Losing A Life A Daughters Memoir Of Caregiving:

Losing a Life Nancy Gerber,2005-02-23 In this thought provoking memoir Nancy Gerber maps the wrenching terrain of caring for an elderly parent In the fall of 1995 at the age of 73 the author s father suffered a massive stroke on the right side of the brain rendering him permanently disabled This catastrophic event plunged the author and her family into a crisis for which they were completely unprepared one that included financial worries the need to hire full time live in help and the specter of putting her father into a nursing home Even more wrenching was the demise of the parent she had always known From an active gregarious man with hobbies and friends a man who had been working at the time of the stroke her father became withdrawn hostile and silent This profound loss was aggravated by the stress and anxiety that characterize family caregiving In honest evocative prose the author describes her struggle to negotiate the competing demands of love filial responsibility familial conflict and personal autonomy that arise when a parent becomes ill *Mothers of Adult Children*

Marguerite Guzman Bouvard,2013-09-12 *Mothers of Adult Children* elucidates what happens when children come of age and leave home creating new lives in the realms of work and relationships Mothers from around the world learn that this is the point in which their relationships with their children must drastically change Mothers often come to terms with the changes by accepting differences and providing moral and emotional support when needed However the evolutionary nature of mothers roles throughout the course of their children s lives is not only determined by the mother child dynamic The mothering of adult children is a transformative role and the stories presented here show that the dynamics between mother and child are also influenced by cultural events Accidents disasters war and other hardships also intervene in these stories of multicultural motherhood This book reveals the problems mothers of adult children face and celebrates the outstanding accomplishments of those who mother through hardship *Parenting and Professing* Rachel Hile Bassett,2005 Featuring many personal accounts the twenty four essays in this collection explore the challenges and possibilities confronting those especially women who combine parenting and academic work Written by a diverse group of educators who present a real world variety of situations the collection also includes ideas for change at the individual interpersonal policy and system levels

The Work of Life Writing G. Thomas Couser,2021-04-13 Life writing in its various forms does work that other forms of expression do not it bears on the world in a way distinct from imaginative genres like fiction drama and poetry it acts in and on history in significant ways Memoirs of illness and disability often seek to depathologize the conditions that they recount Memoirs of parents by their children extend or alter relations forged initially face to face in the home At a time when memoir and other forms of life writing are being produced and consumed in unprecedented numbers this book reminds readers that memoir is not mainly a literary genre or mere entertainment Similarly letters are not merely epiphenomena of our real lives Correspondence does not just serve to communicate it enacts and sustains human relationships Memoir matters and there s life in letters All life writing arises of our daily lives and has distinctive impacts on them and the culture in which we live

Zimmermann,2017-06-07 This book is open access under a CC BY 4 0 license This is the first book length exploration of the thoughts and experiences expressed by dementia patients in published narratives over the last thirty years It contrasts third person caregiver and first person patient accounts from different languages and a range of media focusing on the poetical and political questions these narratives raise what images do narrators appropriate what narrative plot do they adapt and how do they draw on established strategies of life writing It also analyses how these accounts engage with the culturally dominant Alzheimer s narrative that centres on dependence and vulnerability and addresses how they relate to discourses of gender and aging Linking literary scholarship to the medico scientific understanding of dementia as a neurodegenerative
