Violence Against Queer People Doug Meyer,2015-10-11 Violence against lesbians and gay men has increasingly captured media and scholarly attention But these reports tend to focus on one segment of the LGBT community white middle class men and largely ignore that part of the community that arguably suffers a larger share of the violence racial minorities the poor and women In Violence against Queer People sociologist Doug Meyer offers the first investigation of anti queer violence that focuses on the role played by

race class and gender Drawing on interviews with forty seven victims of violence Meyer shows that LGBT people encounter significantly different forms of violence and perceive that violence quite differently based on their race class and gender His research highlights the extent to which other forms of discrimination including racism and sexism shape LGBT people s experience of abuse He reports for instance that lesbian and transgender women often described violent incidents in which a sexual or a misogynistic component was introduced and that LGBT people of color sometimes weren t sure if anti queer violence was based solely on their sexuality or whether racism or sexism had also played a role Meyer observes that given the many differences in how anti queer violence is experienced the present media focus on white middle class victims greatly oversimplifies and distorts the nature of anti queer violence In fact attempts to reduce anti queer violence that ignore race class and gender run the risk of helping only the most privileged gay subjects Many feel that the struggle for gay rights has largely been accomplished and the tide of history has swung in favor of LGBT equality Violence against Queer People on the contrary argues that the lives of many LGBT people particularly the most vulnerable have improved very little if at all over the past thirty years

Queering the Countryside Mary L. Gray, Colin R. Johnson, Brian J. Gilley, 2016-03-15 This collection of original essays confronts the assumption that queer desires depend upon urban life for meaning By considering rural queer life the contributors challenge readers to explore queer experiences in ways that give greater context and texture to modern practices of identity formation The book s focus on understudied rural spaces throws into relief the overemphasis of urban locations and structures in the current political and theoretical work on queer sexualities and genders It highlights the need to rethink notions of the closet and coming out and the characterizations of non urban sexualities and genders as isolated and in need of outreach Provided by publisher

Sex in Crisis Dagmar Herzog, 2008-07-01 The Religious Right has fractured the pundits tell us and its power is waning Is it true have evangelical Christians lost their political clout When the subject is sex the answer is definitively no Only three decades after the legalization of abortion the broad gains of the feminist movement and the emergence of the gay rights movement Americans appear to be doing the time warp again It s 1950s redux Politicians including many Democrats insist that abstinence is the only acceptable form of birth control Fully fifty percent of American high schools teach a sex education curriculum that includes deceptive information about the prevalence of STDs and the failure rates of condoms Students are taught that homosexuality is curable and that premarital sex ruins future marital happiness Afraid of sounding godless American liberals have failed to challenge these retrograde orthodoxies The truth is Americans have not become anti sex but they have become increasingly anxious about sex not least due to the stratagems of the Religious Right There has been a war on sex in America a war conservative evangelicals have in large part already won How did the Religious Right score so many successes Historian Dagmar Herzog argues that conservative evangelicals appropriated the lessons of the first sexual revolution far more effectively than liberals With the support of a multimillion dollar Christian sex industry evangelicals crafted an astonishingly graphic and effective pitch for the

pleasures of hot monogamy for married heterosexual couples only This potent message enabled them to win elections and seduce souls with disastrous political consequences Fierce witty and brilliant *Sex in Crisis* challenges America's culture of sexual dysfunction and calls for a more sophisticated national conversation about the facts of life *Writing Desire* Bertram Cohler, 2007-05-15 Exploring nearly sixty years of memoir and autobiography *Writing Desire* examines the changing identity of gay men writing within a historical context Distinguished scholar and psychoanalyst Bertram J Cohler has carefully selected a diverse group of ten men including historians activists journalists poets performance artists and bloggers whose life writing evokes the evolution of gay life in twentieth century America By contrasting the personal experience of these disparate writers Cohler illustrates the social transformations that these men helped shape Among Cohler's diverse subjects is Alan Helms whose journey from Indiana to New York's gay society represents the passage of men who came of age in the 1950s and 1960s when homosexuality was considered a hidden disease The liberating effects of Stonewall's aftermath are chronicled in the life of Arnie Kantrowitz the prototypical activist for gay rights in the 1970s and the founder the Gay and Lesbian Alliance against Defamation The artistic works of Tim Miller and Mark Doty evoke loss and shock during the early stages of the AIDS epidemic in the 1980s Cohler rounds out this collective group portrait by looking at the newest generation of writers in the Internet age via the blog of BrYaN who did the previously unthinkable he outed himself to millions of people A compelling mix of social history and personal biography *Writing Desire* distills the experience of three generations of gay America Finalist LGBT Studies Lambda Literary Foundation **Systemic Racism** Ruth Thompson-Miller, Kimberley Ducey, 2017-10-17 This volume identifies some of the remaining gaps in extant theories of systemic racism and in doing so illuminates paths forward The contributors explore topics such as the enduring hyper criminalization of blackness the application of the white racial frame and important counter frames developed by people of color They also assess how African Americans and other Americans of color understand the challenges they face in white dominated environments Additionally the book includes analyses of digitally constructed blackness on social media as well as case studies of systemic racism within and beyond U S borders This research is presented in honor of Kimberley Ducey's and Ruth Thompson Miller's teacher mentor and friend Joe R Feagin Sexuality, Rurality, and Geography Andrew Gorman-Murray, Barbara Pini, Lia Bryant, 2012-12-27 This international edited collection contributes to knowledge about the geographies of sexualities experienced and imagined in rural spaces The book draws attention to the heterogeneity of rural contexts and the diversity of meanings about sexualities within and across these spaces The collection examines four key themes First Intimacies and Institutions focuses on how intimate relationships are governed by societal discursive and institutional structures and regulated by social political and legal frames of citizenship and belonging The chapters present historical and contemporary case studies of the constitution and management of intimate sexual lives and relationships in rural and non metropolitan spaces Second Communities explores how sexual identities are socially constructed and relationally performed in rural

Nonfiction Book Lambda Literary Awards 2020 On October 14 1998 five thousand people gathered on the steps of the U S Capitol to mourn the death of Matthew Shepard a gay college student who had been murdered in Wyoming eight days earlier Politicians and celebrities addressed the crowd and the televised national audience to share their grief with the country Never before had a gay citizen's murder elicited such widespread outrage or concern from straight Americans In Dying to Be Normal Brett Krutzsch argues that gay activists memorialized people like Shepard as part of a political strategy to present gays as similar to the country's dominant class of white straight Christians Through an examination of publicly mourned gay deaths Krutzsch counters the common perception that LGBT politics and religion have been oppositional and reveals how gay activists used religion to bolster the argument that gays are essentially the same as straights and therefore deserving of equal rights Krutzsch's analysis turns to the memorialization of Shepard Harvey Milk Tyler Clementi Brandon Teena and F C Martinez to campaigns like the It Gets Better Project and national tragedies like the Pulse nightclub shooting to illustrate how activists used prominent deaths to win acceptance influence political debates over LGBT rights and encourage assimilation Throughout Krutzsch shows how in the fight for greater social inclusion activists relied on Christian values and rhetoric to portray gays as upstanding Americans As Krutzsch demonstrates gay activists regularly reinforced a white Protestant vision of acceptable American citizenship that often excluded people of color gender variant individuals non Christians and those who did not adhere to Protestant Christianity's sexual standards The first book to detail how martyrdom has influenced national debates over LGBT rights Dying to Be Normal establishes how religion has shaped gay assimilation in the United States and the mainstreaming of particular gays as normal Americans **Activism and LGBT Psychology**

Ashley,Marla J. Jarmer,2015-11-11 Issue framing is the way that people especially politicians get other people to view a particular problem or issue By framing the issue in a particular way the goal is to get people to think about the issue to believe that an action is required and most importantly to believe that a particular action the one being proposed by the framer is the right one The use of language and imagery is an essential part of issue framing and has been an integral part of the presidency since our nation s founding but it has become particularly important since Theodore Roosevelt began to take his message directly to the people This work examines a selected speech delivered by every president from Roosevelt through Barack Obama to show how language has been instrumental in directing policy Each chapter will examine the situation or background for the problem include a transcript of the speech the president delivered and conclude with an analysis of the speech in terms of the particular frame that the speech utilized and the eventual outcome or policy direction inspired by the speech Lost in the New West Mark Asquith,2021-10-07 *Lost in the New West* investigates a group of writers John Williams Cormac McCarthy Annie Proulx and Thomas McGuane who have sought to explore the tensions inherent to the Western where the distinctions between old and new myth and reality authenticity and sentimentality are frequently blurred Collectively these authors demonstrate a deep seated attachment to the landscape people and values of the West and offer a critical appraisal of the dialogue between the contemporary West and its legacy Mark Asquith draws attention to the idealistic young men at the center of such works as Williams s *Butcher s Crossing* 1960 McCarthy s *Blood Meridian* 1985 and *Border Trilogy* Proulx s Wyoming stories and McGuane s *Deadrock* novels For each writer these characters struggle to come to terms with the difference between the suspect mythology of the West that shapes their identity and the reality that surrounds them They are in short lost in the new West **Queering Paradigms** Burkhard Scherer,2009 This book brings together original peer reviewed research providing new perspectives on the status quo and challenges for the future of Queer Theory Queer Studies Drawing inspiration from
