativo. A contrapelo, la metapsicología define el espectro categorial del psicoanálisis al especificar sus postulados y las relaciones lógicas o cronológicas que rigen sus enunciados. En respuesta al descrédito de orden epistémico que las disciplinas oficiales dispensan al corpus freudiano, el presente trabajo sostiene que es posible fundamentar la noción de una epistemología del psicoanálisis. **Investigar en ciencias humanas: retos y perspectivas**, 2002 **Psicoanálisis, psicopatología y sociedad** María Isabel Durango,2024-12-07 Lacan verdadero arte del retorno a Freud no denuncia la contención social de las pulsiones y de una manera general lo que obstruye el acceso al goce al contrario insiste en la importancia de la ley y de lo prohibido. Lo que es más ilustrativo que el mismo Freud con la segunda tipica y el segundo dualismo pulsional se inclina cada vez más a pensar que no es la contención social de las pulsiones lo que engendra la represión sino que al contrario es la represión lo que es primero. Así la familia y la sociedad en tanto creaciones se edifican a partir de la represión y no de los avatares de la contención social. La glotonería con la que Freud designa al superestructural no es un efecto de la civilización sino un malestar sentado en la civilización. J. Lacan Televisión 1973. Esto no sólo abre la perspectiva sino que también proporciona un marco al presente trabajo que reúne textos de autores ecuatorianos y franceses. **Teoría de la literatura** José Domínguez Caparrós,2002-06-28 Este manual se organiza en dos grandes partes: una sistemática que a su vez se divide en otras. En la primera se trata de la definición de la literatura y de las disciplinas que la tienen como objeto de estudio, y en la otra se hace una presentación de las cuestiones referidas a los géneros literarios. La segunda parte trata de la historia de la teoría del siglo XX, organizada en tres bloques: formalismos, estética y teorías de la lengua literaria corrientes que van más allá del texto. **Crítica, psicoanálisis y emancipación** Pachón Soto, Damián,2016-02-22 El texto analiza la represión individual y social como fundamento de la civilización y explora cómo a partir de un mayor grado de automatización de la producción se hace posible eliminar la represión excedente, posibilitando que la existencia del hombre sea organizada por la gratificación vital. Finalmente se analiza el problema del sujeto político: la sociedad del tiempo libre y la liberación de la naturaleza como propuestas emancipadoras. Así la presente obra muestra que un
