Women and Knowledge in Mesoamerica Paloma Martinez-Cruz,2017-12-01 Paloma Martinez Cruz argues that the medicine traditions of Mesoamerican women constitute a hemispheric intellectual lineage that continues to thrive despite the legacy of colonization Martinez Cruz asserts that indigenous and mestiza women healers are custodians of a knowledge base that remains virtually uncharted The few works looking at the knowledge of women in Mesoamerica generally examine only the written even academic world accessible only to the most elite segments of customarily male society These works have consistently excluded the essential repertoire and performed knowledge of women who think and work in ways other than the textual And while two of the book s chapters critique contemporary novels Martinez Cruz also calls for the exploration of non textual knowledge transmission In this regard the book s goals and methods are close to those of performance scholarship and anthropology and these methods reveal Mesoamerican women to be public intellectuals In *Women and Knowledge in Mesoamerica* fieldwork and ethnography combine to reveal women healers as models of agency Her multidisciplinary approach allows Martinez Cruz to disrupt Euro based intellectual hegemony and to make a case for the epistemic authority of Native women Written from a Chicana perspective this study is learned personal and engaging for anyone who is interested in the wisdom that prevailing analytical cultures have deemed unintelligible As it turns out those who are unacquainted with the sometimes surprising extent and depth of wisdom of indigenous women healers simply haven t been looking in the right places outside the texts from which they have been consistently excluded **Book of the Fourth World** Gordon Brotherston,1995-11-24 The Book of the Fourth World offers detailed analyses of texts that range far back into the centuries of civilised life from what is now Latin and Anglo America At the time of its discovery the American continent was identified as the Fourth World of our planet In the course of just a few centuries its original inhabitants though settled there for millennia and countable in many millions have come to be perceived as a marginal if not entirely dispensable factor in the continent s destiny Today the term has been taken up again by its native peoples to describe their own world both its threatened present condition and its political history which stretches back thousands of years before Columbus In order to explore the literature of this world Brotherston uses primary sources that have traditionally been ignored because they have not conformed to Western definitions of oral and written literature such as the scrolls of the Algonkin the knotted strings Quipus of the Inca Navajo dry paintings and the encyclopedic pages of Meso America s screenfold books *National Library of Medicine Current Catalog* National Library of Medicine (U.S.),1993 **Current Catalog** National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 *An Eye on Race* John Beusterien,2006 Racism in the modern nation state is based on a Continental and an American model In the Continental model the racist differentiates the raced individual by religion Because this raced individual is indistinguishable from the racist a narrative is

written to see that individual In turn in the American model the racist differentiates the raced individual based on skin color Because the sign of difference is obvious no story is written to justify racist thinking By 1550 both models form part of imperial thinking in the Iberian world system An Eye on Race Perspectives from Theater in Imperial Spain describes these models at work in imperial Spanish theater The study reveals how the display of blood in drama serves the Continental model and how the display of skin color serves the American model It also elucidates how Miguel de Cervantes celebrates a subaltern aesthetic as he discards both racial paradigms John Beusterien is Associate Professor of Spanish at Texas Tech University
