Angeles has come to define both the material and spiritual force of American civilization The American dream is realized experienced and lost in the City of Angels *Unmasking L A Third Worlds* and the City an interdisciplinary collection of essays dialogues and photographs seeks to reveal the third world geographies cultures and populations of Los Angeles It examines the social political cultural and literary climate of the city bringing together diverse responses to the complexities facing Los Angeles from respected intellectuals writers and artists such as Mike Davis Deepak Chopra and Gayatri Chakravorty Spivak By uncovering the forces that marginalize Los Angeles s ever shifting populations into internal third worlds the collection unmasks the raw contradictions the grim paradoxes and the understated ironies of the global city **The Diversity**

Machine Frederick R. Lynch, 2017-07-05 Diversity has become the turn of the century buzzword Republican and Democratic leaders ritually chant diversity is our strength and corporate CEOs talk about the need to create a workforce that looks like America Most corporate mission statements now contain a clause on valuing differences and millions of employees have completed or soon will undergo some sort of diversity training Where did all this come from and why Who created diversity programs How do they differ How effective are these policies Can they do more harm than good in organizations and in the wider society During the past decade sociologist Frederick R Lynch studied the rise of a social policy movement that has successfully moved multiculturalism from universities and foundations into the courts mass media and the American workplace The new diversity policies are future oriented and market driven eclipsing old affirmative action debates about overcoming past discrimination against blacks Based on more than six years of field research and hundreds of interviews Lynch tracks the development and impact of different forms of diversity policies at dozens of consultant gatherings in the business and professional literature and through in depth case studies such as the Los Angeles Sheriff s Department and the University of Michigan Ann Arbor He profiles the major consultants who have powered the diversity machine analyzes the benefits and drawbacks of various approaches to workplace diversity and provides numerous you are there samples of workshops seminars and conferences The book is written for the general reader interested in public policy issues social scientists and others interested in the origins and consequences of workplace diversity policies **The Power of Urban**

Ethnic Places Jan Lin, 2010-10-18 *The Power of Ethnic Places* discusses the growing visibility of ethnic heritage places in U S society The book examines a spectrum of case studies of Chinese Latino and African American communities in the U S disagreeing with any perceptions that the rise of ethnic enclaves and heritage places are harbingers of separatism or balkanization Instead the text argues that by better understanding the power and dynamics of ethnic enclaves and heritage

places in our society we as a society will be better prepared to harness the economic and cultural changes related to globalization rather than be hurt or divided by these same forces of economic and cultural restructuring *Whitewashed Adobe* William F. Deverell, William Deverell, 2004-06-03 *Whitewashed Adobe* explores how the identity of Los Angeles has evolved particularly how the city has made cultural appropriations from Mexico over the past 150 years **Planning for the Unplanned** Aseem Inam, 2013-11-26 How do cities plan for the unplanned Do cities plan for recovery from every possible sudden shock How does one prepare a plan for the recovery after a tragedy like the September 11 2001 terrorist attacks on New York The book discovers the systematic features that contribute to the success of planning institutions In cities filled with uncertainty and complexity planning institutions effectively tackle unexpected and sudden change by relying on the old and the familiar rather than the new and the innovative The author argues that planning programs institutions were successful because they were bureaucratic and relied on standardized routines rigorous sets of established regimes familiar programs and institutionalized hierarchies Also contrary to popular perception neither the leaders at the top of the institutions nor those workers at the grassroots level were the most important in the implementation of such routines The key actors were middle managers because they knew the institutional structures inside out what the routines were and how to use them and were successful go betweens between national governments and grassroots community groups Case studies from Mexico City Los Angeles and New York provide a deeper understanding of urban planning processes The case studies reveal that systematic institutional analysis helps us understand what works in planning and why They also demonstrate the manner in which institutional routines serve as powerful and effective tools for addressing novel situations **Reader's Guide to American History** Peter J. Parish, 2013-06-17 There are so many books on so many aspects of the history of the United States offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want The Reader's Guide to American History is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography Each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs The entries are devoted to events and individuals as well as broader themes and are written by a team of well over 200 contributors all scholars of American history LA Rising Kyeyoung Park, 2019-08-22 In *LA Rising* Korean Relations with Blacks and Latinos after Civil Unrest Kyeyoung Park revisits the Los Angeles unrest of 1992 and the interethnic and racial tensions that emerged She examines how structural inequality impacted relations among Koreans African Americans and Latinos Park explores how race citizenship class and culture were axes of inequality in a multi tiered racial cartography that affected how Los Angeles residents thought about and interacted with each other and were emphasized in the processes of social inequality and conflict For more information click here <https://lasocialscience.ucla.edu/2021/02/24/la-social-science-book-series-on-korean-intergroup-relations>
